The Chasm The Life And Death Of A Great Experiment In Ghetto Education:

The Chasm Robert Campbell, 1974 Inside Ocean Hill Brownsville Charles S. Isaacs, 2014-05-09 The story of an Ocean Hill Brownsville teacher who crossed picket lines during the racially charged New York City teachers strike of 1968 In 1968 the conflict that erupted over community control of the New York City public schools was centered in the black and Puerto Rican community of Ocean Hill Brownsville It triggered what remains the longest teachers strike in US history That clash between the city's communities of color and the white predominantly Jewish teachers union paralyzed the nation's largest school system undermined the city's economy and heightened racial tensions ultimately transforming the national conversation about race relations At age twenty two when the strike was imminent Charles S Isaacs abandoned his full scholarship to a prestigious law school to teach mathematics in Ocean Hill Brownsville Despite his Jewish background and pro union leanings Isaacs crossed picket lines manned by teachers who looked like him and took the side of parents and children who did not He now tells the story of this conflict not only from inside the experimental community controlled Ocean Hill Brownsville district its focal point but from within ground zero itself Junior High School 271 which became the nation's most famous or infamous public school Isaacs brings to life the innovative teaching practices that community control made possible and the relationships that developed in the district among its white teachers and its black and Puerto Rican parents teachers and community activists Inside Ocean Hill Brownsville is one of the finest accounts of this turbulent time in America's educational history As a firsthand analysis of a teacher embroiled in the Ocean Hill Brownsville community fight for educational justice it has no peer From its vantage point forty five years after the conflict we finally have a corrective to a plethora of secondhand analyses that have been written over the years It is a candid picture that I recommend highly Maurice R Berube coeditor of *Confrontation at Ocean Hill Brownsville* Inside Ocean Hill Brownsville makes a vital contribution to a much needed reinterpretation of the epochal struggles over community control of the New York City public schools in the 1960s and the divisive UFT fall 1968 strikes in opposition to that community based movement Writing from the firsthand perspective of a young Jewish math teacher at JHS 271 Isaacs brings this important story vividly to life with insight candor and humor He evokes the attitudes and actions of a rich array of ordinary teachers administrators students and parents who fought to defend the community control experiment in the face of the lies and distortions perpetrated by UFT officials and the mainstream press A must read for anyone interested in creating successful public schools this book helps us remember what democratic public education might look like Stephen Brier The Graduate Center City University of New York Charles Isaacs's *Inside Ocean Hill Brownsville* is a firsthand account of the dramatic events of New York City's greatest school crisis Isaacs debunks many of the popular myths of black militants waging assaults on teachers Instead he demonstrates that the episode in Ocean Hill Brownsville was a case of black and Latino parents with the support of a number of teachers at JHS 271 struggling for the education of their children and for a more democratically run educational system

These parents faced one of the most powerful unions in the city and a bureaucratic board of education that wanted to protect the status quo There have been many books written on the 1968 teachers strike but Isaacs s well written detailed account is by far the best Clarence Taylor author of Knocking at Our Own Door Milton A Galamison and the Struggle to Integrate New York City Schools *James Baldwin and the Short Story* Benedict Ushedo,2018-03-21 This book examines the range of issues that echo in James Baldwin s short stories It articulates and defends the claim that the stories in the collection *Going to Meet the Man* are driven by the autobiographical memory of the author To support this line of thought and the related proposition that the stories feed into themes relevant to self knowledge vicarious suffering love and forgiveness their effectiveness as transformative and revelatory texts is highlighted By drawing on contemporary studies and challenging the view that short stories are no more than miniature pieces merely echoing major works of their authors this book demonstrates that the short story genre can be profoundly forceful and effective in the articulation of complex human issues This study shows also that the humanistic import of the Baldwin stories is amplified by their ability to accumulate moral tension as they elicit the participation of the reader in an imaginative quest for a better world *Ebony* ,1974-11 EBONY is the flagship magazine of Johnson Publishing Founded in 1945 by John H Johnson it still maintains the highest global circulation of any African American focused magazine **The Education Digest** ,1974 The editorial aim is to present condensations of articles taken from the leading professional and lay publications Without a Prayer Leslie Beth Ribovich,2024-06-04 Reframes religion s role in twentieth century American public education The processes of secularization and desegregation were among the two most radical transformations of the American public school system in all its history Many regard the 1962 and 1963 US Supreme Court rulings against school prayer and Bible reading as the end of religion in public schools Likewise the 1954 *Brown v Board of Education* case is seen as the dawn of school racial equality Yet these two major twentieth century American educational movements are often perceived as having no bearing on one another *Without a Prayer* redefines secularization and desegregation as intrinsically linked Using New York City as a window into a national story the volume argues that these rulings failed to successfully remove religion from public schools because it was worked into the foundation of the public education structure especially how public schools treated race and moral formation Moreover even public schools that were not legally segregated nonetheless remained racially segregated in part because public schools rooted moral lessons in an invented tradition Judeo Christianity and in whiteness The book illuminates how both secularization and desegregation took the form of inculcating students into white Christian norms as part of their project of shaping them into citizens Schools and religious and civic constituents worked together to promote programs such as juvenile delinquency prevention moral and spiritual values curricula and racial integration advocacy At the same time religiously and racially diverse community members drew on resisted and reimagined public school morality Drawing on research from a number of archival repositories newspaper and legal databases and visual and material culture *Without a*

Prayer shows how religion and racial discrimination were woven into the very fabric of public schools continuing to inform public education s everyday practices even after the Supreme Court rulings **The Chasm** Robert Campbell,1986 This book discusses the fate of experimental schools in New York City in the 1960s and 1970s [Catalog of Copyright Entries.
