Teacher Representations in Dramatic Text and Performance Melanie Shoffner, Richard St. Peter, 2019-09-06

This book examines representations of the teacher on stage in both theatrical performances and dramatic text in order to demonstrate how these representations have shaped society's perceptions of educators in and out of the classroom. At the heart of this book is the interaction between theatre and teacher education. By considering how dramatic portrayals reimagine, reinforce, and/or undermine our understanding of the teacher's personal and professional roles, this volume bridges the gap between truth in dramatic literature and truth in the classroom. Chapters critically explore the personas embodied by fictional teachers in well-known works such as *Educating Rita*, *School of Rock*, and *The History Boys*, and illustrate how educators might use dramatic literature and performance to interrogate entrenched ideas about the student-teacher dynamic. By bringing together a diverse set of contributors from the fields of teacher education and theatre, this book takes a critical look at performance, text, society, and culture to promote a new understanding of teaching and learning. This unique book will be of great interest to graduate and postgraduate students, academics, and researchers in the fields of teacher education, drama, and theatre education.
