A Concise History of Canadian Painting Dennis R. Reid,1988 First published in 1973 this book quickly became an indispensable short history of Canadian painting and was reprinted many times For this Second Edition the text has been revised to incorporate new information and in some places new interpretations and expanded The First Edition studied Canadian painting to 1965 masterfully combining visual description anecdotes and aesthetic evaluation with full accounts of the careers of most of the leading painters beginning in the French colonial period This Second Edition covers painting to 1980 A long final chapter treats a crucial fifteen years when there developed in Canada a tremendous interest in other art forms and apparent falling off of interest in painting In fact the cry was heard throughout the western world that painting was dead It turned out however that this was far from true Dennis Reid discusses the work of established artists who produced steadily in this period including Jack Bush Jack Chambers Greg Curnoe Gershon Iskowitz John Meredith Guido Molinari Jack Shadbolt and Claude Tousignant as well as new arrivals on the scene who have since joined the ranks of leading Canadian artists Among the more recent painters discussed are David Bolduc John Boyle David Craven Paterson Ewen Ivan Eyre Yves Gaucher John Hall Ron Martin Michale Morris Norval Morrisseau Christopher Pratt Shirley Wiitasalo and Tim Zuck Enriched by this overview and by many additions to the original text A Concise History of Canadian Painting in its Second Edition is the widest ranging and most authoritative handbook available Lucid interesting and informative it is still a pleasure to read from first to last Back cover [A History of Photography in Canada, Volume 1](#) Martha

Langford,2025-09-22 From early reports of the invention to its wide application during World War I the idea of photography created anticipation and participation in the modern world The first volume of A History of Photography in Canada captures this phenomenon by looking at hundreds of photographs generated in and about Canada in the making and by listening to the chords they struck in the collective imagination Emphasizing technological readiness and cultural eagerness for the medium Martha Langford shows how photography served ideals of progress and improvement as Canada s settler society looked to master the world by seizing its visible traces The imposition of these programs on Indigenous Peoples and indentured labourers is confronted throughout this volume which offers both narratives and counternarratives of subjectification Reproducing images of people places events and objects from the unceded territories of the First Nations Inuit and M tis from British North America and from the Dominion of Canada and the Dominion of Newfoundland Langford asks where and

when photographs were taken why and by whom How did the making and preservation of a photograph alter the circumstances in which it was produced and how did this affect individual and collective consciousness Alongside accomplished portraits landscapes still lifes and their vernacular counterparts the book draws glimmers of photographic experience from treatises and doggerel official reports and personal diaries newspapers magazines letters and travelogues Anticipation to Participation chronicles eight decades of reinvention and repurposing from a wondrous discovery to the wide adoption of a basic tool for knowledge gathering artmaking and journaling Langford s sweeping narrative rewrites the history of photography from the bottom up vividly expanding the definition of photographic experience **Canadian**
