The Cfc Story How Americas Rural Electric Cooperatives Introduced Wall Street To Main Street:

The CFC Story Patricia Lloyd Williams, 1995 THE CFC STORY dramatizes the initiative persistence dedication of rural Americans to provide for themselves when all other means fall short When federal funds for rural electrification began to wane in the mid 1960 s rural leaders took charge of their destiny Aided by leading financial consultants they devised an innovative plan for using Wall Street capital to finance Main Street s most important technological advance electricity In the process they created an enduring non profit financing cooperative CFC that is responsible for bringing billions of dollars of private capital into what had previously been solely a government funded enterprise THE CFC STORY tracks the history of this unique organization from conceptualization through its first 25 years of operation details its ever growing challenges successes This thoughtful revealing profile is a must read for anyone embarking on a public private partnership

Governance and Financial Accountability of Rural Electric Cooperatives United States. Congress. House. Committee on Oversight and Government Reform, 2009 **The Southern Business & Economic Journal** ,1998 Powering American Farms Richard F. Hirsh, 2022-06-14 The untold story of the power industry s efforts to electrify growing numbers of farms in the years before the creation of Depression era government programs Even after decades of retelling the story of rural electrification in the United States remains dramatic and affecting As textbooks and popular histories inform us farmers obtained electric service only because a compassionate federal government established the Tennessee Valley Authority and the Rural Electrification Administration REA during the Great Depression of the 1930s The agencies success in raising the standard of living for millions of Americans contrasted with the failure of the greedy big city utility companies which showed little interest in the apparently unprofitable nonurban market Traditional accounts often describe the nation s population as split in two separated by access to a magical form of energy just past cities limits a bleak preindustrial class of citizens endured literally in near darkness at night and envious of their urban cousins who enjoyed electrically operated lights refrigerators radios and labor saving appliances In Powering American Farms Richard F Hirsh challenges the notion that electric utilities neglected rural customers in the years before government intervention Drawing on previously unexamined resources Hirsh demonstrates that power firms quadrupled the number of farms obtaining electricity in the years between 1923 and 1933 for example Though not all corporate managers thought much of the farm business a cadre of rural electrification advocates established the knowledge base and social infrastructure upon which New Deal organizations later capitalized The book also suggests that the conventional storyline of rural electrification remains popular because it contains a colorful hero President Franklin D Roosevelt and villainous utility magnates such as Samuel Insull who make for an engaging but distorted narrative Hirsh describes the evolution of power company managers thinking in the 1920s and early 1930s from believing that rural electrification made no economic sense to realizing that serving farmers could mitigate industry wide problems This transformation occurred as agricultural engineers in land grant universities supported by

utilities demonstrated productive electrical technologies that yielded healthy profits to farmers and companies alike Gaining confidence in the value of rural electrification private firms strung wires to more farms than did the REA until 1950 a fact conveniently omitted in conventional accounts Powering American Farms will interest academic and lay readers of New Deal history the history of technology and revisionist historiography Encyclopedia of Rural America: A-M Gary Goreham,2008 History sociology anthropology and public policy combine to deliver the encyclopedia that has become the standard reference work in American rural studies From irrigation and marriage to games and mental health this encyclopedia is the most comprehensive resource exploring both the history of rural America its current issues and perspectives and visions for its future **Bibliography of Agriculture** ,1996 *Bibliography of Agriculture with Subject Index* ,1996 Financial Needs of Rural Electric Cooperatives United States. Congress. Senate. Committee on Agriculture and Forestry. Subcommittee on Agricultural Credit and Rural Electrification,1972 **Financial Needs of Rural Electric Cooperatives** United States. Congress. Senate. Agriculture and Forestry Committee,1972 **Congressional Record** United States. Congress,2000
