Regional Cooperation in the South Caucasus Tracey German, 2016-04-08 The South Caucasus region comprising the former Soviet states of Armenia Azerbaijan and Georgia occupies a key strategic location squeezed between the Black and Caspian Seas Iran Russia and Turkey Since the disintegration of the Soviet Union in 1991 the region has become an arena of geopolitical confrontation with regional powers such as Russia Turkey and Iran vying for influence in the face of growing Western involvement The Russian military intervention in Georgia in 2008 not only raised questions about Moscow s intentions towards its Near Abroad and the future direction of its foreign policy it also demonstrated that ostensibly local separatist disputes have serious ramifications for regional relations and the wider international community In this book German explores the extent of regional cooperation in the South Caucasus analyses the reasons for the relative lack of regional cooperation and assesses the potential for deeper cooperation in the future *Crisis in the Caucasus: Russia, Georgia and the West* Paul B. Rich, 2013-09-13 This collection of essays by a series of academic specialists examines the crisis stemming from the Russian invasion of Georgia in August 2008 from a range of standpoints The chapters probe the geopolitical and strategic dimensions of the crisis as well as the longer term military and diplomatic implications for Europe and the central Asian region The collection will be of major importance to students of Russia and Eastern Europe military analysts as well as journalists and politicians concerned with what some observers have termed a new cold war between Russia and the West This book was published as a special issue of *Small Wars and Insurgencies* **Snow Mountain Wilderness in the Mendocino National Forest** United States. Congress. House. Committee on Interior and Insular Affairs, 1973 **The Search for Security in the South Caucasus , The Future of Transatlantic Relations** Andrew Dorman, Joyce Kaufman, 2010-11-29 This contributed volume provides a valuable comparative examination of the state of transatlantic relations The comparative approach utilized highlights the often understudied differences in perception and policy that exist across European and North American states towards the idea and practice of the transatlantic relationship **Congressional Record** United States. Congress, 2001 **Small Nations and Great Powers** Svante Cornell, 2005-06-28 A thorough in depth analysis of the current and potential conflicts in the Caucasus including the geographical historical and ethno linguistic framework of the Caucasus the individual conflicts and the place of the Caucasus in world affairs *The Geopolitics of XXI Century in Central Asia* Murat Turarovitch Laumulin, 2007 Geopolitics and Energy Diplomacy in the Caspian Region Yunis Gurbanov, 2024-09-03 Could the Caspian Region replace Russia s or the Persian Gulf s immense energy potential with their energy resources Yunis Gurbanov explores the strategic importance of the region in post USSR Eurasian policies of major global actors namely China the EU the USA and Russia and examines Azerbaijan s Kazakhstan s and Turkmenistan s oil and gas resources as alternatives to conventional suppliers He shows that the Caspian region s resources could serve as alternative energy sources on a global level mitigating dependence on

traditional suppliers and stabilizing energy prices *Securing Europe* Fotios Moustakis, Tracey German, 2009-07-30 The new model of intervention that emerged from Bosnia and Kosovo signalled a revolution in International Affairs The crises in the Balkans revealed a new division of labour amongst Western states US forces are primarily responsible for military action while European partners are more committed to Peace Support Operations and the subsequent building of security communities via integration into the NATO and EU This model has been evidenced in the post 9 11 war on terror Here Moustakis and German examine the emergence and practice of this new Western model of intervention which combines hard military and soft peace approaches and assess its success and failures in the light of recent operations in Bosnia Kosovo Chechnya Georgia and Nagorno Karabakh The fragile democratisation processes unfolding in the Balkans and the Caucasus offer important insights into the challenges of securing volatile regions and peripheries
