World War II history the Tuskegee Airmen are now among the most celebrated and documented aviators in military history. With this growth in popularity however have come a number of inaccurate stories and assumptions. Misconceptions about the Tuskegee Airmen refutes fifty five of these myths correcting the historical record while preserving the Airmen's rightful reputation as excellent servicemen. The myths examined include the Tuskegee Airmen never losing a bomber to an enemy aircraft that Lee Archer was an ace that Roscoe Brown was the first American pilot to shoot down a German jet that Charles McGee has the highest total combat missions flown and that Daniel Chappie James was the leader of the Freeman Field Mutiny. Historian Daniel Haulman, an expert on the Airmen with many published books on the subject, conclusively disproves these misconceptions through primary documents like monthly histories, daily narrative mission reports, honor awarding orders, and reports on missing crews, thereby proving that the Airmen were praiseworthy even without embellishments to their story.

The Tuskegee Airmen Joseph Caver, Jerome A. Ennels, Daniel Lee Haulman, 2011-01-01. Many documentaries, articles, museum exhibits, books, and movies have now treated what became known as the Tuskegee Experiment involving the black pilots who gained fame during World War II as the Tuskegee Airmen. Most of these works have focused on the training of America's first black fighter pilots and their subsequent accomplishments during combat. This publication goes further using captioned photographs to trace the airmen through the stages of training, deployment, and combat actions in North Africa, Italy, and Germany in an attractive coffee table book format. Included for the first time are depictions of the critical support roles of doctors, nurses, mechanics, navigators, weathermen, parachute riggers, and other personnel, all of whom contributed to the airmen's success, and many of whom went on to help complete the establishment of the 477th Composite Group. The authors have told in pictures and words the full story of the Tuskegee Airmen and the environments in which they lived, worked, played, fought, and sometimes died.

Trained at Tuskegee Army Air Field in Alabama, these courageous men flew more than 1,500 missions. This stirring book describes the fight to allow African Americans to serve as pilots, the training the men received, and some of the most exciting missions and sorties the unit faced.
