Using Functional Analysis in Archival Appraisal Marcus C. Robyns, 2014-07-02 The identification of recorded information with continuing value that documents corporate and cultural memory is one of the archivist s primary tasks and he she accomplishes this mission in part through the process of appraisal But does traditional archival appraisal based on the concepts of primary and evidential values effectively serve the needs of institutional archivists and records managers In an age of scarcity and the challenge of electronic records can archivists and records managers continue to rely upon a methodology essentially unchanged since the early 1950s *Using Functional Analysis in Archival Appraisal A Practical and Effective Alternative to Traditional Appraisal Methodologies* shows how archivists in other countries are already using functional analysis which offers a better more effective and imminently more practical alternative to traditional appraisal methodologies that rely upon an analysis of the records themselves From this book information professionals will learn what functional analysis is and how it is already used around the world its useful application for a variety of record types and media including print non textual electronic and born digital records how functional analysis provides an alternative to a hierarchical arrangement scheme based upon record groups sub groups and series that mimics the structure of an institution or organization a recommended process for the practical and effective implementation of functional analysis

Encyclopedia of Archival Science Luciana Duranti, Patricia C. Franks, 2015-06-17 Here is the first ever comprehensive guide to archival concepts principles and practices *Encyclopedia of Archival Science* features 154 entries which address every aspect of archival professional knowledge These entries range from traditional ideas like appraisal and provenance to

today's challenges digitization and digital preservation. They present the thoughts of leading luminaries like Ernst Posner, Margaret Cross Norton and Philip Brooks as well as those of contemporary authors and rising scholars. Historical and ethical components of practice are infused throughout the work. Edited by Luciana Duranti from the University of British Columbia and Patricia C. Franks from San Jose State University, this landmark work was overseen by an editorial board comprised of leading archivists and archival educators from every continent: Adrian Cunningham (Queensland State Archives, Australia), Fiorella Foscarini (University of Toronto and University of Amsterdam), Pat Galloway (University of Texas at Austin), Shadrack Katuu (International Atomic Energy Agency), Giovanni Michetti (University of Rome La Sapienza), Ken Thibodeau (National Archives and Records Administration, US) and Geoffrey Yeo (University College London, UK).

Encyclopedia of Archival Writers, 1515 - 2015 Luciana Duranti, Patricia C. Franks, 2019-04-26. The *Encyclopedia of Archival Writers 1515-2015* is a reference work that includes the profiles of authors of literature about records and archives in the Western world who have shaped the records and archives field over a span of 500 years. The 144 archival writers from 13 countries who are included in this volume were selected by an international advisory board on the basis of their impact on the records and archives profession and discipline, the presence of their publications in educational programs, reading lists, and the frequency of reference to their work. Among the writers included in this volume are Albertino Barisoni of Padua (1587-1667), Sir Hilary Jenkinson of England (1882-1961), Adolf Brenneke of Germany (1875-1946), Theodore R. Schellenberg of the United States (1903-1970), Robert Henri Bautier of France (1922-2010), Terry Cook of Canada (1947-2014), Vicenta Cortés Alonso of Spain (1925), Eric Ketelaar of the Netherlands (1944), Aurelio Tanodi of Argentina (1914-2011), Ian Maclean of Australia (1919-2003), and Verne Harris of South Africa (1958). Arranged in alphabetical order, each entry includes a biography, intellectual contributions, and a brief essential bibliography. A total of 113 educators, professionals, and students in the records and archives field, 55 of whom are also profiled in this *Encyclopedia*, contributed to this volume. There is no other book in any language that focuses on the life and work of authors of records and archives literature. In fact, there is not easily available information on such writers. Thus, most entries involved quite a bit of research on dead writers and interviews with the living ones. Several living writers supported this work by accepting to author their own entry.

The Nordic Model of Digital Archiving Greg Bak, Marianne Rostgaard, 2023-11-23. The *Nordic Model of Digital Archiving* explores the roots and strengths of Nordic digital archiving and proposes new directions to guide digital archivists in addressing the challenges posed by ever-changing digital technologies and the datafication of information and records. Digitization and born digital records promise efficient and cost-effective solutions to everything from preservation of data to easy user access. However, digitization also poses challenges for archival practitioners worldwide. Bringing together contributions from practitioners and academics to offer a range of international

case studies this book offers practical solutions for archivists in terms of governance technologies and processes It highlights and analyses the cornerstones of the Nordic model of archiving reliance on standards powerful regulatory instruments especially in public sector archiving including legislation and collaboration between archivists and government agencies and among different tiers of central and local government While showcasing work in the Nordic region for the benefit of archivists and record keepers globally this volume also challenges the limits of the Nordic model with insights drawn from international archival theory The Nordic Model of Digital Archiving offers a new perspective on archiving that will be of interest to academics researchers and postgraduate students of archiving digital archives and records management

Archives and Emotions Ilaria Scaglia,Valeria Vanesio,2024-11-14 Archives and Emotions argues at its most fundamental level that emotions matter and have always mattered to both the people whose histories are documented by archives and to those working with the documents these contain This is the first study to put archivists and historians scholars and practitioners from different settings geographical provenance and stages of career in conversation with one another to examine the interplay of a broad range of emotions and archives traditional and digital from the eighteenth to the twenty first centuries across national and disciplinary borders Drawing on methodologies from the history of emotions and critical archival studies this book provides an original analysis of two interconnected themes through a selected number of case studies the emotional dynamics affecting the construction and management of archives and the emotions and their effects on the people engaging with them such as archivists researchers and a broad range of communities Its main message is that critically investigating the history and mechanics of emotions including their suppression and exclusion also being conscious of their effects on people and societies is essential to understanding how archives came to hold deep civic and ethical implications for both present and future This study thus establishes a solid base for future scholarship and interdisciplinary collaborations and challenges academic and non academic readers to think work and train new generations differently fully aware that past and present choices have and might again hurt inspire empower or silence

Embracing the Track of Phrase: An Psychological Symphony within **The Historian As An Archivist**

In a world used by screens and the ceaseless chatter of instant connection, the melodic beauty and psychological symphony created by the prepared word usually fade in to the backdrop, eclipsed by the relentless sound and disruptions that permeate our lives. Nevertheless, located within the pages of **The Historian As An Archivist** a wonderful fictional prize full of organic feelings, lies an immersive symphony waiting to be embraced. Crafted by a wonderful composer of language, that charming masterpiece conducts readers on a mental journey, skillfully unraveling the concealed melodies and profound affect resonating within each cautiously crafted phrase. Within the depths of this poignant analysis, we shall investigate the book is main harmonies, analyze its enthralling publishing fashion, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
