more important than ever today as corporate media's line reads increasingly like a government press release rather than a

newspapers local cable TV access and independent and microtransmitted radio are everywhere offering a vast array of news
opinions and information New Indymedia activists alone now have direct links to more than sixty five grassroots news sites
around the world The challenge we are faced with is two fold We must make these news sources widely accessible but we
must also find ways to compile sort and collectively release this real news to millions of people a project that this invaluable
guide for diversifying your access to information can make much more achievable
