

# THE EASTERN HIGHLANDS

## NOTES

The Eastern Highlands are a series of mountain ranges extending from the north to the south of the island. They are characterized by high peaks, deep valleys, and numerous lakes. The climate is generally cool and wet, with frequent rain and snow. The vegetation is mainly coniferous forest, with some deciduous trees in the lower valleys. The population is sparse, with most people living in small villages and towns. The main industries are agriculture, forestry, and tourism.

## ROAD TO GLEN

The road to Glen is a narrow, winding track that follows the contours of the hills. It is a challenging drive, especially in winter when the roads are often covered in snow and ice. The scenery is spectacular, with views of the surrounding mountains and valleys. The road is a popular route for hikers and cyclists, and it is well worth the effort to reach the destination.
