The Justice Motive in Social Behavior Melvin J. Lerner, Sally C. Lerner, 2013-11-11 This volume was conceived out of the concern with what the imminent future holds for the have countries those societies such as the United States which are based on complex technology and a high level of energy consumption Even the most sanguine projection includes as base minimum relatively rapid and radical change in all aspects of the society reflecting adaptation or reactions to demands created by potential threat to the technological base sources of energy to the life support system itself Whatever the source of these threats whether they are the result of politically endogeneous or exogeneous forces they will elicit changes in our social institutions changes resulting not only from attempts to adapt but also from unintended consequences of failures to adapt One reasonable assumption is that whatever the future holds for us we would prefer to live in a world of minimal suffering with the greatest opportunity for fulfilling the human potential The question then becomes one of how we can provide for these goals in that scenario for the imminent future a world of threat change need to adapt diminishing access to that which has been familiar comfortable needed

The Conflict Helix R. J. Rummel, This is a book on conflict and consensus aimed at the general reader In active plain and direct language it makes the seemingly abstract and complex issues simple Its view of peace is well rounded tough minded one that well understands the difficult world of social and personal violence and conflict At its heart is a simple finding to wage peace we need to foster freedom The human race can best achieve that simple aim by leaving people alone to form their own communities The Conflict Helix avoids the ambiguous in favor of the categorical the hedged qualified statement for the direct Rummel presents a series of basic principles each concerning an aspect of conflict and peace psychological interpersonal societal international and each aspect having its own master principle These principles are not mere organizational props but are deeply theoretical and empirically fundamental The volume expresses the core ideas results and conclusions of Rummel's major five volume work on Understanding Conflict and War In discarding technical material and focusing on principles and meaning The Conflict Helix presents an executive summary of a lifetime of work in a digestible form In light of recent events in Europe Asia and Latin American this work takes on a special poignancy for the developing no less than the industrialized worlds Hence this book should be of value to the general reader as well as professionals and advanced students of international politics

Conflict in Japan Ellis S. Krauss, Thomas P. Rohlen, Patricia G. Steinhoff, 2021-05-25 Social and political conflict in postwar Japan is

the subject of this volume which draws together a series of field based studies by North American and Japanese sociologists anthropologists and political scientists It focuses attention on the sources of conflict and the ways in which conflict is expressed and managed This book challenges the widely held theories stressing the harmony and vertical structure of social relations in Japan which imply that conflict is only of minimal importance Not only does the research presented here force recognition of the existence and complexity of conflict patterns in Japan its approach to conflict provides a dynamic empirical and interdisciplinary focus on social and political processes in the postwar period The editors theoretical introduction is followed by a general conceptual piece by one of Japan s foremost sociologists Ten empirical studies each offering both new data and new insights on known data about Japanese social and political systems analyze conflict and conflict resolution in interpersonal relations industrial relations education rural villages government bureaucracy parliament political parties and interest groups including how they are manifested in women s and student protest movements and portrayed in the mass media Western social science conflict theories are applied to enhance our understanding of both the universal and the unique elements in Japanese social and political institutions

International Journal of Group Tensions, 1975 **The Sense of Injustice** Robert G. Folger, 2012-12-06 The importance of justice cannot be overstated As one author has put it A better understanding of how justice concerns develop and function in people s lives should enable us to plan more effectively for

institutional and other social change to deal with the problems that confront humankind S C Lerner 1981 p 466 The volume in which that statement appeared an earlier one in this same series was devoted to exploring the impact that dwindling resources and an increasing rate of change have had upon people's concern for justice In contrast the present volume places greater emphasis on the word understanding as it was used in the context of the preceding quotation than upon effective planning social change and ways of dealing with human problems Nothing in that statement of purpose is meant to belittle the urgency of translating understanding into action because the social significance of justice concerns is a major factor that has prompted the authors of the chapters in this book to do research in the area Rather this volume receives its emphasis from Kurt Lewin's famous dictum there is nothing so practical as a good theory The need for good theory is ongoing and these pages are dedicated to a search for new pathways toward better theory

Kollektives Handeln, 2013-07-29 Der zweite Teil der Protheorie sozialer Ungleichheit und kollektiven Handelns hat nicht nur dieselbe Absicht wie der erste sondern auch dieselbe Anlage und denselben Aufbau Im Text und den zwischengeschalteten Exkursen versuchen wir die Bedingungen kollektiven Handelns sozialer Bewegungen und kollektiver Konflikte bersichtlich zu strukturieren ein theoretisch und sozialgeschichtlich informiertes begriffliches Instrumentarium zu entwickeln und neue Ansatzpunkte f r die Entwicklung von Teiltheorien und f r empirische Forschung zu formulieren Im Anmerkungsteil grenzen wir diese pro theoretischen Anstrengungen gegen die vielen und heterogenen Theorien ab welche das Forschungsfeld beherrschen Den logischen Status von Protheorien fassen wir in der Einleitung nur knapp zusammen da wir ihn in der Einleitung des ersten Teils ausf hrlicher behandelt haben Auch im zweiten Teil haben wir versucht eine Einleitung und bersicht ber die rivalisierenden Theorien und Traditionen zu kombinieren mit einem eigenen neuen Zugang

zum Forschungsgegenstand Vor allem von einer systematischen Verbindung der bisher weitgehend getrennten Theorie und Forschungsstraditionen sozialer Ungleichheit und kollektiven Handelns haben wir neue Impulse erwartet Obwohl die beiden Teile der Protheorie als systematisches Ganzes aufgebaut sind haben wir uns bemüht den zweiten Teil so zu schreiben da er unabhängig vom ersten Teil lesbar und verständlich ist Hieraus erklären sich einige gedrungene Wiederholungen die die selben Probleme in andere Zusammenhänge stellen In der Einleitung haben wir im Vorgriff den Gesamtzusammenhang der Argumentation skizziert

Was hält Partnerschaften zusammen? Oliver Arránz Becker, 2008-09-08 Die steigenden Scheidungsraten der vergangenen Jahrzehnte demonstrieren deutlich dass es für partnerschaftliches Glück keine Garantien gibt Was hält Beziehungen zusammen Welche Faktoren spielen in erfolgreichen Partnerschaften eine Rolle Auf der Suche nach Antworten integriert der Autor in diesem Buch Befunde und Theorien aus Familiensoziologie und Psychologie und legt damit den Grundstein für ein disziplinübergreifendes Theoriegebäude des Partnerschaftserfolgs Im Ergebnis darf man die vorliegende Studie zu den wichtigsten Untersuchungen zum Thema Partnerschaftserfolg und Stabilität zählen Prof Dr Paul Hill RWTH Aachen
