Peter Berresford Ellis

The Cause Of Ireland From The United Irishmen To Partition:

The Cause of Ireland Liz Curtis, 1994 A New History of Ireland Christine Kinealy, 2008-02-26 Christine Kinealy incorporates some of the most recent scholarship to explore the key developments and personalities that have helped to shape this country over 1500 years From the arrival of the Anglo Normans in the twelfth century which began Ireland s complex and tortuous relationship with England to Cromwell s invasion the Plantation of Ulster the Great Famine and Nationalism Christine Kinealy challenges the dominant interpretation of events **Ireland's History** Kenneth L. Campbell, 2013-12-05 Ireland s History provides an introduction to Irish history that blends a scholarly approach to the subject based on recent research and current historiographical perspectives with a clear and accessible writing style All the major themes in Irish history are covered from prehistoric times right through to present day from the emergence of Celtic Christianity after the fall of the Roman Empire to Ireland and the European Union secularism and rapprochement with the United Kingdom By avoiding adopting a purely nationalistic perspective Kenneth Campbell offers a balanced approach covering not only social and economic history but also political cultural and religious history and exploring the interconnections among these various approaches This text will encourage students to think critically about the past and to examine how a study of Irish history might inform and influence their understanding of history in general The Chamberlains, the Churchills and Ireland, 1874-1922 Ian Chambers, 2006 Winston Churchill and Austen Chamberlain both entered Parliament with inherited Unionist views However changing political circumstances in Britain and Ireland led them to change their stance and adopt policies that would have been anathema to their fathers **Ireland and Empire** Stephen Howe, 2000 Many analyses of Ireland s past and present are couched in colonial terms For some it is the only framework for understanding Ireland Others reject the label This study evaluates and analyzes the situation *Ireland and the British Empire* Kevin Kenny, 2004-05-27 Modern Irish history was determined by the rise expansion and decline of the British Empire British imperial history from the age of Atlantic expansion to the age of decolonization was moulded in part by Irish experience But the nature of Ireland s position in the Empire has always been a matter of contentious dispute Was Ireland a sister kingdom and equal partner in a larger British state Or was it because of its proximity and strategic importance the Empire s most subjugated colony Contemporaries disagreed strongly on these questions and historians continue to do so Questions of this sort can only be answered historically Ireland s relationship with Britain and the Empire developed and changed over time as did the Empire itself This book offers the first comprehensive history of the subject from the early modern era through to the contemporary period The contributors seek to specify the nature of Ireland s entanglement with empire over time from the conquest and colonization of the sixteenth and seventeenth centuries through the consolidation of Ascendancy rule in the eighteenth the Act of Union in the period 1801 1921 the emergence of an Irish Free State and Republic and eventual withdrawal from the British Commonwealth in 1948 They also consider the participation of Irish

people in the Empire overseas as soldiers administrators merchants migrants and missionaries the influence of Irish social administrative and constitutional precedents in other colonies and the impact of Irish nationalism and independence on the Empire at large The result is a new interpretation of Irish history in its wider imperial context which is also filled with insights on the origins expansion and decline of the British Empire **A Companion to Nineteenth-Century Britain** Chris Williams, 2008-04-15 A Companion to Nineteenth Century Britain presents 33 essays by expert scholars on all the major aspects of the political social economic and cultural history of Britain during the late Georgian and Victorian eras Truly British rather than English in scope Pays attention to the experiences of women as well as of men Illustrated with maps and charts Includes guides to further reading **Eyewitness to Irish History** Peter Berresford Ellis, 2008-04-21 Through sources ranging from ancient foras and praise songs and the hero kings to newspaper accounts public decrees and even graffiti this book offers vivid portraits of major events and everyday life in Ireland through the centuries beginning with Gollamh the legendary leader of the band of Iberian Celts who settled the island more than three thousand years ago and concluding with gripping accounts by those on both sides of the bloody civil conflict in Northern Ireland *Smashing H-block* F. Stuart Ross, 2011-01-01 The period from 1976 to 1982 is widely regarded as a crucial turning point in the Irish Troubles As time has passed the historic prison hunger strikes of 1980 and 1981 have taken on near mythic resonance somewhat distorting the broader picture of the Irish republican struggle against criminalization Focusing on the popular movement outside the prisons *Smashing H Block* gives us a gripping thorough account of this fateful time and reveals how these years of protest reshaped and revitalized modern Irish republicanism Drawing on extensive archival research and the widest range of sources available F Stuart Ross paints a compelling portrait of the last great wave of activism and mobilization with the nationalist population He argues that the protests outside of the infamous H Blocks of Maze Prison challenged republican orthodoxy while more broadly he examines the importance of popular grassroots movements in effecting political and social change Britain's Empire Richard Gott, 2022-01-04 A magisterial history of resistance to the rising of the British empire As the call for a new understanding of our national history grows louder Britain's Empire turns the received imperial story on its head Richard Gott recounts the long overlooked narrative of resisters revolutionaries and revolters who stood up to the might of the Empire In a story of almost continuous colonialist violence Britain's crimes unspool from the beginning of the eighteenth century to the Indian Mutiny spanning the globe from Ireland to Australia Capturing events from the perspective of the colonised Gott unearths the all but forgotten stories excluded from mainstream histories
