To the community Aradia Burke is the premier dog trainer and breeder of Anatolian shepherds in the region. Whether it is training the family pet or a top tier working K9, Aradia is the go to person. The truth is buried beneath centuries of closely held secrets. Aradia's birthright and duty is to train the Guardians, those special dogs that keep the world safe from demons. When pre-cognitive Mercy Burroughs has a vision and Aradia arrives on her doorstep, her careful life unravels. Demons are close to breaching one of the portals and will threaten the Western Washington Guardian team and K9 Clemons. It's up to Aradia, Mercy, and the K9s to stop them before darkness falls over the world Deuteronomy for the Church M. Eugene Boring, 2022
Deuteronomy's core theology expressed in the Shema forms the structure of the book. What does it mean to hear Who is all Israel? How does the identity of the one Lord shape ethics? The competence to be God's people to know God and to do God's will comes only through hearing the transforming Word of God in Scripture *Dystopia & Education* Jessica A. Heybach, Eric C. Sheffield, 2013-04-01
Dystopia and Education: Insights into Theory, Praxis, and Policy in an age of Utopia Gone Wrong provides an as-of-yet-unexplored critical perspective for examining contemporary educational theory, praxis, and policy with particular reference to the current state of dehumanizing and often oppressive policy and practices that have come to demarcate the era of NCLB and RTT. The authors in this collection employ dystopian themes found in literature, film, visual art, and video games as the lens for that critical inquiry. As such, Dystopia and Education: Insights into Theory, Praxis, and Policy is an essential contribution to the philosophical critical tradition in educational scholarship. It is especially valuable because the inquiry undertaken is from a new perspective, one that will extend the critical tradition into a yet-unexplored arena. Given the educational climate established by NCLB and RTT, this collection is especially important to the ongoing critical analysis of such policy mandates. There is also a significantly important timeliness to this book given NCLB's utopian expectation of universal academic proficiency among American schoolchildren by the year 2014 as educators race to achieve such a noble yet naïve goal. This collection of essays examines the educational environment that has been enacted to achieve such ends and describes our current state as a utopia gone wrong The Origin of the Sphere Alex Capurro, 2024-09-19
