Histories of the Holocaust Dan Stone, 2010-06-17 A comprehensive and accessible guide to the major themes and debates in Holocaust historiography over the last two decades

The Holocaust and Historical Methodology Dan Stone, 2012-08-01 In the last two decades our empirical knowledge of the Holocaust has been vastly expanded Yet this empirical blossoming has not been accompanied by much theoretical reflection on the historiography This volume argues that reflection on the historical process of re constructing the past is as important for understanding the Holocaust and by extension any past event as is archival research It aims to go beyond the dominant paradigm of political history and describe the emergence of methods now being used to reconstruct the past in the context of Holocaust historiography

Constructing the Holocaust Dan Stone, 2003 On the one hand then this is traditional historiography the history of history writing On the other hand the problem is approached via recent work in the philosophy of history closely analysing historical works as texts This is an interdisciplinary study that brings to bear on historiography the kind of textual analysis usually reserved for fiction testimony or film The Holocaust precisely because it throws into doubt older methodologies demands the search for new ones Showing how Holocaust historians inadvertently and paradoxically reinscribe into the wider culture patterns of thought that the Holocaust repudiated Constructing the Holocaust tries to respond to the Holocaust in a way that recognises its potential impact on usually unquestioned beliefs and unspoken methodological assumptions

Holocaust Historiography in Context David Bankier, Dan Mikhman, 2008 The modes in which historical research is being shaped have become themselves topics of research Holocaust historiography the documentation depiction and analysis of one of the most horrific events in human history is today a wide ranging academic field in which Jewish and non Jewish scholars throughout the world are active But how did this historiography especially its Jewish aspect emerge and by what factors was it shaped This volume examines the very beginnings of the effort to apply scholarly standards to the understanding of the Holocaust when World War II was still raging and immediately after it had ended

Empire, Colony, Genocide A. Dirk Moses, 2008 In 1944 Raphael Lemkin coined the term genocide to describe a foreign occupation that destroyed or permanently crippled a subject population This text is a

world history of genocide that highlights what Lemkin called the role of the human group and its tribulations **The Historiography of Genocide** Anton Weiss-Wendt, Robert Krieken, Alfred A. Cave, Ben Kiernan, Doris Bergen, David Moshman, Victoria Sanford, John Docker, Robert Hitchcock, 2008-02-13 The Historiography of Genocide is an indispensable guide to the development of the emerging discipline of genocide studies and the only available assessment of the historical literature pertaining to genocides *Holocaust Historiography* Dan Mikhman, 2003 A collection of articles lectures and reviews some of them published previously Includes some material not published in the Hebrew version and some which appeared only in the French or German version Partial contents **How to Write About the Holocaust** Theodor Pelekanidis, 2022-05-05 How to Write About the Holocaust is a contribution to ongoing debates in historiography and Holocaust studies More specifically it combines the theoretical framework that has developed in historiography in the last half a century with the demands of Holocaust representation The first part of the book analyzes the newest trends in theory of history focusing especially on postmodernism starting from the works of the American historian and theorist Hayden White and tracing the genealogy of the postmodern influence in history both from an epistemological and from a political perspective The second part continues by incorporating these theoretical developments into specific written examples on the Holocaust By analyzing major works about it including Saul Friedl nder s and Dan Stone s histories of the Holocaust the book attempts to answer questions like what is the most appropriate way to write about the Holocaust and what can theory teach us about the practice of history To conclude the volume explores the connection between history and literature and asks if the distinction between fact and fiction has become outdated **Handbook of Genocide Studies** David J. Simon, Leora Kahn, 2023-02-14 Providing an intellectual biography of the challenging concept of genocide this topical Handbook takes an interdisciplinary approach to shed new light on the events processes and legacies in the field **The Social Scientific Study of Jewry** Uzi Rebhun, 2014 This volume of Studies in Contemporary Jewry directs its searchlight on the social scientific study of Jewry Its symposium consists of 11 essays that discuss sources approaches and debates in different complementary fields of demography sociology economy and geography Taken as a group the essays cover the major areas of Jewish life today in Israel the United States Europe and Latin America **The Routledge History of East Central Europe since 1700** Irina Livezeanu, Arpad von Klimo, 2017-03-16 Covering territory from Russia in the east to Germany and Austria in the west The Routledge History of East Central Europe since 1700 explores the origins and evolution of modernity in this turbulent region This book applies fresh critical approaches to major historical controversies and debates expanding the study of a region that has experienced persistent and profound change and yet has long been dominated by narrowly nationalist interpretations Written by an international team of contributors that reflects the increasing globalization and pluralism of East Central European studies chapters discuss key themes such as economic development the relationship between religion and ethnicity the intersection between culture and imperial national wartime and revolutionary political

agendas migration women s and gender history ideologies and political movements the legacy of communism and the ways in which various states in East Central Europe deployed and were formed by the politics of memory and commemoration This book uses new methodologies in order to fundamentally reshape perspectives on the development of East Central Europe over the past three centuries Transnational and comparative in approach this volume presents the latest research on the social cultural political and economic history of modern East Central Europe providing an analytical and comprehensive overview for all students of this region

The Holocaust and Historical Methodology Dan Stone, 2012 This book is timely and necessary and often extremely challenging It brings together an impressive cast of scholars spanning several academic generations Anyone interested in writing about the Holocaust should read this book and consider the implications of what is written here for their own work There seems to me little doubt that Holocaust history writing stands at something of a cross roads and the ways forward that this volume points to are extremely thought provoking Tom Lawson University of Winchester

Studies in Contemporary Jewry: X: Reshaping the Past Jonathan Frankel, 1995-03-30 This brilliant collection of essays examines the dialogue between Jewish history and historiography in terms of changing national and popular myths folk memory and historical consciousness of Jews in modern times From essays dealing with the origins of Jewish historiography in the nineteenth century to its contemporary perspectives and methodologies this book provides a great overview and varied insights into the field

History and Psychoanalysis in the Columbus Centre Danae Karydaki, 2023-12-26 This book draws on a range of key archives and oral testimonies to provide the first systematic and historical study of the origins context development frustrations inner contradictions and legacies of the Columbus Centre The Columbus Centre a remarkable though largely forgotten research institute was established at the University of Sussex in 1966 triggered by claims of a dearth of academic research about Nazism and the Holocaust Its basic stated aim was to bring together psychoanalysis and history for a scholarly investigation of discrimination mass violence and the preconditions of genocide in the past and the present The Nazi crimes were studied along with other instances of prejudice and mass violence such as sixteenth and seventeenth century witch hunts South African apartheid the persecution of the Roma people and race relations in the United States and modern day Britain The book seeks to place the Columbus Centre in the historiography of mass violence by analysing the Centre s works through four historiographical prisms or power relations in which they were produced psychoanalysis class race and gender This interdisciplinary volume is a valuable text for scholars and students of historiography psychoanalysis genocide and violence and postwar Europe and for professionals within the field of psychology

Studies in Contemporary Jewry Jonathan Frankel, 1998-02-05 Was the Holocaust a natural product of a long German history of Anti Semitism Or were the Nazi policies simply a wild mutation of history not necessarily connected to the past Or does the truth lie somewhere in between This latest volume in the acclaimed Studies in Contemporary Jewry series edited by internationally known scholars at the Hebrew University in Jerusalem presents essays on the origins of the Holocaust The

works in this volume are diverse in scope and opinion ranging from general philosophical discourses to detailed analyses of specific events and often reflecting the divergent ideologies and methods of the contributors But each adds to the whole and the result is a fascinating panorama that is sure to be indispensable to all students and scholars of the subject **Hannah**

Arendt and the Uses of History Richard H. King, Dan Stone, 2008-09 Hannah Arendt first argued the continuities between the age of European imperialism and the age of fascism in Europe in *The Origins of Totalitarianism* This text uses Arendt's insights as a starting point for further investigations into the ways in which race imperialism slavery and genocide are linked

The Banality of Denial Yair Auron, **Beyond the Balkans** Sabine Rutar, 2014 This book shows how current and future research on the social history of the Balkans can be integrated into a broader European framework The contributions look at a range of methodological and empirical issues and the theme that links the various studies is that of the contrasting yet at the same time entangled ideas of the Balkans as a mental map and of Southeast Europe as an historical region Series Studies on South East Europe Vol 10
