The Chap-book Wendy Clauson Schlereth,1982 **The Chap-book** Wendy Clauson Schlereth,1980 **Realist Poetics in American Culture, 1866-1900** Elizabeth Renker,2018-05-28 The terms poetry and realism have a complex and often oppositional relationship in American literary histories of the postbellum period The core narrative holds that realism the major literary movement of the era developed apace in prose fiction while poetry stuck in a hopelessly idealist late Romantic mode languished and stagnated Poetry is almost entirely absent from scholarship on American literary realism except as the emblem of realism s opposite a desiccated genteel twilight of the poets Realist Poetics in American Culture 1866 1900 refutes the familiar narrative of postbellum poetics as a scene of failure and it recovers the active and variegated practices of a diverse array of realist poets across print culture The triumph of the twilight tale in the twentieth century obscured minimized and flattened the many poetic discourses of the age including but not limited to a significant body of realist poems currently missing from US literary histories Excavating an extensive archive of realist poems the volume offers a significant revision to the genre exclusive story of realism and by extension to the very foundations of postbellum American literary history dating back to the earliest stages of the discipline **American Little Magazines of the Fin de Siecle** Kirsten MacLeod,2018-01-01 In American Little Magazines of the Fin de Siecle Kirsten MacLeod examines the rise of a new print media form the little magazine and its relationship to the transformation of American cultural life at the turn of the twentieth century Though the little magazine has long been regarded as the preserve of modernist avant gardes and elite artistic coteries for whom it served as a form of resistance to mass media MacLeod s detailed study of its origins paints a different picture Combining cultural textual literary and media studies criticism MacLeod demonstrates how the little magazine was deeply connected to the artistic social political and cultural interests of a rising professional managerial class She offers a richly contextualized analysis of the little magazine s position in the broader media landscape namely its relationship to old and new media including pre industrial print forms newspapers mass market magazines fine press books and posters MacLeod s study challenges conventional understandings of the little magazine as a genre and emphasizes the power of little media in a mass market context **The Oxford Critical and Cultural History of Modernist Magazines** Peter Brooker,Andrew Thacker,2009 This volume contains 44 original essays on the role of periodicals in the United States and Canada Over 120 magazines are discussed by expert contributors completely reshaping our understanding of the construction and emergence of modernism **Robert Louis Stevenson, Literary Networks and Transatlantic Publishing in the 1890s** Glenda Norquay,2020-01-31 Robert Louis Stevenson Literary Networks and Transatlantic Publishing in the 1890s investigates Stevenson and the geographies of his literary networks during the last years of his life and after his death It profiles a series of figures who worked with Stevenson negotiated his publications on both sides of the Atlantic wrote for him or were inspired by him Using archival material correspondence fiction and biographies it moves

across these literary networks It deploys the concept of literary prosthetics to frame its analysis of gatekeepers tastemakers agents collaborators and authorial surrogates in the transatlantic production of Stevenson s writing Case studies of understudied individuals and broader consideration of the networks they represent contribute to knowledge of transatlantic publishing in the 1890s understanding of transatlantic culture Stevenson studies current interest in the workings of literary communities and in nineteenth century mobility Henry James, Impressionism, and the Public Daniel Hannah,2016-04-22 Proposing a new approach to Jamesian aesthetics Daniel Hannah examines the complicated relationship between Henry James s impressionism and his handling of the public Hannah challenges solely phenomenological or pictorial accounts of literary impressionism instead foregrounding James s treatment of the word impression as a mediatory unit that both resists and accommodates invasive publicity Thus even as he envisages a breakdown between public and private at the end of the nineteenth century James registers that breakdown not only as a threat but also as an opportunity for aesthetic gain Beginning with a reading of *The Art of Fiction* as both a public forming essay and an aesthetic manifesto Hannah s study examines James s responses to painterly impressionism and to aestheticism and offers original readings of *What Maisie Knew* *The Wings of the Dove* and *The American Scene* that treat James s articulation of impressionism in relation to the child the future of the novel and shifts in the American national imaginary Hannah s study persuasively argues that throughout his career James returns to impressionability not only as a site of immense vulnerability in an age of rapid change but also as a crucible for reshaping challenging and adapting to the public sphere s shifting forms Reading for Realism Nancy Glazener,1997 *Reading for Realism* presents a new approach to U S literary history that is based on the analysis of dominant reading practices rather than on the production of texts Nancy Glazener s focus is the realist novel the most influential literary form of the nineteenth and twentieth centuries a form she contends was only made possible by changes in the expectations of readers about pleasure and literary value By tracing readers collaboration in the production of literary forms *Reading for Realism* turns nineteenth century controversies about the realist romance and sentimental novels into episodes in the history of readership It also shows how works of fiction by Rebecca Harding Davis Henry James Nathaniel Hawthorne and others participated in the debates about literary classification and reading that in turn created and shaped their audiences Combining reception theory with a materialist analysis of the social formations in which realist reading practices circulated Glazener s study reveals the elitist underpinnings of literary realism At the book s center is the Atlantic group of magazines whose influence was part of the cultural machinery of the Northeastern urban bourgeoisie and crucial to the development of literary realism in America Glazener shows how the promotion of realism by this group of publications also meant a consolidation of privilege primarily in terms of class gender race and region for the audience it served Thus American realism so often portrayed as a quintessentially populist form actually served to enforce existing structures of class and power **Bliss Carman** Gerald Lynch,1990 The tarnished reputation of this turn of the century poet is persuasively
