The Child's First History of Rome Elizabeth Missing Sewell, 1859 **The Child's First History of Rome** Rome, the City. [Appendix. - History.], Author of Amy Herbert, E. M. Sewell, 1849 **A Child's History of Rome, Vol. 1 of 2** John Bonner, 2015-06-17 Excerpt from A Child's History of Rome Vol 1 of 2 This little book was written and published several years ago and has been read by many who are now men and women In it I tried to tell the story of a nation from which we borrowed much of our learning and our law and our letters and our manliness Like the history of most ancient nations that story begins with legend and fable which though not actually true still show you what manner of men the old Romans were Out of the mist of the fable grew a brave patient big hearted nation which rose in power till its eagles flew over three continents and its schools garnered into their fold nearly all the science and wisdom of ancient times then fainting from excess of empire and wealth its grasp relaxed and it fell to pieces which lay buried for a thousand years in the gloom of ignorance and superstition In this new edition of the child's history I have added a few lines here and there in order that you shall understand the story without too much labor About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *The child's first history of Rome* Elizabeth Missing Sewell, 1885 **Child's First History of Rome** Elizabeth Missing Sewell, 2023-07-18 Elizabeth Missing Sewell provides an accessible and engaging introduction to the history of ancient Rome in this children's book From the founding of the city to the fall of the Empire Sewell covers all the major events and figures in Roman history This book is an excellent choice for parents looking to introduce their children to the classics This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant *The Child's First History of Rome* Elizabeth Missing Sewell, 2015-06-24 Excerpt from The Child's First History of Rome The solicitude so generally disclosed to make every department of knowledge accessible to the young by means of works adapted to their intellectual capacity and progress is one of the most remarkable characteristics of the present age The men are now living who can recollect the period when instruction in our best schools limited to two or three indispensable studies was conveyed

through the medium of text books which were scarcely intelligible even to the teacher much less to the pupil committed to his care when works of general information fitted to instruct as well as amuse the juvenile mind written for its use and adjusted to its powers would have been sought for in vain when in fact the best reading of all who were short of the age of puberty comprised little except absurd and incredible tales of enchantment and magic Now what a change Not only has the principle of adaptation to the intellectual development of the young been recognised and with nearly mathematical precision applied in our schools but numerous additional studies acknowledged to be important have been successfully introduced and the means of pursuing them amply provided and instead of the wretched compilations from an age of barbarism and superstition in which the young formerly found their entertainment at the fireside we have teeming libraries rich in the various treasures of science of literature and of art including works in every branch of knowledge written expressly for them and in the main admirably fitted at the same time to gratify and excite thirst for information in their tender minds The best things however are liable to abuse the noblest ideas are ever in most danger of being pushed to extremes and the prevailing anxiety daily augmenting to secure suitable and sufficient intellectual food for the young has been productive of some consequences which cannot be contemplated by the judicious with unmixed pleasure hardly without regret About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

The Child's First History of Rome (Classic Reprint) Elizabeth Missing Sewell,2018-11-23 Excerpt from The Child s First History of Rome Another consequence of the present temper of the public is a ood of fictitious works designed For the perusal of the young In these works a series of imaginary facts is made a vehicle to con vey moral and religious information Such facts of course beyond their immediate use possess no value and it may be seriously questioned whether the lessons they convey wanting as they do the authority which real facts impart possess more Be this as it may all must admit that these lessons make but a slight impres sionna the feelings and memory in comparison with the interest awakened by the incidents of the story nand its progress to the catastrophe while the distaste thus engendered for less exciting though infinitely more useful reading 1s a positive injury for which they offer no equivalent or compensation Whatever About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
