The French Socialists in Power, 1981-1986 Thomas Rodney Christofferson, 1991 An overview of the Socialist movement espousing a quasi Marxist ideology before the 1981 election that discusses the conflicts of the 1970s and the 1981 electoral campaign as well as the economic problems that generated a Socialist position of implementing a very limited agenda of reforms once they had gained power

Rural Health Provisioning Aderemi Suleiman Ajala, 2009 The slow response of maternal and child health care problems to control strategies in Nigeria suggests that the health sector requires more holistic study This study focuses on case specifics of the affected communities and examines the incidence of maternal and child health care from entire cultural domain of the focused communities The rural communities of Osun state in Nigeria are the object of the study where the local conception of maternal and child health was examined Similarly the local people s perception of maternal and child health was identified and various attitudes and practices affecting health care provisioning in the rural communities of Osun state were similarly analysed Relying on ethnographic methods of data collection the text establishes that certain local attitudes are constraints against equitable access to maternal and child health care facilities It also establishes that there are some other local practices which promote good health of the rural mothers and their children Specific findings show that illiteracy and low

level of economic activities suffered by mothers were the major causes of maternal and child health care problems in rural communities Passion killers: The art of passion killing in the age of stress and anxiety Phillip Walden Bowen,2021-09-07

There is growing pressure and stress placed on organisations to fight for customers and service product placement in an increasingly competitive global marketplace It has therefore never been more important to get the best out of the workforce To achieve this the role of the leader can be a fundamental factor in organisational success or failure Leaders need to have the requisite skills to reflect the demands placed upon them in the 21st century There are the accidental managers who just drop into the role of leadership and others who may develop skills and knowledge in readiness for a leadership role There are also those who may have the innate ability to lead Within the mix are those who are characterised by traits associated with the dark triad or who may use pathocratic influence on others to conform reinforcing values or lack of values associated with toxic leadership They create damage and harm They become passion killers The result can lead to a pathocracy This book discusses the role emotional intelligence plays in helping people deal with stressful and challenging experiences suggesting different ways to cope The author reflects on the values that are integral to the success or failure of an organisation Passion is identified as an added value that can differentiate one organisation from another If passion is harmed it can affect motivation creativity output performance and productivity Therefore this book provides the reader with examples of passion killing while making suggestions as to factors that can be adopted to engage and encourage passion Conclusions are drawn and recommendations made to support those faced with passion killers This book is aimed at those of all ages and educational backgrounds interested in developing their leadership knowledge and skills It is also aimed at those interested in learning more about differences in personality emotional intelligence stress coping values and the importance of understanding the impact of passion killers **Environment, Power, and Injustice** Nancy J. Text **Convictions, Conflict, and Moral Reasoning** David J. McMillan,2021-12-14 The primary focus of this volume is to bring to the fore the contribution of McClendon and Smith s work on convictions and the application of that work in helping understand the processes of moral reasoning in the context of conflict Both were indebted to Zuurdeeg and their concept was incorporated in models of moral reasoning by Baptist scholars Glen Stassen and Parush Parushev The usefulness of the concept is critically evaluated The volume concludes with a case study on the conflict in Northern Ireland including the role of religion and the key issues raised in the referendum on the Belfast Agreement in 1998 It includes an examination of the contribution of four Christian groups in Northern Ireland who publicly engaged in this six week period of intense and passionate debate on the Agreement and the difficult issues it addressed as the focus for examining and testing the application of the model of moral reasoning On the basis of the case study is demonstrated that the concept of convictions can prove to be a helpful means of getting to the heart of what drives moral reasoning in contexts of conflict The purpose of this book is to issue a call to engage with critique and consider the importance and application of a much undervalued

methodological approach to discerning the convictions that are the primary influencers of thought and action *Handbook for Social Justice in Counseling Psychology* Rebecca Toporek, 2006 Counseling psychologists often focus on clients inner conflicts and avoid getting involved in the clients environment This handbook encourages counseling psychologists to become active participants in changing systems that constrain clients ability to function Besides actual programs the contributors cover research training and ethical issues The case examples showing how professionals have implemented social action programs are particularly valuable This book provides an outline for action not only for psychologists but also for social workers politicians and others interested in improving the lot of disadvantaged populations Summing up Recommended Graduate students researchers professionals W P Anderson emeritus University of Missouri Columbia CHOICE The Handbook for Social Justice in Counseling Psychology Leadership Vision and Action provides counseling psychology students educators researchers and practitioners with a conceptual road map of social justice and social action that they can integrate into their professional identity role and function It presents historical theoretical and ethical foundations followed by exemplary models of social justice and action work performed by counseling psychologists from interdisciplinary collaborations The examples in this Handbook explore a wide range of settings with diverse issues and reflect a variety of actions The book concludes with a chapter reflecting on future directions for the field of counseling psychology beyond individual and traditional practice to macro level conceptual models It also explores policy development and implementation systemic strategies of structural and human change cultural empowerment and respect advocacy technological innovation and third and fourth generations of human rights activities Key Features Integrates research and ethical implications as well as guidelines for developing and evaluating specific types of social justice activities Addresses a comprehensive arena of issues examined from historical theoretical systemic and practical perspectives Clarifies social justice in counseling psychology to distinguish it from other helping professions Provides readers with specific examples and guidelines for integrating social justice into their work supported by a solid theoretical framework and acknowledgement of interdisciplinary influences Includes contributions from prominent authors in counseling psychology to provide expert examples from the field The Handbook for Social Justice in Counseling Psychology is an excellent resource for counseling psychology students educators researchers and practitioners It will be a welcome addition to any academic library or research institution **Modern Slavery Survivor Pathways** Anne-Marie Greenslade, 2024-11-18 This book presents a critical chronology of the modern slavery survivor journey in the UK from intervention by the authorities to long term recovery The work examines the modern slavery survivor pathway and assesses the support systems available to survivors throughout this process It also explores links to other traumatic crimes and investigates how the role of witness in the criminal justice system impacts survivors experiences The work showcases findings from interviews with frontline practitioners alongside analysis of government publications and independent reports It emphasises the importance of holistic

care pathways with a consistent benchmark standard of support across all services including advocacy for each individual It further argues that the UK government needs to extend its anti slavery efforts towards long term support and understanding of survivor needs which should include a focus on survivor narratives and input It is argued that this would not only improve recovery outcomes but would advance the criminal justice process in this area through witness retention and stronger evidence The book will be of interest to academics researchers and policy makers in the areas of human rights criminal justice social justice and victimology Based on international legal instruments the work will appeal to an international readership

Minority Women Entrepreneurs Mary Godwyn, Donna Stoddard, 2017-09-08 How does gender and minority status shape entrepreneurial decision making This question seems long overdue since minority women in the US start new businesses at four times the rate of non minority men and women This book is about minority women entrepreneurs in the United States Though these women are thriving as business owners their stories are very seldom told and few think of minority women as successful entrepreneurs Therefore the first purpose of the book is to give voice and visibility to US minority women business owners The second purpose is to explain what makes these women different from the standard white male business owners most people are familiar with Through in depth interviews and first hand accounts from minority women entrepreneurs the authors found that in innovative and exciting ways minority women use their outsider status to develop socially conscious business practices that support the communities with which they identify They reject the idea that business values are separate from personal values and instead balance profits with social good and environmental sustainability This pattern is repeated in statistical evidence from around the globe that women contribute a much higher percentage of their earnings to social good than do men but until now there was no clear explanation of why Using sociological and psychological theories the authors explain why women especially minority women have a tendency to create socially responsible businesses The innovations provided by the women in this study suggest fresh solutions to economic inequality and humanistic alternatives to exploitative business policies This is a radically new socially integrated model that can be used by businesses everywhere

This book is intended for undergraduate and graduate students of business sociology race and gender studies as well as practitioners of entrepreneurship aspiring entrepreneurs and all those looking for new examples of holistic sustainable and socially responsible business practices *No Such Thing as Normal* Marieke Bigg, 2025-05-22 Confronting thought provoking and hopeful SARAH GRAHAM Stimulating and timely on psychiatry's tendency to pathologise the abnormal DANIEL TAMMET A shocking and powerful critique this is essential reading HELEN KING There is no such thing as a normal brain yet we live in a world that treats disorder as disease Psychiatry rests on the belief that mental distress can ultimately be explained by biology brain structures chemical imbalances and genetics Treatments from lobotomies to electroconvulsive therapy to prescription drugs have been touted as cures for disorder And somewhere along the way the pharmaceutical industry has leapfrogged its patients making millions designing drugs to treat disorders then billions dreaming up disorders that require drugs We are now diagnosed and treated for mental disorders more than ever despite increasing evidence that environmental factors play a far greater role than biological ones Laying out the steps for a mental health system that helps rather than harms Marieke Bigg asks how can we heal when faced with an industry that banks on keeping us sick

text designed specifically with upper level and graduate Public Administration courses on leadership in mind but it has also proven an indispensable guidebook for professionals seeking insight into the role of successful leadership behavior in the public sector It can further be used as supplementary reading in introductory courses examining management competencies in leadership classes to provide practical self help and improvement models and in Organizational Theory classes that wish to balance organizational perspectives with individual development

Issues in Contemporary International Health Stacey B. Day, T.A. Lambo, 2013-12-14 Dr Oliver Wendell Holmes was once asked When should the training of a child commence A hundred years before birth was the reply Indeed it is this perspective on life through posterity that underlies the maturing field of international health embracing as it does a responsibility for and an awareness of the needs of all peoples The concepts of international health are increasingly revitalizing modern medicine as it attempts to relieve mankind of the burden of disease Curative medicine once the paradigm took a relatively beneficial approach to treatment But epidemiological recognition of the frequency of disease on a global basis and an appreciation of the vast number of those afflicted evoked a humiliating backlash of awareness that curative medicine alone neither constrains disease nor permanently advances human health happiness or longevity The growing reliance on truly international health strategies by national and international agencies including the more definite and extended practice of preventive medicine has provided the means to achieve significant gains in the quality of health in years to come A redeeming feature of contemporary failures in science and medicine is that once intelligently studied analyzed and evaluated even these failed efforts may provide real insights that can mold our capacity and determination So it is that more than in any bygone age the past ten years have seen the implementation of a sound and systematic infrastructure for international health undertakings thus paving the way for improved health for all
