Social And Religious Plays Of Strindberg:

The Social and Religious Plays of Strindberg John Ward, 1980 The Modern Stage and Other Worlds (Routledge Revivals) Austin E. Quigley, 2015-08-11 Modern plays are strikingly diverse and as a result any attempt to locate an underlying unity between them encounters difficulties to focus on what they have in common is often to overlook what is of primary importance in particular plays to focus on their differences is to note the novelty of the plays without increasing their accessibility In this study first published in 1985 Austin E Quigley takes as his paradigm case the relationship between the world of the stage and the world of the audience and explores various modes of communication between domains He asks how changes in the structure of the drama relate to changes in the structure of the theatre and changes in the role of the audience Detailed interpretations of plays by Ibsen Strindberg Brecht Ionesco Beckett and Pinter question principles about the modern theatre and establish links between drama structure and theatre structure theme and performance space

sheds important new light on the acting styles invented by women to create female characters on stage Changes in performance style Cima observes may alter conventional modes of viewing and disrupt behavioral codes generated by a patriarchal cultural system Performing Women is essential reading for theatre critics and historians feminist theorists theatre professionals and amateurs and others interested in film and the stage Remapping the Humanities Mary Garrett, Heidi Gottfried, Sandra F. VanBurkleo, 2008 An innovative collection demonstrating the rich potential for interdisciplinary learning found within the network of university based humanities centers Remapping the Humanities celebrates the tenth anniversary of the Wayne State University Humanities Center by bringing together essays that illustrate the richness of public conversations developed in interdisciplinary humanities centers The contributors to this collection represent more than a dozen disciplines including philosophy English political science history law comparative literature and Spanish and taken together their essays illustrate an ongoing remapping of the intellectual landscape as scholars from across university departments engage one another in unpredictable ways This volume is divided into four thematic sections Identity and Community Remembering and Forgetting Nationalism and Globalism and Toward Post Modernity Yet the essays deliberately represent a range of theoretical perspectives that interact synergistically such as feminism and postcolonial studies or literary criticism and art history They also tackle topics as varied as the formation of the modern family in France and the inculcation of civic virtue in American cities and they draw freely from different sources of evidence like newspaper accounts popular literature paintings and diaries Remapping the Humanities includes unique touches such as a portfolio of full color images and an audio CD of Celtic inspired jazz In addition a preface by Walter Edwards academic director of the Humanities Center at Wayne State University gives some background on this institution and the work being done there The importance of Remapping the Humanities ultimately lies in its refusal to say that learning has ended and the example it provides of the value of calculated ferment and intellectual instability Educators involved with or wanting to learn more about interdisciplinary research will appreciate this unique collection **The Concept of Time and Space in August**

Strindberg's A Dream Play Eric Hagen, 1987 **Drama as Text and Performance** Egil Törnqvist, 2025-10-01 This bilingual English Swedish study of August Strindberg's renowned play Miss Julie 1888 provides a penetrating analysis of the author's text and of Ingmar Bergman's praised 1985 production The book is a paradigmatic illustration of similarities and differences between text and performance The Bergman part is highlighted by a number of black and white illustrations from the stage performance The complete text is also available on the website www.missjulie.eu where a great many stills and some moving images can be found **Otto Weininger** Chandak Sengoopta, 2000-07 Sengoopta shows that Weininger's misogynist and anti Semitic views did not stem solely from his private prejudices but were part of a comprehensive and quite typically Viennese analysis of masculinity and femininity and a critique of modernity in general and of feminist activism in particular **BOOK JACKET** *Women in Modern Drama* Gail Finney, 1989 **The Concise New Makers of Modern**

Staging Place Una Chaudhuri, 1997 The first book length study of the notion of place and its implications in modern drama.

Rooms with a View Richard Lewis Barr, 2025-10-01 In Sam Shepard's play *Action* a character asks "What's a community only to find that no one really knows." *Rooms with a View* attempts to chart the development of communal concepts through the discourse of dramatic modernism, defining a coherent pattern that illustrates and anticipates innovations in modern and postmodern social theory. To clarify the commonplace notion that audiences actively participate in dramatic art, the introductory chapter theorizes a performance community which audience, actors and other backstage actants such as playwrights and directors provisionally form in the theater. Connecting psychological, sociological and aesthetic insights ranging from Freud to Kohut, from Simmel to Nancy and from Artaud and Brecht to Arnheim and Jellicoe, Richard Barr shows how modernist thinkers are repeatedly drawn to the ideal of communion. The distinctive structure of this collective inquiry helps untangle the roots and routes of modern drama and social thought. Barr analyzes the social and aesthetic theory of four influential dramatists: Ibsen and Strindberg; he claims to explore ways of acknowledging the integrity of individual viewpoints while maintaining collective coherence. Pirandello and, in more radical ways, Beckett conclude that conflict and division are not simply inevitable but invaluable in organizing alternative perspectives. By analyzing the ways playwrights variously conceive and achieve the complicated unity called community, *Rooms with a View* produces the rich paradox that difference may make the most difference in creative communal consensus. Richard L. Barr holds a Ph.D. from the University of Virginia and has taught English at Rutgers University. He is currently a specialist in intersubjective relations practicing in New Jersey and Switzerland.

Strindberg's Dramaturgy Göran Stockenström, 1988

Performing Character in Modern Irish Drama Michał Lachman, 2018-05-23 This book is about the history of character in modern Irish drama. It traces the changing fortunes of the human self in a variety of major Irish plays across the twentieth century and the beginning of the new millennium. Through the analysis of dramatic protagonists created by such authors as Yeats, Synge, O'Casey, Friel and Murphy and McGuinness and Walsh, it tracks the development of aesthetic and literary styles from modernism to more recent phenomena from Celtic Revival to Celtic Tiger and after. The human character is seen as a testing ground and battlefield for new ideas for social philosophies and for

literary conventions through which each historical epoch has attempted to express its specific cultural and literary identity In this context Irish drama appears to be both part of the European literary tradition engaging with its most contentious issues and a field of resistance to some conventions from continental centres of avant garde experimentation Simultaneously it follows artistic fashions and redefines them in its critical contribution to European artistic and theatrical diversity
