Documentarism in Scandinavian Literature Poul Houe, Sven Hakon Rossel, 1997 Documentary literature became an international phenomenon on the cultural and political scene in the 1960s and 1970s From the American New Journalism in works by such writers as Norman Mailer and Tom Wolfe to the German Industriereportagen by Günther Wallraff and others documentarism presented a variety of controversial interplays between facts and fiction labeled as faction fables of fact or the like Scandinavian literature made important and unique contributions to this international movement and Documentarism in Scandinavian Literature is the first comprehensive volume ever published on the historical significance and future implications of these Nordic dimensions of documentarism and their international context The volume is centered on Swedish documentary literature in the 1960s and 1970s and on such major writers as Per Olov Enquist Sven Lindqvist Sara Lidman and Per Olov Sundman but the powerful voices of Danish writer Thorkild Hansen and Norwegian novelist Dag Solstad are also heard in its critical concert The diversity of Documentarism in Scandinavian Literature is further enhanced by surveys and analyses of the historical background for more recent works and activities and by theoretical inquiries into the epistemological status of documentarism its theoretical narrative and theatrical devices its predominant genres and links to other modes of mass communication and its political affiliations and implications For readers already familiar with its subject matter Documentarism in Scandinavian Literature offers an opportunity to revisit and recontextualize a crucial moment in their recent cultural past For readers who have yet to be exposed to documentary works of fiction the volume presents a timely theoretical historical and critical introduction to the key problematics and potentials of their novel field of interest Whether viewed as part of the past or part of the present documentarism remains an intellectual challenge which this volume is aimed at addressing Documentarism in Scandinavian Literature is edited by two Scandinavian scholars living abroad and its essays are written by senior and junior scholars and critics from Scandinavia Europe and America an interview with Per Olov Enquist and an autobiographical piece by Sven Lindqvist complete the volume

John Simon on Film John Ivan Simon, 2005-06 Applause Books I find John's critical writing immensely entertaining even when I'm not in agreement He has the gift such a rare one of being able to analyze the work in question to be able to say why it is that it's so powerful so touching or on the other hand so trite so meretricious or so banal I find his reviews full of insights and perceptions that make reading a collection of this sort as exciting as reading a gripping novel John's wit is dazzling and is never displayed for its own sake but to drive home an aspect of the review It was exciting for me to read through this collection and see such warm praise for so many films that I feel have been unjustly ignored Bruce Beresford

In an attempt to discover the one idea with respect to which Goethe claimed he had worked while writing *Die Wahlverwandtschaften* taking my cue from Goethe himself I have united the investigational techniques of hermeneutics and complexity or chaos theory and brought them to bear on the structure of several of the mirroring events in the text The overwhelming conclusion of this author is that like those investigating chaos in nature literary theorists must turn to comprehensive approaches if they wish to treat seriously the structure of texts as works which flow from nature the nature of the human mind *The Cambridge History of Travel Writing* Nandini Das, Tim Youngs, 2019-01-24 Bringing together original contributions from scholars across the world this volume traces the history of travel writing from antiquity to the Internet age It examines travel texts of several national or linguistic traditions introducing readers to the global contexts of the genre From wilderness to the urban from Nigeria to the polar regions from mountains to rivers and the desert this book explores some of the key places and physical features represented in travel writing Chapters also consider the employment in travel writing of the diary the letter visual images maps and poetry as well as the relationship of travel writing to fiction science translation and tourism Gender based and ecocritical approaches are among those surveyed Together the thirty seven chapters here underline the richness and complexity of this genre *Exploring NORDIC COOL in Literary History* Gunilla Hermansson, Jens Lohfert Jørgensen, 2020-11-15 How did Nordic culture become associated with the fuzzy brand cool as by default In *Exploring NORDIC COOL in Literary History* twenty one scholars in collaboration question the seemingly natural fit between Nordic and Cool by investigating its variegated trajectories through literary history from medieval legends to digital poetry At the same time the elasticity and polysemy of the word cool become a means to explore Nordic literary history afresh It opens up a rich diversity of theoretical and methodological approaches within a regional framework and reveals hitherto unseen links between familiar and less familiar tracks and sites Following diverse paths of Nordic cool in respect to among other things nature survival love whiteness style economics heroism and colonialism this book challenges all too recognisable narratives and underlines the sheer knowledge potential of literary historical research *Stagg vs. Yost* John Kryk, 2015-07-16 Corruption scandals and reports of wrongdoing in college football are constantly in the news From Penn State's Joe Paterno to Ohio State's Jim Tressel we have come to learn that some of the most lauded coaches don't always live up to their saintly reputations Perhaps no era of college football was ever more emblematic of this than the early 1900s a time when coaches worked the system with merciless flair to recruit the best players and then keep them eligible to play even while other coaches were trying to steal already enrolled players from rival universities Amos Alonzo Stagg of the University of Chicago and Fielding H Yost of the University of Michigan were no exception and their bitter rivalry is one for the ages In *Stagg vs Yost The Birth of Cutthroat Football* John Kryk brings to life a story that is both timeless and familiar to all football fans indeed to all sports fans one man's obsession to end the pain of a long losing streak to a hated rival This is

the story of how Amos Alonzo Stagg covertly punted many of the principles he espoused in order to dismantle one of the most powerful machines the game has known Fielding Yost's Michigan Wolverines Kryk reveals the extent to which Stagg schemed to achieve victory against the Point a Minute Wolverines and the lengths Yost went to prevent that from happening In addition this book provides insight into college athletics corruption as a whole during this time from under the table payments to recruits to contracted loans from wealthy boosters and why the current NCAA rulebook contains page after page of recruiting and eligibility regulations Featuring never before published internal correspondences of UM athletic leaders Stagg's surviving letters and notes and reports from newspapers of the day Stagg vs Yost brings fresh insight into two legends of college football who would do almost anything to win This book is a noteworthy and fascinating narrative for football fans historians and anyone interested in seeing where cutthroat college recruiting and coaching all began

German Culture and the Modern Environmental Imagination Sabine Wilke, 2015-03-20 Thinking about and relating to the environment what the Germans call Umwelt i e the world that surrounds us in the way that we do today has a long tradition within modern German culture German scientists were among the many European explorers that left Europe in the late eighteenth century on voyages of discovery to then unknown parts of the world For some explorers discovery meant the fundamental confirmation of their own superiority vis vis primitive peoples and primitive natures for others it resulted in a shake up of their belief in the superiority of European civilization in the face of the achievements of other civilizations or in the face of spectacular nature scenes that outperformed the temperate European landscapes in terms of scale sublimity and grandeur The documents that contain these stories of discovery left an important impression not only on German culture but on European civilization at large defining it vis vis other civilizations and other natures Europe today is the product of these encounters including the way we conceive of our Umwelt the environment that surrounds us The story told in this book is the story of the rise of the modern German environmental imagination with particular emphasis on its narrative and visual components complementing and expanding Barbara Stafford's important work in her seminal study of the illustrated travel account from 1984 Chapters on Georg Forster Alexander von Humboldt Albert Bierstadt Leni Riefenstahl and Werner Herzog unfold the key stages in a process that constitutes the unfolding of the modern German environmental imagination **The A to Z of Sweden** Irene Scobbie, 2010-05-11 Once part of the Kalmar Union along with Denmark and Norway the Kingdom of Sweden broke free in order to govern itself in the early 1500s and for more than a century afterwards it was a force to be reckoned with At its peak it was twice the size that it is today but with the secession of Finland in 1809 and the rise of Russia Sweden changed its path and instead turned toward neutrality and a peaceful existence Today Sweden boasts a healthy economy and it is an important member of the European Union as well a major contributor to international activities The A to Z of Sweden relates the history of Sweden through a chronology a list of acronyms and abbreviations an introductory essay a bibliography appendixes and hundreds of cross referenced dictionary entries on significant persons events and institutions
