Resisting Brown Candace Epps-Robertson, 2018-10-31 Many localities in America resisted integration in the aftermath of the Brown v Board of Education rulings 1954 1955 Virginia s Prince Edward County stands as perhaps the most extreme Rather than fund integrated schools the county s board of supervisors closed public schools from 1959 until 1964 The only formal education available for those locked out of school came in 1963 when the combined efforts of Prince Edward s African American community and aides from President John F Kennedy s administration established the Prince Edward County Free

School Association Free School This temporary school system would serve just over 1 500 students both black and white aged 6 through 23 Drawing upon extensive archival research Resisting Brown presents the Free School as a site in which important rhetorical work took place Candace Epps Robertson analyzes public discourse that supported the school closures as an effort and manifestation of citizenship and demonstrates how the establishment of the Free School can be seen as a rhetorical response to white supremacist ideologies The school s mission statements philosophies and commitment to literacy served as arguments against racialized constructions of citizenship Prince Edward County stands as a microcosm of America s struggle with race literacy and citizenship

Churches of Christ in Oklahoma W. David Baird, 2020-01-23 In the 1950s and 1960s Churches of Christ were the fastest growing religious organization in the United States The churches flourished especially in southern and western states including Oklahoma In this compelling history historian W David Baird examines the key characteristics individuals and debates that have shaped the Churches of Christ in Oklahoma from the early nineteenth century to the beginning of the twenty first century Baird s narrative begins with an account of the Stone Campbell movement which emerged along the American frontier in the early 1800s Representatives of this movement in Oklahoma first came as missionaries to American Indians mainly to the Cherokees Chickasaws and Choctaws Baird highlights the role of two prominent missionaries during this period and he next describes a second generation of missionaries who came along during the era of the Twin Territories prior to statehood In 1906 as a result of disagreements regarding faith and practice followers of the Stone Campbell Movement divided into two organizations Churches of Christ and Disciples of Christ Baird then focuses solely on Churches of Christ in Oklahoma all the while keeping a broader national context in view Drawing on extensive research Baird delves into theological and political debates and explores the role of the Churches of Christ during the two world wars As Churches of Christ grew in number and size throughout the country during the mid twentieth century controversy loomed Oklahoma s Churches of Christ argued over everything from Sunday schools and the support of orphan s homes to worship elements gender roles in the church and biblical interpretation And nobody could agree on why church membership began to decline in the 1970s despite exciting new community outreach efforts This history by an accomplished scholar provides solid background and new insight into the question of whether Churches of Christ locally and nationally will be able to reverse course and rebuild their membership in the twenty first century
