Social Change In The Age Of The Enlightenment Edinburgh 1660 1760:

Scotland's Society and Economy in Transition, c.1500-c.1760 Ian Whyte,1997-01-29 During the last twenty years there has been an explosion of new research into the development of Scotland from a small backward country on the periphery of Europe to one poised to undergo industrialisation in step with England This book provides an overview of key themes related to social change and economic development in early Modern Scotland aimed at demonstrating how this transformation occurred

Scottish Society, 1707-1830 Christopher A. Whatley,2000 This book challenges conventional wisdom and provides new insights into Scottish social and economic history Christopher A Whatley argues that the Union of 1707 was vital for Scottish success but in ways which have hitherto been overlooked He proposes that the central place of Jacobitism in the historiography of the period should be revised Comprehensive in its coverage the book is based not only on an exhaustive reading of secondary material but also incorporates a wealth of new evidence from previously little used or unused primary sources

Policing the Metropolis of Scotland: A History of the Police and Systems of Police in Edinburgh & Edinburghshire, 1770-1833 , Beyond the Grand Tour Rosemary Sweet,Gerrit Verhoeven,Sarah Goldsmith,2017-02-17 Travel in early modern Europe is frequently represented as synonymous with the institution of the Grand Tour a journey undertaken by elite young males from northern Europe to the centres of the arts and antiquity in Italy Taking a somewhat different perspective this volume builds upon

recent research that pushes beyond this narrow orthodoxy and which decentres Italy as the ultimate destination of European travellers. Instead it explores a much broader pattern of travel undertaken by people of varied backgrounds and with divergent motives for travelling. By tapping into current reactions against the reification of the Grand Tour as a unique and distinctive practice, this volume represents an important contribution to the ongoing process of resituating the Grand Tour as part of a wider context of travel and topographical writing. Focusing upon practices of travel in northern and western Europe rather than in Italy, particularly in Britain, the Low Countries and Germany, the essays in this collection highlight how itineraries continually evolved in response to changing political, economic and intellectual contexts. In so doing, the reasons for travel in northern Europe are subjected to a similar level of detailed analysis as has previously only been directed on Italy. By doing this, the volume demonstrates the variety of travel experiences, including the many shorter journeys made for pleasure, health, education and business, undertaken by travellers of varying age and background across the period. In this way, the volume brings to the fore the experiences of varied categories of traveller, from children to businessmen, which have traditionally been largely invisible in the historiography of travel.

The Penguin History of Britain Mark Kishlansky, 1997-08-28. The sixth of nine volumes in the major Penguin History of Britain series, *A Monarchy Transformed*, narrates the tempestuous political events of the Stuart dynasty. It charts the reigns of six monarchs and the course of two revolutions, as well as religious upheavals that shook the beliefs of seventeenth-century Britons to the core.

David Hume's Political Economy Margaret Schabas, Carl Wennerlind, 2008. This collection of twelve new essays by distinguished scholars in the fields of history and the philosophy of economics is one of the first book-length studies of Hume's political economy.

Spaces for Feeling Susan Broomhall, 2015-03-05. *Spaces for Feeling* explores how English and Scottish people experienced sociabilities and socialities from 1650 to 1850 and investigates their operation through emotional practices and particular spaces. The collection highlights the forms, practices and memberships of these varied spaces for feeling in this two-hundred-year period and charts the shifting conceptualisations of emotions that underpinned them. The authors employ historical literary and visual history approaches to analyse a series of literary and art works, emerging forms of print media such as pamphlet, propaganda, newspapers and periodicals, and familial and personal sources such as letters, in order to tease out how particular communities were shaped and cohered through distinct emotional practices in specific spaces of feeling. This collection studies the function of emotions in group formations in Britain during a period that has attracted widespread scholarly interest in the creation and meaning of sociabilities in particular. From clubs and societies to families and households, essays here examine how emotional practices could sustain particular associations, create new social communities and disrupt the capacity of a specific cohort to operate successfully. This timely collection will be essential reading for students and scholars of the history of emotions.
