So Noble A Captain The Life And Times Of Ferdinand Magellan:

So Noble a Captain Charles McKew Parr,1975 **So Noble a Captain** Charles McKew Parr,1955 **Magellan and the First Voyage Around the World** Nancy Smiler Levinson,2001 A biography of the Portuguese sea captain who set sail from Spain in 1519 and successfully sailed around the world to prove that the world is not only round but circumnavigable

To the Edge of the World Michele Torrey,2007-12-18 ORPHANED BY THE plague and penniless Mateo must find his way in the world By chance he is made a cabin boy on the celebrated voyage of Captain General Ferdinand Magellan The destination is secret but the crew whispers that Magellan will be the first to sail east to the Spice Islands by going west and everyone shall return with untold riches At sea Mateo discovers the meaning of friendship loyalty and hard work as well as the delight of first love But when the ocean rages and brother turns against brother both Mateo and Magellan are in danger and it s not clear if anyone will survive Torrey deftly maintains the taut thread of adventure that along with the cast of memorable characters keep the pages turning Publishers Weekly Starred This deserves to be in the hands of every reader who loves history and adventure Kirkus Reviews The Biography Book Daniel S. Burt,2001-02-28 From Marilyn to Mussolini people captivate people A E s Biography best selling autobiographies and biographical novels testify to the popularity of the genre But where does one begin Collected here are descriptions and evaluations of over 10 000 biographical works including books of fact and fiction biographies for young readers and documentaries and movies all based on the lives of over 500 historical figures from scientists and writers to political and military leaders to artists and musicians Each entry includes a brief profile autobiographical and primary sources and recommended works Short reviews describe the pertinent biographical works and offer insight into the qualities and special features of each title helping readers to find the best biographical material available on hundreds of fascinating individuals **The Killing of Dr. Albrecht Roscher** J. W. Heldring,2011-11-30 Africa in the mid nineteenth century was still very much an unknown continent its vast lands a source of unceasing interest and mystery La the white man This was the age of discovery the decades before the fascination wore off and the scramble for Africa began in earnest Explorers such as Burton Speke and Livingstone were the names on everyone s lips In this climate Albrecht Roscher grew up La be an outstanding young scholar whose interest in the works of classical writers such as Ptolemy and Herodotus inspired in him a love of geography science and biology which the achievements of Burton and others only served to inflame Africa beckoned However little did he imagine as he left Germany for the shores of East Africa that he would never return His murder before he managed to fulfill his ambitions has ensured that he has been largely consigned to a footnote in the history of African exploration In The Killing of Dr Albredlt Roscher Heldring sets out to redress the balance in what is a fitting tribute to a man who had he lived longer might have gone on to rival the achievements of Burton Livingstone and the other great explorers of that age **Magellan's Voyage Around the World** Charles Edward Nowell,2018-12-02 a fundamental work for anyone who desires both the English version of the story of this

path breaking voyage and an up to date evaluation of the scholarly production about the voyage that has appeared during the last four and a half centuries Lewis Hanke Columbia University Today when men orbit the globe in a few minutes it is difficult to imagine the awe that accompanied the news of the three years voyage completing man s first circumnavigation of the earth Wonder and amazement marked the contemporary accounts of Magellan s hazardous adventure and now the three best accounts have been gathered into one volume and provided with an introduction and commentary based on the most accurate historical information available by an eminent scholar of Hispanic studies Included are translations of the accounts by Antonio Pigafetta one of the eighteen actual survivors of the 241 who undertook the voyage by the secretary of Emperor Charles V Maximilian of Transylvania who wrote a long report based on first hand accounts to his father the Cardinal of Salzburg and by Gaspar Correa a Portuguese historian who twenty years later wrote of the voyage mixing fact with fanciful tales of the Far East Several of the maps prepared for this edition are in the style of the period and represent conceptions of the world as seen by cartographers and navigators at the beginning of the Age of Discovery

Interpreting Our World

Joseph J. Kerski,2016-10-17 This important book demonstrates why geography matters in the modern day world through its examination of 100 moments throughout history that had a significant impact on the study of geography literally writing about the earth Geography is not simply accounts of the lands of earth and their features it s about discovering everything there is to know about our planet This book shows why geography is of critical importance to our world s 21st century inhabitants through an exploration of the past and present discoveries that have been made about the earth It pinpoints 100 moments throughout history that had a significant impact on the study of geography and the understanding of our world including widely accepted maps of the ancient world writings and discoveries of key thinkers and philosophers key exploration events and findings during the Age of Discovery the foundations of important geographic organizations and inventions in digital mapping The book begins with a clear explanation of geography as a discipline a framework and a way of viewing the world followed by coverage of each of the 100 discoveries and innovations that provides sufficient background and content for readers to understand each topic The book concludes with a concise synopsis of why it all matters and a look forward to 10 possible future discoveries in the next 50 years of geography Students will gain a clear sense of what is truly revolutionary about geography perhaps challenging their preconceived notion of what geography actually is and grasp how important discoveries revolutionized not only the past but the present day as well

The Explorers of South America

Edward Julius Goodman,1992 A narrative history of exploration from Christopher Columbus to the 19th century with journal excerpts diaries and other writings of the explorers themselves Goodman has marshaled his wide ranging research and lifelong interest in exploration into a comprehensive scholarly history A reprint of the original 1972 edition the tales have lost none of their luster

Who's Who in Pacific Navigation John Dunmore,2019-09-30 More than four centuries have passed since Europeans first set eyes on the Pacific that vast ocean about which earlier generations had theorized and fantasized

They soon ventured forth in search of undiscovered lands unknown peoples and imagined riches Eventually the Pacific came to reflect the rivalries of Europe as Spanish explorers were followed by the Dutch the English and the French and then by traders and colonizers Now for the first time collected in a single convenient reference volume readers will be able to find details of the lives and achievements of those who took part in this great era of exploration This biographical dictionary includes the major figures of the voyages of exploration as well as missionaries traders whalers naturalists and others who by accident or design contributed to European discovery in the Pacific between the sixteenth and early twentieth centuries Scholars and others interested in this era will be able to identify easily and promptly the people they come across in their reading situate them in their proper context and gain an idea of their background travels and achievements John Dunmore has scrutinized a wealth of primary and secondary sources to amass the information collected here Some biographies are lengthy noted individuals like Cook have spawned a massive bibliography while others reflect the sparsity of the historical record Who's Who in Pacific Navigation includes a detailed bibliography organized by country to aid those wishing to delve further into any subject The comprehensive index makes the information in the volume easily accessible *Ferdinand Magellan* Jim Hargrove, 1990 The life of the Portuguese navigator and explorer who launched the first voyage around the world in the early 1500s but met his death before his men completed the expedition

S. Cummins, 2016-12-05

The theme of this volume is the transformation of European Christianity into a world wide religion The spirit of crusade against Islam was one impulse driving the early expansion these essays show how new ideologies of mission were developed and how perceptions have continued to evolve notably in the light of Vatican II They reveal the differing attitudes and roles of missionaries in such radically different environments as America and China and the equally varied ways in which this activity was received with the many problems of accomodation and sycretism Topics covered include the development of new institutions to control missionary activity notably the Roman Propaganda Fidei tensions around race and the role of women and the stimulus given for instance to linguistic studies by the need to communicate Finally they examine the belated awakening of the Protestant churches to the need to compete with Rome in the evangelization of the world

Science and Exploration in the Pacific Margarete Lincoln, 1998 This volume contains studies of scientific and cultural discoveries made on Cook's 1768-7 voyage to the South Sea in Endeavour and issues emerging from this and successive Pacific voyages Strangers in the South Seas Richard Lansdown, 2006-04-30 Long before Magellan entered the Pacific in 1521 Westerners entertained ideas of undiscovered oceans mighty continents and paradisaal islands at the far ends of the earth First set down by Egyptian storytellers Greek philosophers and Latin poets such ideas would have a long life and a deep impact in both the Pacific and the West With the discovery of Tahiti in 1767 another powerful myth was added to this collection the noble savage For the first time Westerners were confronted by a people who seemed happier than themselves This revolution in the human sciences was accompanied by one in the natural sciences as the region revealed gaps and anomalies in the great chain of being that Charles Darwin would begin to address after his momentous visit to the Galapagos Islands The Pacific produced similar challenges for nineteenth century researchers on race and culture and for those intent

on exporting their religions to this immense quarter of the globe Although most missionary efforts ultimately met with success others ended in ignominious retreat As the century wore on the region presented opportunities and dilemmas for the imperial powers leading to a guilty desire on the part of some to pull out along with an equally guilty desire on the part of others to stay and help This process was accelerated by the Pacific War between 1941 and 1945 After more than two millennia of fantasies the story of the West's fascination with the insular Pacific graduated to a marked sense of disillusion that is equally visible in the paintings of Gauguin and the journalism of the nuclear Pacific Strangers in the South Seas recounts and illustrates this story using a wealth of primary texts It includes generous excerpts from the work of explorers soldiers naturalists anthropologists artists and writers some famous some obscure It begins in 1521 with an account of Guam by Antonio Pigafetta one of the few men to survive Magellan's circumnavigation voyage and ends in the late 1980s with the writing of an American woman Joana McIntyre Varawa as she faces the personal and cultural insecurities of marriage and settlement in Fiji It shows how the Great South Sea has been an irreplaceable distant mirror of the West and its intellectual obsessions since the Renaissance Comprehensively illustrated and annotated this anthology will introduce readers to a region central to the development of modern Western ideas This is a carefully conceived anthology covering an excellent range of subjects The selections are well chosen and interesting and the introductory materials are both scholarly and accessible It should be widely used in university courses dealing with almost any aspect of the Pacific Rod Edmond University of Kent at Canterbury

Science, Empire and the European Exploration of the Pacific Tony Ballantyne, 2018-10-24 This collection of essays assesses the interrelationship between exploration empire building and science in the opening up of the Pacific Ocean by Europeans between the early 16th and mid 19th century It explores both the role of various sciences in enabling European imperial projects in the region and how the exploration of the Pacific in turn shaped emergent scientific disciplines and their claims to authority within Europe Drawing on a range of disciplines from the history of science to geography imperial history to literary criticism this volume examines the place of science in cross cultural encounters the history of cartography in Oceania shifting understandings of race and cultural difference in the Pacific and the place of ships books and instruments in the culture of science It reveals the exchanges and networks that connected British French Spanish and Russian scientific traditions even in the midst of imperial competition and the ways in which findings in diverse fields from cartography to zoology botany to anthropology were disseminated and crafted into an increasingly coherent image of the Pacific its resources peoples and histories This is a significant body of scholarship that offers many important insights for anthropologists and geographers as well as for historians of science and European imperialism
