Gerald C. Leader,Amy F Stern,2008-09-01 *Real Leaders Real Schools* tells the stories of five urban public school principals
who led their schools through profound and transformative changes In each of these cases their efforts resulted in dramatic
improvements in student achievement improvements that occurred within the current environment of high stakes tests The
revealing and often gripping narratives that form the heart of this remarkable book offer unprecedented insights into the
meaning and practice of effective school leadership The stories themselves are often inspiring but they are never idealized
All of these principals met with frustrations as well as successes setbacks as well as breakthroughs All regularly reassessed
their policies and practices and all acknowledged and learned from their errors along the way Yet all believed in their staffs
and their students and all found innovative ways to transform and improve their schools These are true stories of successful
leadership against enormous odds They provide countless lessons for today s school leaders and all who are committed to
education reform **Democratic Education in Practice** Matthew Knoester,2015-04-25 The Mission Hill School founded by
MacArthur Award winner Deborah Meier and colleagues in 1997 is a small public school that has rethought almost
everything about the process of teaching and learning Beyond richly describing and evaluating this high achieving school the
author argues that democratic education is increasingly difficult in this era of testing and standardization and that a school
such as Mission Hill must be continually thoughtful innovative and courageous in counteracting systemic inequality This in
depth examination is essential reading for anyone interested in how to better understand seemingly intractable problems
related to urban public education in the United States Book Features An exemplary model of democratic education that
shows the inner workings of a largely teacher governed school A rare example of an urban school implementing Dewey
influenced progressive pedagogy In depth descriptions of an anti racist and culturally relevant pedagogy and curriculum A
close examination of successful practices including shared decision making intensive problem solving and looking at student
work Matthew Knoester is a National Board Certified Teacher and former teacher at the Mission Hill School in Boston He
received his Ph D in Curriculum and Instruction from the University of Wisconsin Madison and is currently Assistant
Professor of Education at the University of Evansville Matthew Knoester has done us an enormous favor by showing us in
detail what could be one example of how schools can be the building blocks for democracy recreating community for all to
taste feel hear and see From the Foreword by Deborah W Meier This is exactly the kind of book that is so necessary at this
time Schools can be respectful responsive and caring places Matthew Knoester gives us a detailed picture of such a school If

more people would read books such as this the national debate on education would be all the better for it Michael W Apple John Bascom Professor of Curriculum and Instruction and Educational Policy Studies University of Wisconsin Madison Knoester s account of the Mission Hill School captures the habits of mind needed if public schools are to be truly democratic in spirit and in practice centered on the children and as Deborah Meier so powerfully advocates protected from those policies and social forces that accept and perpetuate disengagement and inequality in our children s education Linda McSpadden McNeil Professor of Education Rice University author of Contradictions of School Reform To those who have never seen the Mission Hill School in Boston it may sound like a magical place The good news is that it is real and Knoester shows us through his compelling narrative how and why they have been able to achieve so much For educators students and parents this book will be a source of inspiration At a time when our policymakers and many so called reformers are actively undermining support for public education this important book will serve as a reminder that we can do a much better job at educating all children Pedro Noguera Executive Director Metropolitan Center for Urban Education New York University
