Snowfields The War On Cocaine In The Andes

Robin Cohen, Paul Kennedy

Snowfields The War On Cocaine In The Andes:

Snowfields Clare Hargreaves, 1992 British journalist Hargreaves examines the cocaine industry in Bolivia which has tripled since the US instigated drug war against Colombians She interviews dealers growers addicts and officials of both the Bolivian and US government and concludes that the trade must be stopped at the demand end not the supply end Paper edition unseen 16 95 Annotation copyrighted by Book News Inc Portland OR **Cocaine, Death Squads, and the War on Terror** Oliver Villar, Drew Cottle, 2011-11-01 Since the late 1990s the United States has funneled billions of dollars in aid to Colombia ostensibly to combat the illicit drug trade and State Department designated terrorist groups The result has been a spiral of violence that continues to take lives and destabilize Colombian society This book asks an obvious question are the official reasons given for the wars on drugs and terror in Colombia plausible or are there other deeper factors at work Scholars Villar and Cottle suggest that the answers lie in a close examination of the cocaine trade particularly its class dimensions Their analysis reveals that this trade has fueled extensive economic growth and led to the development of a narco state under the control of a narco bourgeoisie which is not interested in eradicating cocaine but in gaining a monopoly over its production The principal target of this effort is the Revolutionary Armed Forces of Colombia FARC who challenge that monopoly as well as the very existence of the Colombian state Meanwhile U S business interests likewise gain from the cocaine trade and seek to maintain a dominant imperialist relationship with their most important client state in Latin America Suffering the brutal consequences as always are the peasants and workers of Colombia This revelatory book punctures the official propaganda and shows the class war underpinning the politics of the Colombian cocaine trade

Illegal Drugs, Economy, and Society in the Andes Francisco E. Thoumi, 2003 Table of contents *The War on Drugs* Ron Chepesiuk, 1999-12-17 Here is the whole story of the world of drugs from the infamous Opium Wars to the legal availability of narcotics in the United States during the past century from the unexpected boost given to illicit drugs by Prohibition to the great success of the French Connection The global drug trade is one of the most prominent examples of the law of supply and demand Despite such countermeasures as the execution of narcotics dealers in China and the United States s much ballyhooed War on Drugs drug traffickers have always managed to meet the demand and satisfy an ever growing customer base In addition to offering a wealth of little known facts The War on Drugs also covers major dealers cartels organizations smuggling and anti smuggling strategies major miscalculations and disasters drug epidemics legal restraints famous incidents and more **Drugs and Democracy in Latin America** Coletta Youngers, Eileen Rosin, 2005 While the U S has failed to reduce the supply of cocaine and heroin entering its borders it has however succeeded in generating widespread often profoundly damaging consequences on democracy and human rights in Latin America and the Caribbean **Bolivia and Coca** James Painter, 1994 *The Politics of Lying* L. Cliffe, M. Ramsay, D. Bartlett, 2000-03-17 This book provides the first attempt to synthesise what is a pervasive phenomenon and one that is mentioned tangentially in

many political analyses but nowhere receives the systematic and theoretical treatment that its significance to the working of democratic political practice deserves It will thus be a volume that should interest a range of scholars in government and political theory in comparative politics and communications **Impasse in Bolivia** Benjamin Kohl,Linda C.

Farthing,2013-07-04 Bolivia has experienced two decades of unprecedented popular resistance to the consequences of neoliberal policies resulting in the resignation and flight of its president in October 2003 This unusual book uncovers the reasons and processes behind the rising opposition mirrored in country after country in Latin America to this currently fashionable internationally prescribed approach to economic development It explores the problems faced by governments in reproducing global strategies at the national level the tensions between markets and democracy state restructuring citizenship and property rights It points to the problems inherent in retaining neoliberalism as the dominant paradigm in Latin America for the foreseeable future and the unlikely prospect of it putting down real roots of approval and legitimacy

Killer Elite Michael Smith,2008-03-04 A British journalist specializing in defense topics offers a readable useful addition to the literature on American special operations forces Drugs in the Western Hemisphere William O. Walker (III),1996 Argues that a history of drugs is a study of cultures in competition **Latin America and the Multinational Drug Trade** Elizabeth Joyce,Carlos Malamud,2016-07-27 In some Latin American countries traffickers equipped with vast resources have corrupted individuals in every aspect of public life compromising the integrity of entire national institutions the political system and the judiciary the military the police and banking and financial systems Moreover Latin America like Europe and the USA has a drug consumption problem Yet drug control in Latin America is beset with contradictions For some Latin Americans illicit drug production in the form of coca cultivation is a traditional way of life and has often been an economic bulwark against destitution Attempts to control the drug trade while absorbing vast resources have been largely ineffectual and have had dramatic and unintended consequences This book analyses the profound consequences that the illicit drug trade has for millions of Latin Americans and what they imply for domestic policy and for international cooperation Latin America and the Multinational Drug Trade is essential reading for students of Latin America politics international relations security studies foreign policy economic development criminology and law and for anyone interested in the politics and economics of the global illicit drug trade *Opium's Orphans* P. E. Caquet,2022-07-06 Upending all we know about the war on drugs a history of the anti narcotics movement s origins evolution and questionable effectiveness *Opium s Orphans* is the first full history of drug prohibition and the war on drugs A no holds barred but balanced account it shows that drug suppression was born of historical accident not rational design The war on drugs did not originate in Europe or the United States and even less with President Nixon but in China Two Opium Wars followed by Western attempts to atone for them gave birth to an anti narcotics order that has come to span the globe But has the war on drugs succeeded As opioid deaths and cartel violence run rampant contestation becomes more vocal and marijuana is slated for legalization *Opium s Orphans*

proposes that it is time to go back to the drawing board The Politics of Organized Crime and the Organized Crime of Politics Alfredo Schulte-Bockholt,2006-03-07 More than simply a study of the mafia Alfredo Schulte Bockholt s work argues that collaboration between political science and criminology is critical to understanding the real nature of organized crime and its power Schulte Bockholt looks at specific case studies from Asia Latin America and Europe as he develops a theoretical discussion drawing on the thought of Max Horkheimer Theodor Adorno and Antonio Gramsci of the intimate connections between criminal groups and elite structures Ranging from an historical discussion of the world drug economy to an examination of the evolution of organized crime in the former Soviet Union the book extends into a consideration of the possible future development of organized crime in the age of advanced globalization **Latin American and Caribbean Foreign Policy** Frank O. Mora,Jeanne A. K. Hey,2003 Latin American and Caribbean country foreign policy studies Good bibliography *Global Sociology, Third Edition* Robin Cohen,Paul Kennedy,2013-03 The third edition explores global issues at the heart of sociological discussion with an updated focus on globalism social media migration and more The first pioneering editions of Global Sociology put global issues at the heart of sociological discussion Much has changed in the world since then recessions revolutions social media and new migration networks have developed as causes and symptoms of an increasingly global society This new edition is fully updated to explore just how these global issues can help us to understand sociology in our world today Making clear connections between everyday experiences and global processes at each step the third edition carefully guides readers through essential and cutting edge topics in the discipline from family and feminism to environment and economy Features such as biography boxes on key thinkers in the field a thorough glossary and review questions introduce and reinforce the book s core ideas With clear writing and infectious enthusiasm for its topic Global Sociology remains the authority on global issues in sociology for students at a variety of skill levels *A Political Geography of Latin America* Jonathan R. Barton,2002-11-01 The nation states and peoples of South and Central America Cuba Haiti and the Dominican Republic that together form the political geographical region of Latin America encompass a wide range of societies politics and economies This text exposes the differences between places regions and countries individuals and societies offering an invaluable insight into the themes of political and economic development and provides a guide to understanding power and space relations From the Antarctic to the tropical jungles the coastal communities to the highland villages the mega cities to isolated rural existence the political geographies of lives localities cities and rurality are too sophisticated to be subjected to generalizations Adopting a critical human geography perspective Jonathon Barton provides an understanding of similarities difference and sophisticated human geographies **Radicals in Power** Gianpaolo Baiocchi,2003-10-17 This book throws real light on the single most strategic tendency in Brazilian politics in recent years **Global Sociology** Robin Cohen,Paul Kennedy,2017-09-09 A core introduction to Sociology that puts global issues at the heart of its discussion From recessions and revolutions to social media and migration this third edition is fully updated to

explore just how these issues can help us to understand the role of Sociology in our world today With clear writing and infectious enthusiasm for its topic it evaluates the connections between everyday experiences and larger processes Combining discussion of global challenges with an emphasis on critical thinking this lively text offers an engaging introduction ideally suited for first year Sociology modules In addition it can be used as a standalone text on more specialised modules on Globalisation or as complimentary reading on courses dealing with issues such as Work Class and Gender Race Crime or Leisure from a global perspective New to this Edition Incorporates coverage of the global financial crisis the environment family and intimacy and technology An improved companion website with resources for students at more advanced stages and for instructors Updated further guidelines for primary sources and additional reading

Miraculous Metamorphoses J. Demmers,A.E. Fernandez Jilberto,Barbara Hogenboom,2001-03 This volume examines a central conundrum of Latin American politics How is that the triumph of neoliberal inspired economic restructuring in the 1980s and 90s did not cause the political demise of populist movements What is remarkable as these scholars show is that Latin American populist parties which had long been associated with statist quasi Keynesian even demagogic economic policies have survived the transition to the much harsher era of free markets privatisation unemployment and increasing inequality And without apparently losing their political popularity in contrast both to the far left and traditional oligarchic parties Indeed Latin American populist forces seem to have made neoliberalism their own The Editors have carefully chosen from South and Central America a representative set of countries through which to explore this phenomenon Argentina Chile Brazil Peru Ecuador Mexico El Salvador and Nicaragua What emerges is an up to date nuanced modern political history of Latin America which does full justice to the distinctive political paths of each country while at the same time making clear the significant extent to which the region s populist tradition as a whole has adapted to the new economic realities This is in marked contrast to the very different political trajectories of Africa and Asia in the past two decades

Transnational Crimes in the Americas Marshall B. Lloyd,2018-10-30 Transnational Crimes in the Americas addresses contemporary issues with respect to public institutions that are stakeholders in the fight against globalization of crime Regional public organizations with a primary focus on the Americas constitute a framework for understanding the need for an institutional response within the Western Hemisphere While other authors have addressed the growth of organized crime no one has explained institutional developments in the struggle against transnational crimes Transnational Crimes in the Americas highlights existing organizations emphasizing a regional response to transnational crimes suggestions for a permanent criminal court in the Americas and an appraisal of the current state of institutional developments in the region
