*La Famiglia* Eva Carlestål, 2005 **Memory, Family, and Self** Giovanni Ciappelli, 2014-04-10 The family book a kind of diary written by and about the family for its various members was established by scholars as a genre in Italy in the 1980s Although initially regarded as an Italian genre the family book can also be found in other parts of Europe Nevertheless the genre can be traced back to Florence where it first emerged and consequently

flourished with the lavish production of such documents This abundance springs from the social structure of the city where such texts were essential for establishing and cultivating the basis for the social promotion of Florentine families This book presents a reconstruction of the evolution and persistency of Tuscan family books as well as a study of several aspects of social history including reading and private libraries domestic devotion and the memory of historical events Starting with the Renaissance the investigation then broadens to the 17th 18th centuries and considers other forms of memory such as private diaries and autobiographies A final section is dedicated to the issue of memory in the egodocuments of early modern Europe This book was translated by Susan Amanda George

**Law, Family, and Women** Thomas Kuehn, 2015-08-07 Focusing on Florence Thomas Kuehn demonstrates the formative influence of law on Italian society during the Renaissance especially in the spheres of family and women Kuehn s use of legal sources along with letters diaries and contemporary accounts allows him to present a compelling image of the social processes that affected the shape and function of the law The numerous law courts of Italian city states constantly devised and revised statutes Kuehn traces the permutations of these laws then examines their use by Florentines to arbitrate conflict and regulate social behavior regarding such issues as kinship marriage business inheritance illegitimacy and gender Ranging from one man s embittered denunciation of his father to another s reaction to his kinsmen s rejection of him as illegitimate **Law Family and Women** provides fascinating evidence of the tensions riddling family life in Renaissance Florence Kuehn shows how these same tensions often articulated in and through the law affected women He examines the role of the mundualdus a male legal guardian for women in Florence the control of fathers over their married daughters and issues of inheritance by and through women An ambitious attempt to reformulate the agenda of Renaissance social history Kuehn s work will be of value to both legal anthropologists and social historians Thomas Kuehn is professor of history at Clemson University

**Fate, Honor, Family and Village** Rudolph M. Bell, 2017-09-04 The Italian peasantry has often been described as tragic backward hopeless downtrodden static and passive In **Fate and Honor Family and Village** Rudolph Bell argues against this characterization by reconstructing the complete demographic history of four country villages since 1800 He analyzes births marriages and deaths in terms of four concepts that capture more accurately and sympathetically the essence of the Italian peasant s life Fortuna fate onore honor dignity famiglia family and campanilismo village Fortuna is the cultural wellspring of Italian peasant society the worldview from which all social life flows The concept of Fortuna does not refer to philosophical questions predestination or value judgments Rather Fortuna is the sum total of all explanations of outcomes perceived to be beyond human control Thus in Bell s view high mortality does not lead peasants to a resigned acceptance of their fate instead they rely on honor reciprocal exchanges of favors and marriage to forge new links in their familial and social networks With thorough documentation in graphs and tables the author evaluates peasant reactions to time work family space migration and protest to portray rural Italians as active flexible and shrewd participating fully in shaping their destinies Bell asserts that the real problem of the Mezzogiorno

is not one of resistance to technology of high birth rates or even of illiteracy It is one of solving technical questions in ways that foster dependency The historical and sociological practice of treating peasant culture as backward secondary and circumscribed only encourages disruption and ultimately blocks the road to economic and political justice in a post modern world Family Policy.
