Marie Sophie von LA ROCHE, 1776 **Great Books by German Women in the Age of Emotion, 1770-1820** Margaretmary Daley, 2022 Literature written by women in German during the period long known patriarchally as the Age of Goethe was largely lumped in with other unserious or artistically unworthy works under the category Trivialliteratur literally trivial literature Using insights from Gender Studies yet acknowledging the need for a literary canon Great Books by German Women offers a critical interpretation of six canon worthy German novels written by women in the period for which it coins the term Age of Emotion The novels are chosen because they depict women's ordinary yet interesting lives and equally because each displays formal strengths that yield prose particularly able to express emotion The first Sophie von La Roche's *Die Geschichte des Fr auleins von Sternheim* The History of Lady von Sternheim draws on the tradition of the epistolary novel while also finding new ways to depict empathetic emotions The second Friederike Unger's *Julchen Gr unthal* brings to the Frauenroman or women's novel the use of irony to portray a heroine's emotions during her coming of age The next novels add lyricism to their prose to capture sensual emotions Sophie Mereau's *Bl utenalter der Empfindung* The Blossoming of Feeling imagines women's affinity for the philosophical sublime while Caroline Wolzogen depicts female desire in her *Agnes von Lilien* The fifth novel *Die Honigmonathe* The Honeymoon by Karoline Fischer explores the agony that extreme emotions cause not only for women but also for men The last novel Caroline Pichler's *Frauenw urde* The Dignity of Women expands the focus from a young heroine

to multiple mature characters while maintaining the centrality of women's talents and emotions. Finally, this study accords honorable mention to some other women's novels before concluding that the influence of these six works was in no way trivial, either in portraying women's lives and emotions or in the history of German literature.

Performance and Femininity in Eighteenth-Century German Women's Writing W. Arons, 2006-10-03 In this book Wendy Arons examines how women writers used theater and performance to investigate the problem of female subjectivity and to intervene in the dominant discourse about ideal femininity. Arons shows how contemporary demands for sincerity and authenticity placed a peculiar burden on women in the public sphere, especially on actresses who, like professional writers, overstepped the boundaries of what was considered proper behavior for women. Paradoxically, in their representations of ideal women engaged in performance, these writers expose ideal femininity as an impossible act, even as they attempt to perform it in their writing and in their lives.

German Women's Writing of the Eighteenth and Nineteenth Centuries Helen Fronius, 2017-10-23 German women writers of the eighteenth and nineteenth centuries have been the subject of feminist literary critical and historical studies for around thirty years. This volume, with contributions from an international group of scholars, takes stock of what feminist literary criticism has achieved in that time and reflects on future trends in the field. Offering both theoretical perspectives and individual case studies, the contributors grapple with the difficulties of appraising non-feminist women writers and genres from a feminist perspective and present innovative approaches to research in early women's writing. This inclusive and cross-disciplinary collection of essays will enrich the study of German women's writing of the eighteenth and nineteenth centuries and contribute to contemporary debates in feminist literary criticism. Anna Richards is Lecturer in German at Birkbeck College, University of London. Helen Fronius is College Lecturer in German at Keble College, University of Oxford.

The Virginal Mother in German Culture Lauren Nossett, 2019-03-15 *The Virginal Mother in German Culture* presents an innovative and thorough analysis of the contradictory obsession with female virginity and idealization of maternal nature in Germany from the late eighteenth to the early twentieth centuries. Lauren Nossett explores how the complex social ideal of woman as both a sexless and maternal being led to the creation of a unique figure in German literature: the virginal mother. At the same time, she shows that the literary depictions of virginal mothers correspond to vilified biological mother figures, which point to a perceived threat in the long nineteenth century of the mother's procreative power. Examining the virginal mother in the first novel by a German woman, Sophie von La Roche's canonical texts by Goethe, nineteenth-century popular fiction, autobiographical works, and Thea von Harbou's novel *Metropolis* and Fritz Lang's film by the same name, this book highlights the virginal mother at pivotal moments in German history and cultural development: the entrance of women into the literary market, the Goethezeit, the foundation of the German Empire, and the volatile Weimar Republic. *The Virginal Mother in German Culture* will be of interest to students and scholars of German literature history.

1807 is the most famous German 18th century woman writer and this is her best known novel. It is also the first novel by a German woman to appear in print. A psychologically intense drama of the struggle of a young country woman to live virtuously in the face of the malevolent intrigues of family friends and lovers, it became an icon for young writers of the Sturm und Drang generation of the late 18th century. Goethe admired it and wrote *The Sorrows of Young Werther* under its influence. With its message of the triumph of truth and virtue over self-love, this book stands as one of the great works of the Age of Sentiment.

Amalia Holst: On the Vocation of Woman to Higher Intellectual Education Andrew Cooper, 2023-07-18. This edition offers the first English translation of Amalia Holst's daring book *On the Vocation of Woman to Higher Intellectual Education* (1802). In one of the first works of German philosophy published under a woman's name, Holst presents a manifesto for women's education that centres on a basic provocation: as far as the mind is concerned, women are equal partakers in the project of Enlightenment and should thus have unfettered access to the sciences in general and to philosophy in particular. Holst's manifesto resonates with the work of several women writers across Europe, including Olympe de Gouges, Mary Wollstonecraft, and Germaine de Staël. Yet, in contrast to the early works of feminism we celebrate today, her book had little success. Its reception confronts us with a darker side of the German Enlightenment that until recently has been neglected. Holst sought to unearth the gendered nature of the fundamental concepts of the Enlightenment, including vocation, education, and culture, which enabled men to establish the subordinate status of women by philosophical means. However, her argument was scorned by male reviewers who denied the very possibility of a woman philosopher. With an introduction by Andrew Cooper and translations of biographical material and early reviews, this edition provides students and scholars of German philosophy with a timely resource for developing a richer understanding of their field and general readers with a powerful early feminist text that reveals the opportunities and difficulties facing women philosophers at the turn of the nineteenth century.
