Perspectives Volume 2 Jacob Neusner,2021-10-01 For Aristotle politics economics and philosophy define the social
construction of any society For Judaism the Mishnah along with Scripture sets forth the systematic statement for
understanding the social construction and world view of Judaism around 200 C E The Mishnah functioned as the basic law in
the holy land and was adopted also by Jews in the Diaspora from Babylonia to the western satrapies of the Iranian empire of
the Sasanians Professor Jacob Neusner takes seriously the three principal tasks of theoretical thought enjoined by Aristotle
and asks us to look at the Mishnah not as an inert collection of traditions passed on but as a deliberate programmatic
statement of Judaism s way of life and world view He points to the systematic nature of the Mishnah with its six divisions and
shows how collectively those divisions cover the everyday life of the people The Mishnah contains independent judgements
about the nature of the system and does not merely rehearse what tradition says about a given topic This interpretive aspect
of the Mishnah has been ignored to the interpreter s peril because it is precisely by paying attention to how the Mishnah uses
traditions for its own purposes that the interpreter can appreciate the building blocks of Judaism its politics economics and
philosophy This publication has also been published in hardback please click here for details The Stoic Tradition from
