Stiggins, Judith A. Arter, Steve Chappuis, 2016-06-16 Classroom Assessment for Student Learning 2e is a combination textbook and workbook grounded in research shown to increase student motivation and learning through improved classroom assessment. This user-friendly practical book is full of real world examples of what assessment for learning looks like in today's classrooms. Presented in a format appropriate for use by individuals or collaborative learning teams, the book teaches two central concepts: How to create accurate classroom assessments of all types and how to integrate assessment with instruction day to day with a focus on student involvement. In *Seven Strategies of Assessment Learning*, author Jan Chappuis gives K to 12 classroom teachers an incisive look at seven practical strategies structured around three essential questions: Where am I going? Where am I now? and How can I close the gap? Complete with research-based recommendations about assessment practices for improving student achievement, the book is sequenced to help teachers easily weave formative assessment practices into daily teaching and assessment activities at all levels. After introducing the strategies and the research base for formative assessment practices, the remaining chapters explain each strategy in detail, provide a research-based rationale for using the strategy, describe how the strategy can be applied in contexts ranging from kindergarten through high school in a range of subject areas, and offer instructions for carrying out core procedures and suggestions for adaptations. The new features include new more recent research, extended examples of the strategies, and improved features that make the text easier to use for collaborative learning. 0134651731 9780134651736 Classroom Assessment for Student Learning Doing It Right Using It Well Plus Seven Strategies of Assessment for Learning
