Down to Earth Sociology: 14th Edition James M. Henslin, 2007-02-13 Presents a selection of forty six readings that provide an introduction to the sociological perspective look at how sociologists conduct research examine the cultural underpinnings of social life and discuss social groups and social structure gender and sexuality deviance and social stratification institutions and change *Jewish Marriage* Reuven P. Bulka, 1986 Bibliography p 245 255 *Families; Challenges and Responsibilities* White House Conference on Families, 1980 **The Changing Family** Jerald Savells, Lawrence J. Cross, 1978 A collection of 42 articles arranged by topic with an emphasis on the future of the family based on existing trends Articles were chosen from a range of sources from popular to scholarly *Children's Emotions in Europe, 1500 - 1900* Jeroen J. H. Dekker, 2024-04-04 This book gives you the historical sensation of coming face to face with the bodily expression and regulation of children's emotions over time The study does this by encouraging you to look through the eyes of well known artists like Albrecht Dürer Domenico Ghirlandaio Jan Steen Antony van Dyck Rembrandt and Titian in early modern Europe and Jean Baptiste Sim on Chardin Thomas Lawrence Jean Honor Fragonard Philipp Otto Runge Willem Bartel van der Kooi Paul Gauguin Auguste Renoir and Jozef Israëls in the late 18th and 19th centuries These sources are supplemented by works from less famous artists as well as popular emblem books child advice manuals observations from the emerging child sciences and personal documents Jeroen Dekker observes children's emotions mainly in the child's world and in the domestic emotional space and connects them with history's ongoing underlying discourse on education and the emotions This discourse was developed by theologians philosophers and moralists like Augustine Aquinas Erasmus Descartes Jacob Cats John Locke and Jean Jacques Rousseau by Romantic educationalists like Friedrich Fröbel and Ellen Key and by scientists like Charles Darwin and William James who emphasized the biological instead of the moral fundament of children's emotions The story of children's emotions is told in the context of cultural movements like the Renaissance Humanism the Reformation the Enlightenment Romanticism and the starting Age of Child Science *Children's Emotions in Europe 1500 1900* crucially highlights the continuous co existence of regulation oriented and child oriented educational views on children's emotions Down to Earth Sociology James M. Henslin, 2005 The twelfth edition's new readings include selections on the unspoken rules of social interaction the shocking disparities between upper and lower class life America's changing attitudes toward work and family and the roles they fulfill and the McDonaldization of American society Together with these essential new articles the selections by Peter Berger Herbert Gans Erving Goffman Donna Eder Zella Luria C Wright Mills Deborah Tannen Barrie Thorne Sidney Katz Philip Zimbardo and many others provide firsthand reporting that gives students a sense of being there Henslin also explains basic methods of social research providing insight into how sociologists explore the social world The selections in *Down to Earth Sociology* highlight the most significant themes of contemporary sociology ranging from the sociology of gender power politics sports and religion to the contemporary crises of racial tension crime

rape poverty and homelessness Facing Tomorrow Phyllis Cadc McElwain, PhD, Phyllis McElwain, 2010-07 California Sociologist, 1978 Changing Status of Educated Working Women Chinnathimmanna Raghunadha Reddy, 1986 **Fade to Gray** Timothy Shary, Nancy McVittie, 2016-09-06 Americans are living longer and reinventing both work and retirement but Hollywood movies barely hint at this reality of contemporary society In many popular films older characters fade into irrelevance inactivity or absurdity or else they stay in the background as wise elders while younger characters provide the action Most American films do not attempt to portray the rich variety of experiences or the sensitive aging issues that people confront in the years beyond fifty *Fade to Gray* offers one of the first extended studies of the portrayal of older people in American cinema from the silent era to the present Writing in an accessible style for both general audiences and scholars Timothy Shary and Nancy McVittie examine social attitudes toward aging through an analysis of hundreds of individual films including such classics as *You Can't Take It With You* 1938 *Rosemary's Baby* 1968 *Grumpy Old Men* 1993 and *Nebraska* 2013 They show how representations of the aging process and depictions of older people embracing or enduring the various experiences of longer lives have evolved over the past century as well as how film industry practices have both reflected and influenced perceptions of aging in American society Exposing the social and political motivations for negative cinematic portrayals of the elderly *Fade to Gray* also gives visibility to films that provide opportunities for better understanding and appreciation of the aged and the aging process
