Ansari,1973-01-19 *Water, Engineers, Development, and Disease in the Tropics* Frederick Eugene McJunkin,1975 Water and health Control of schistosomiasis Ecology of snail vectors of schistosomiasis Engineering measures for control of schistosomiasis Chemical control of snail vectors

Schistosomiasis Mohammad Bagher Rokni,2012-01-13 In the wake of the invitation by InTech this book was written by a number of prominent researchers in the field It is set to present a compendium of all necessary and up to date data to all who are interested Schistosomiasis or blood fluke disease also known as Bilharziasis is a parasitic disease caused by helminths from a genus of trematodes entitled Schistosoma It is a snail borne trematode infection The disease is among the Neglected Tropical Diseases catalogued by the Global Plan to combat Neglected Tropical Diseases 2008 2015 and is considered by the World Health Organization WHO to be the second most socioeconomically devastating parasitic disease next to malaria WHO demonstrates that schistosomiasis affects at least 200 million people worldwide more than 700 million people live in endemic areas and more than 200 000 deaths are reported annually It leads to the loss of about 4 5 million disability adjusted life years DALYs **Naval Research Reviews** ,1973 Environmental Impact of the Golden Snail (Pomacea Sp.) on Rice Farming Systems in the Philippines Belen O. Acosta,Roger S. V. Pullin,1991 *Snail Transmitted Parasitic Diseases* Emile A. Malek,2018-05-04 Research on snail transmitted disease has continued at a considerable pace during the last twenty years and several investigators have made valuable contributions to our knowledge of these diseases The objective of this book is to present an up to date account of the infections or diseases of the world which are transmitted by snails and in which each disease is considered in much greater detail than is usually provided by textbooks on general medical or veterinary parasitology These two volumes cover the infections or diseases that are caused by certain helminths which are transmitted by snails *Advances in Parasitology* ,1970-02-28 *Advances in Parasitology* **Toolkit for Integrated Vector Management in Sub-Saharan Africa (A)** World Health Organization,2016-07-27 This toolkit for integrated vector management IVM is designed to help national and regional programme managers coordinate across sectors to design and run large IVM programmes It is an extension of earlier guidance and teaching material published by the World Health Organization WHO Handbook for integrated vector management Monitoring and evaluation indicators for integrated vector management Guidance on policy making for integrated vector management and Core structure for training curricula on integrated vector management The toolkit provides the technical detail required to plan implement monitor and evaluate an IVM approach IVM can be used when the aim is to control or eliminate vector borne diseases and can also contribute to insecticide resistance management This toolkit provides information on where vector borne diseases are endemic and what interventions should be used presenting case studies on IVM as well as relevant guidance documents for reference The diseases that are the focus of this toolkit are malaria lymphatic filariasis dengue leishmaniasis onchocerciasis human African

trypanosomiasis and schistosomiasis It also includes information on other viral diseases Rift Valley fever West Nile fever Chikungunya yellow fever and trachoma If other vector borne diseases appear in a country or area vector control with an IVM approach should be adopted as per national priorities Malaria as one of the most important vector borne diseases in sub Saharan Africa is the main focus of this document Programmes targeting other vector borne diseases can learn from the experiences gained from malaria vector control and presented here National Library of Medicine Current Catalog National Library of Medicine (U.S.), **Public Health Reports** ,1968 Pesticides Documentation Bulletin ,1966

Local Environmental Change and Society in Africa M.A. Salih,2013-03-14 Social and natural scientists are currently obsessed with globalization but this has not been matched by an equal interest in the societal consequences of local environmental change Attention has thus been withdrawn from community and locality and transferred to global processes with an indifference to the reality of those at the receiving end of the social economic and political problems that globalization create Local reality is obscured and conditions are imposed that are often insensitive to or even distort local needs resource management and production systems The case studies presented here illustrate how environmental degradation has contributed to the distortion of local institutions and economies thus denying local communities the right to live in a productive and healthy environment The contributors highlight the seriousness of the difficulties involved in conflating national policies and local reality and imposing global policy instruments on local communities Understandably the case studies demonstrate that local communities resist putting their faith in environmental policies and plans imposed on them by global or national institutions that often deprive them of access to and control over their local environment
