The Sons of the Gods and the Daughters of Men Modupe Oduyoye, 2015-09-29 Modupe Oduyoye knows the rules of biblical criticism set down by the scholars of Europe and North America and he draws upon them to good effect Yet when he chooses to read the Hebrew Bible through the eyes of African creation myth and with the tongue of the Hamitic language group the effect is extraordinary Without attempting to solve the complex riddle of all that Jerusalem of old had to do with Ethiopia and East Africa Oduyoye persuasively shows that the exquisite sensitivity of African religion to the realm of the spirit is a living witness to a biblical consciousness much richer and more pluralistic than we had realized We ignore to our impoverishment and even our peril Oduyoye believes this biblical sense of human participation in the divine vitality and of spiritual kinship among the creatures W Sibley Towner Professor of Biblical Interpretation Union Theological Seminary Modupe Oduyoye presents a fascinating study in the area of biblical interpretation in drawing upon biblical and West African languages This is a work that ought to stimulate thought and make African theologians more receptive to the call to take a fresh look at the Bible against the background of African life and thought Kwesi A Dickson Professor of Old Testament Studies Director of the Institute of African Studies University of Ghana There is much in Modupe Oduyoye s book that is explosive of our Western biblical theological ethnocentricity This book is another heralding of the West African school which will have our skills but use them according to ground rules they are working out a school that will take its place with the Mexican the Tamil and many others As the tide recedes from the West it is good to hear the surge and thunder of the African shore Noel A King Professor of History and Comparative Religion University of California at Santa Cruz Modupe Oduyoye is a Nigerian exegete and philologist He was William Paton Fellow at the Selly Oak Colleges Birmingham 1981 82 He presently serves as the Literature Secretary of the Christian Council of Nigeria and as Manager of the Daystar Press in Ibadan

Africa, the Origin of Life and Black the Color of God Tiebet Joshua, 2016-03-24 THE BOOK Africa The Origin of Life is a 10 year painstaking research on the Bibles story of mankinds cosmogony of which 7 out of the 10 years spent on the research were on full time basis The Bible says that God created one man in the beginning and went ahead to describe the location of the habitation of the first man Two important issues in the Bibles story were of great interest to the Author for which he set out to research These were If the Bible story were taken to be true it then means that the multi races and colors in humanity today only came to be years after the creation of the first man which means that originally humanity only had one race and color from that man to a certain point in its history That being so what was the original color of that man In other words was he a Caucasian a Mongolian a Negro or an Amerindian and when did the multi races and colors of people that we have today come to be The earth has gone through so many changes through earthquakes landslides tumults ocean drifts and desert encroachments and etc over the years since the creation of the first man Taking all these into consideration is it still possible to establish the location of Eden where our first parents lived In other words was Eden in America Europe Asia or Africa And if we are able to establish the continent which Eden was located is it not correct to say that the first man was a native of that continent Africa is poor and

backward today what are the causes of Africa's backwardness Is there any hope for Africa or has God forsaken Africa These and more are the salient questions that this book has biblically scientifically and historically found answers to The book is highly explosive and revealing It would cause so much ripples and likely going to change some of your Biblical beliefs
