The History And Archaeology Of Ports:

The History and Archaeology of Ports Gordon Jackson,1983 *Harbours and Havens* Lewis R. Fischer,Adrian Jarvis,2017-10-18 This book is a collection of ten essays concerning various aspects of ports port towns and port history by means of tribute to the maritime historian Gordon Jackson The volumes begins with an appreciation of Gordon Jackson s career and concludes with a bibliography of his published work The first four essays concern British ports Hull Liverpool and Dumfries in particular and the remaining six concern international ports a wide range stretching across the ports of Fremantle Yokohama Dubai and Bremen The essays cover topics such as politics and port management port development throughout history post war port development individual case studies the construction of artificial ports and port policies

The Evolution and Significance of the Powered Bulk Carrier Roy Fenton,2023-04-03 The book is the first to detail the 170 year evolution of the powered bulk carriers which continue to have a major role in the world s trades and economies Their design and technological development is traced from the screw colliers of the 1850s which revolutionised the British coastal coal trade The same engineering principles were applied to produce ocean going steam and later motor tramps By the end of the 19th century the capabilities and economies of these black freighters had captured from the sailing ship much of the world s trade in bulk commodities In the second half of the 20th century the tramps in turn evolved into multi purpose dry bulk carriers These workhorses of the sea transport commodities including metallic ores grain coal timber and other minerals Quantities of up to 400 000 tons are carried in the largest specialised ore carriers In a parallel development applying the same technical principles produced smaller yet efficient steam and later motor coasters which came to dominate short sea shipping The book concludes with a discussion of how the economies of transportation provided by bulk carriers have had profound effects on industrialisation globalisation and the world s economy and discusses the environmental impact of these ships

Port and Harbour Engineering Adrian Jarvis,2016-12-05 During the 19th century the engineering of ports and harbours became a large and specialised branch of the profession This development began in ports in physically difficult locations and may be particularly identified with the growth of the Port of Liverpool Stimulated by the arrival of ever larger steamships and the heavy investment in port facilities that they demanded it spread around much of the world The opening papers give examples of what could be achieved in antiquity the following ones set out the advances in design and technology from 1700 to the start of this century and note some of the failures and recurrent problems They also illustrate the critical importance of political and economic factors in determining what the engineers achieved *The Cambridge Urban History of Britain* Peter Clark,David Michael Palliser,Martin J. Daunton,2000 The process of urbanisation and suburbanisation in Britain from the Victorian period to the twentieth century *New Directions in Mediterranean Maritime History* Gelina Harlaftis,Carmel Vassallo,2017-10-18 This study seeks to correct the underrepresentation of Mediterranean maritime history in academic publications in attempt to understand the multi cultural and multi ethnic environment in which maritime activity

takes place by compiling ten essays from maritime historians concerning Spain France Italy Malta Slovenia Greece Turkey and Israel The aim of the collection is to provide an insight into Mediterranean maritime history to those who could not previously access such information due to language barriers or difficulty securing non English publications some of the essays have translated into English specifically for this publication The majority of the essays concern the Early Modern period and the remainder concern the contemporary *The History of the Port of London* Peter Stone,2020-01-31 This meticulously researched account underlines the importance of the capital s docklands from Roman landing to modern financial centre Discover Britain The River Thames has been integral to the prosperity of London since Roman times Explorers sailed away on voyages of discovery to distant lands Colonies were established and a great empire grew Funding their ships and cargoes helped make the City of London into the world s leading financial center In the nineteenth century a vast network of docks was created for ever larger ships behind high prison like walls that kept them secret from all those who did not toil within Sail made way for steam as goods were dispatched to every corner of the world In the nineteenth century London was the world s greatest port city In the Second World War the Port of London became Hitler s prime target It paid a heavy price but soon recovered Yet by the end of the 20th century the docks had been transformed into Docklands a new financial center The History of the Port of London A Vast Emporium of Nations is the fascinating story of the rise and fall and revival of the commercial river The only book to tell the whole story and bring it right up to date it charts the foundation growth and evolution of the port and explains why for centuries it has been so important to Britain s prosperity This book will appeal to those interested in London s history maritime and industrial heritage the Docklands and East End of London and the River Thames **Struggling for Leadership: Antwerp-Rotterdam Port Competition between 1870 -2000**

Reginald Loyen,Erik Buyst,Greta Devos,2012-12-06 The present volume contains the proceedings of an international conference on the economic history of the seaports of Antwerp and Rotterdam 1870 2000 This venue was held at Antwerp on 10 11 May 2001 and was hosted by the Antwerp Port Authority This international conference aimed at confronting the development of both ports In the course of the last century and a half economic growth in the ports of Antwerp and Rotterdam has been staggering Maritime economic historians economists and geographers alike have investigated the development of both ports extensively but separately So far only a limited number of attempts have been made to analyse Rotterdam Antwerp port history from a comparative perspective The papers presented at the conference provide a challenging starting point to certain how and why both ports reacted differently to virtually the same economic and political stimuli By bringing together both historians economists and lawyers with different fields of interest we have attempted to put the history of the ports of Antwerp and Rotterdam in a broader international and comparative perspective **Port Cities and Intruders** Michael N. Pearson,2002-10-14 Selected by Choice Magazine as an Outstanding Academic Title In Port Cities and Intruders historian Michael Pearson explores the role of port cities and their orientation relations between the coast and

the interior the place of the coast in the world economy and the impact of the Portuguese in the early modern period **A History of the Port Phillip District** A. G. L. Shaw, 2003 This account of European settlement in the modern state of Victoria Australia spans developments from the first convict camp established in 1803 on the Bass Strait to the contemporary separation of the district from New South Wales Aborigines whalers adventurers squatters speculators and immigrants figure into this history of Victoria before the gold rush The stories of such key leaders as John Batson and John Pascoe Fawkner offer insight into the founding of Melbourne the economic depression and recovery of the 19th century and the social progress of the 20th century Details are drawn from primary sources including correspondence between officials in Melbourne Sydney and London and newspapers from Batman Swanston the Port Phillip Association and La Trobe **The History and Archaeology of Jaffa 2** Aaron A. Burke, Katherine Strange Burke, Martin Peilstocker, 2017-12-31 Since 2007 the Jaffa Cultural Heritage Project has endeavored to bring to light the vast archaeological and historical record of the site of Jaffa in Israel Continuing the effort begun with The History and Archaeology of Jaffa 1 this volume is a collection of independent studies and final reports on smaller excavations that do not require individual book length treatments These include overviews of archaeological research in Jaffa historical and archaeological studies of Medieval and Ottoman Jaffa reports on excavations by the Israel Antiquities Authority at both the Postal Compound between 2009 and 2011 and the Armenian Compound in 2006 and 2007 and studies of the excavations of Jacob Kaplan and Haya Ritter Kaplan in Jaffa on behalf of the Israel Department of Antiquities and Museums from 1955 to 1974 **Ships of the Port of London** Peter Marsden, 2014-07-15 This report is the first full study of the remains of ships and boats used in the port of London from the first to the eleventh century AD Using evidence from the vessels from the waterfronts and from trade goods Peter Marsden has reconstructed the design and use of these ancient ships and brought together for the first time the accumulated evidence of over 30 years of archaeological research The remains of three substantial vessels are discussed Blackfriars ship 1 the earliest known seagoing sailing ship yet found in northern Europe the New Guy's House boat a river barge from the second century and the County Hall ship discovered in 1910 and dating from the fourth century Using these and fragments of different types of clinker built vessels found in the Thames the author examines the pattern of shipbuilding in northern Europe with the conclusion that London was the meeting point for several shipbuilding traditions of which the primary Roman tradition in northern Europe was Celtic The growth of trade from Roman times to the fifth and sixth centuries when London was deserted and from its renewal in the seventh century to the end of the eleventh century is examined through the evidence of the remains of imported goods together with the changing function of the port and the development of berthing practices **Greek Maritime History** , 2022-05-02 This volume presents Greek Maritime History and unravels the historical trajectory of a maritime nation par excellence in the Eastern Mediterranean At the core of the book lies the rise of the Greek merchant fleet and its transformation from a peripheral to an international carrier Following the evolution of Greek shipping for more than

three centuries 17th 20th century the book traces a maritime nation in its making and provides proof of a different yet successful pattern of maritime development compared to other European maritime nations The chapters adopt a multidimensional and interdisciplinary approach spanning from shipping fishing and trade to piracy technology human resources and entrepreneurship and reflect the main directions of Greek maritime historiography over the last thirty years Contributors are Apostolos Delis Dimitris Dimitropoulos Zisis Fotakis Katerina Galani Gelina Harlaftis Evdokia Olympitou Gerassimos D Pagratis Alexandra Papadopoulou Socrates Petmezas Evrydiki Sifneos Anna Sydorenko Ioannis Theotokas and Katerina Vourkatioti
