Lately I have been reacquainting myself with the writings of Rich Alapack through his latest books *Loves Pivotal Relationships Sorrows Profiles and White Hot True Blue* These reminded me of the lucid beauty of Alapack's writing style and of the deep and penetrating insights that he shares with his reader I recognize myself and others in the vignettes these books provide and have been incorporating his texts into my recent graduate classes Alapack's writings mark a return to the original form in which phenomenologists used to communicate with their readers via straightforward reflection drawing upon a lifetime of experience speaking in simple descriptive language and capturing the essence of human experience by mastering the art of speaking truthfully and authentically It takes a certain kind of free courageousness to engage in such writing today in an intellectual climate where demands for methodological rigor in the form of operationalism run amok have compromised manuscripts submitted for review in favor of halfhearted statements of methodological orthodoxy followed by statements of findings that amount to little more than summaries of raw data What Alapack has achieved in his recent writings and especially in his latest venture *The Splendor of Seeing and the Magic of Touch* is a truth speaking both from the author's heart and from his lifetime of authentic dialogue with the interlocutors he has found along his own life's journey The gift that he gives to his reader is the gift of inviting us to join him on his own path to enlightenment Scott D Churchill PhD Professor and Graduate Program Director University of Dallas Editor in Chief *The Humanistic Psychologist* This book is heartwarming joyful and insightfully brilliant This author's newest publication once again represents a heart-felt and dedicated effort to researching human phenomena from the laboratory of day-to-day life In this lifelong work the author shares many of his personal experiences experiences of others then invites us to share a developmental journey through monumental experiences in our childhood adolescence and young adulthood He delves into important developmental topics that are rarely if ever discussed in mainstream psychological writing Dr Alapack offers reflected insight into these experiences in a playful yet profound manner allowing us to gain a deeper understanding of who we are as perfectly imperfect people Exploring the dynamics of peekaboo with a young one playing tag as a juvenile sharing the exhilarating and or bitter-sweet memories of the first kiss barely coping with or perhaps flaunting a teenage hickey will have you smiling with fondness as you are reminded of your own experiences These personal stories and parables are timeless and ageless This text should be mandatory reading

for both students and researchers in developmental psychology Parents and Educators will find this book personally enriching and will ultimately benefit from a more in depth understanding of themselves and their children I have seen Dr Alapacks work grow and expand over the years and this book is a shining example of an existential phenomenologist par excellence His dedicated work has had a major and significant impact on my personal and professional life Paul Watters B A B Ed M Ed M Ed Lambton Kent District School Board Sarnia Ontario Canada **The Book of Kisses** William
