The Home Birth Advantage:

Home Birth Benefits Cordelia Sloane, AI, 2025-02-23 Home Birth Benefits explores the growing interest in home birth as a safe and empowering alternative for low risk pregnancies The book examines the historical shift from home to hospital births and the reasons behind the resurgence of natural childbirth emphasizing informed decision making for expectant parents Readers will discover the unique advantages of giving birth in a comfortable familiar environment where autonomy and control over the birthing process are prioritized Did you know that studies suggest planned home births with qualified midwives can be as safe as hospital births for low risk pregnancies Furthermore home births often result in lower rates of medical interventions which many parents find appealing The book argues that home birth offers significant benefits in terms of maternal satisfaction and reduced medical interventions challenging conventional assumptions about childbirth By exploring themes like comfort autonomy and lower intervention rates the author presents a balanced perspective supported by evidence based research The approach is informative and accessible avoiding jargon while equipping readers with the knowledge to make informed decisions The book progresses from introducing the history and context of home birth to developing core arguments around comfort and midwifery care and finally synthesizing evidence with practical guidance For anyone interested in childbirth options maternal healthcare or the role of midwifery this book provides valuable insights

The Home Birth Advantage Mayer Eisenstein, 2000 This book challenges America's traditional hospital based birth system the system which has placed the United States at the bottom of the list of industrialized nations with regard to healthy babies and healthy mothers Dr Eisenstein explains that birth for the majority of women may even be safer without the routine hospital procedures electronic fetal monitoring episiotomy IVs epidurals etc *Home Birth - E-Book* Anna-Marie Madeley, 2023-07-15 As the rate of homebirth increases in the UK this important new book offers a basic practical guide for anyone involved in the planning resourcing and facilitation of safe and respectful birth at home Blending both contemporary academic and clinical practice this textbook covers the whole scope of home birth practice from antenatal care delivery and postnatal care as well as management of emergencies at home and practical advice for managing transfer Facilitating a safe home birth requires a robust multidisciplinary team approach Whatever your role in planning or attending a birth at home and whether you are a student practising midwife paramedic or obstetrician this resource will have something for you Covers the whole scope of home birth practice for each member the multidisciplinary team Written by leading experts from diverse backgrounds including midwives paramedics obstetricians and neonatal nurses from clinical practice academia and education Presents balanced and unbiased contemporary evidence supporting birth at home Discusses effective care planning from developing a homebirth services practical resources and skills equipment planning and geographical considerations Covers important topics within midwifery including the rise of freebirthing multidisciplinary team working and the care of women with complex biopsychosocial needs or from underrepresented communities Clearly identifies roles

and responsibilities of the multidisciplinary team Suitable for midwifery students embarking on a home birth placement

Foundations of Maternal-Newborn and Women's Health Nursing - E-Book Sharon Smith Murray, Emily Slone McKinney, 2017-12-28 NEW Reorganized content integrates complications into standard family care includes new sections on obesity and recommendations for infant safe sleep environment and reductions of SIDS risk NEW Contributing content from known experts in the field of Maternal and Women's health include a former AWHONN president

Successful Home Birth and Midwifery Eva Abraham-Van der Mark, 1996 In most of the industrialized Western world the birth process has been almost completely removed from the domain of the woman and the family into the realm of technocratic specialists To imagine that there exists an industrialized country the Netherlands with all the resources of modern medicine of pharmacology and surgery where women and care providers actively espouse a noninterventionist stance in childbirth has always been one of the great puzzles paradoxes and revelations in our field This book traces this most anomalous phenomenon Back cover

Five Standards for Safe Childbearing David Stewart, 1997

[The Home Birth Book](#) Charlotte Ward, Fred Ward, 1977

The Homebirth Handbook Annie Francis, 2016-06-02 The majority of babies throughout the world are born at home and it is mainly in developed countries and mostly in the past few decades that going to hospital to have your baby has become the norm This is all set to change as more and more evidence comes to light about the positive outcomes of homebirths With inspirational stories from women who have had successful homebirth experiences you'll find out Why women are perfectly designed to give birth What the evidence says about the best place to give birth The myths surrounding childbirth at home How to plan for a homebirth and what you need on the day What your choices of pain relief are What the possible risks and complications might be Practical and reassuring The Homebirth Handbook provides all the information you need to feel completely prepared and excited to welcome your baby in the comfort and safety of your own home

Birth Emergency Skills Training Bonnie Urquhart Gruenberg, 2008-07 Birth Emergency Skills Training is the interface between the world of midwifery and the world of medicine It carries the reader from the initial steps of intervention through definitive care balancing a friendly tone and visual appeal with authoritative and clinically useful information It is loaded with mnemonics and other aids to understanding and is richly illustrated by the author

Added content on human trafficking provides you with examples and ideas on how to counsel victims and their families

Obstetrics by Ten Teachers Louise C Kenny, Jenny E. Myers, 2017-05-18 First published in 1917 as *Midwifery* *Obstetrics by Ten Teachers* is well established as a concise yet comprehensive guide within its field The twentieth edition has been thoroughly updated by a new team of teachers integrating clinical material with the latest scientific developments that underpin patient care Each chapter is highly structured with learning objectives definitions aetiology clinical features investigations treatments case histories and key point summaries and additional reading where appropriate New themes for this edition include professionalism and global health and information specific to both areas is threaded throughout the text Along with its companion *Gynaecology by Ten Teachers* the book will continue to provide an accessible one stop shop in obstetrics and gynaecology for a new generation of doctors

Feminisms Robyn R. Warhol, Diane Price Herndl, 1997 In the landmark 1991 edition of *Feminisms* Robyn Warhol and Diane Price Herndl assembled the most comprehensive collection of American and British feminist literary criticism ever to be published In this revised edition the editors have updated the volume in keeping with the expanded parameters of feminist literary discourse With the inclusion of more than two dozen new essays along with a major reorganization of the sections in which they appear Warhol and Price Herndl have again established the measure for representing the latest developments in the field of feminist literary theory Believing that the feminist movement can only move forward where difference commands attention not dismissal or negativism they have continued the original collection's mission of providing a multiplicity of perspectives and approaches This anthology contains three new sections *Conflict Gaze and Practice* and includes more selections by and about women of color and lesbians Aimed at academics and the general public alike this collection is an indispensable guide to the range of practice on campus today in the field of feminist literary criticism

The New Midwifery Lesley Ann Page, Rona McCandlish, 2006-12-05 Practicing as a midwife today requires not only good clinical skills but also a broad understanding of the social and emotional changes a woman experiences before and after birth This book combines scientific knowledge with the more intangible skills needed for sensitive communication to provide the best possible care to the mother and her family The second edition of this celebrated text vividly explores the various skills and approaches that lead to successful midwifery practice and uses care stories to bring these to life Provides a refreshingly new approach to key areas of midwifery practice in a way that brings practice to life Illustrates and supports the fundamental changes currently taking place in midwifery around the world Builds on the most up to date evidence based research to suggest guidelines for best practices Explores the impact of parenthood and offers strategies for effectively supporting individuals during this period of transition Includes care stories case studies that highlight positive midwifery care and successful childbirth experiences Offers contrasting stories from around the world illustrating how maternity care in industrialized society differs from that in a non industrial or third world environment Provides up to date research and reference material

Normal Midwifery Practice Sam Chenery-Morris, Moira

McLean,2012-10-10 For new students the language and concepts of midwifery care can at first be daunting This book helps students to understand the expectations of midwifery training in relation to normal midwifery practice It covers the basics of midwifery care including professional practice frameworks informing midwifery care key concepts and philosophies of care communication and care skills antenatal care normal labour and birth postnatal care neonatal care and breastfeeding as well as a brief introduction to medicines management in normal midwifery care The book is designed to work alongside first taught modules in midwifery and underpin training in subsequent years *Weight-Loss Apocalypse* Robin Phipps

Woodall,2011-11-08 This book was written to start a new conversation about how Dr Simeons protocol has relevance not only as a hormonal therapy but as a means to end our national eating disorder Instead of continuing to apply the protocol as a short term diet it should be discussed as a real solution a tool to end irrational eating for emotional fulfillment This country is dealing with a crisis an addiction to eating emotionally and the obvious result is the overwhelming increase in obesity Think about the number of people in our culture who eat without hunger When you observe our nation s behavior with food it s very clear that fat isn t what we should be obsessed about and weight shouldn t be the target of the problem We need a genuine desire to eat less one that isn t dependent on weight loss as a reward This requires each of us to be accountable for our own emotions and find happiness in life not centrally stimulated by food Finally a book that credibly answers the questions every doctor patient and skeptic needs to know about the hCG protocol Dr Heidi Anderson Doctor of Osteopathic Medicine I ve been prescribing hCG for weight loss for over four years and nothing I ve read comes close to having this level of expertise Without question this is the most informative and enlightening book about Dr Simeons hCG protocol available Dr Ed Hagen OB GYN Robin s approach to the hCG protocol is ingenious Using the protocol as a way to heal the mind and body as an emotional and physical therapy is exactly what this country needs Becky Crowther Registered Dietitian Life Coach

Maternal Child Nursing Care - E-Book Shannon E. Perry,Marilyn J. Hockenberry,Kitty Cashion,Kathryn Rhodes Alden,Ellen Olshansky,Deitra Leonard Lowdermilk,2022-03-05 Master the essentials of maternity and pediatric nursing with this comprehensive all in one text Maternal Child Nursing Care 7th Edition covers the issues and concerns of women during their childbearing years and children during their developing years It uses a family centered problem solving approach to patient care with guidelines supported by evidence based practice New to this edition is an emphasis on clinical judgment skills and a new chapter on children with integumentary dysfunction Written by a team of experts led by Shannon E Perry and Marilyn J Hockenberry this book provides the accurate information you need to succeed in the classroom the clinical setting and on the Next Generation NCLEX RN examination Focus on the family throughout the text emphasizes the influence of the entire family in health and illness Expert authors of the market leading maternity and pediatric nursing textbooks combine to ensure delivery of the most accurate up to date content Information on victims of sexual abuse as parents and human trafficking helps prepare students to handle these delicate issues Nursing Alerts highlight critical

information that could lead to deteriorating or emergency situations Guidelines boxes outline nursing procedures in an easy to follow format Evidence Based Practice boxes include findings from recent clinical studies Emergency Treatment boxes describe the signs and symptoms of emergency situations and provide step by step interventions Atraumatic Care boxes teach students how to manage pain and provide competent care to pediatric patients with the least amount of physical or psychological stress Community Focus boxes emphasize community issues provide resources and guidance and illustrate nursing care in a variety of settings Patient Teaching boxes highlight important information nurses need to communicate to patients and families Cultural Considerations boxes describe beliefs and practices relating to pregnancy labor and birth parenting and women s health Family Centered Care boxes draw attention to the needs or concerns of families that students should consider to provide family centered care

Blessed Events Pamela E. Klassen,2001-10-07 Blessed Events explores how women who give birth at home use religion to make sense of their births and in turn draw on their birthing experiences to bring meaning to their lives and families Pamela Klassen introduces a surprisingly diverse group of women in their own words while also setting their birth stories within wider social political and economic contexts In doing so she emerges with a study that disrupts conventional views of both childbirth and religion by blurring assumed divisions between conservative and feminist women and by taking childbirth seriously as a religious act Most American women who have a choice give birth in a hospital and request pain medication Yet enough women choose and advocate unmedicated home birth and do so for carefully articulated reasons social resistance among them to constitute a movement Klassen investigates why women whose religious affiliations range from Old Order Amish to Reform Judaism to goddess centered spirituality defy majority opinion the medical establishment and sometimes the law to have their babies at home In considering their interpretations including their critiques of the dominant medical model of childbirth and their views on labor pain she examines the kinds of agency afforded to or denied women as they derive religious meanings from childbirth Throughout she identifies tensions and affinities between feminist and traditionalist appraisals of the symbolic meaning of birth and the power of women What does home birth a woman centered movement working to return birth to women s control mean in practice for women s gender and religious identities Is this supreme valuing of procreation and motherhood constraining or does it open up new realms of cultural and social power for women By asking these questions while remaining cognizant of religion s significance Blessed Events challenges both feminist and traditionalist accounts of childbearing while broadening our understanding of how religion is lived in contemporary America

The Contented Pregnancy Charlotte Chaliha,Gina Ford,2013-05-02 Discovering that you are about to become a mum is one of life s most joyful moments This indispensable guide from Gina Ford and consultant obstetrician Dr Charlotte Chaliha provides mums to be with the practical reassuring and down to earth advice they need for a calm and contented pregnancy Includes a month by month guide to the growth of your baby and your changing body up to date guidance on nutrition exercise and health advice on preparing your home and lifestyle for a new

arrival how to prepare yourself for labour and birth what to expect in the first few weeks with your baby The Contented Pregnancy is the essential guide to enjoying a relaxed pregnancy and giving your baby the very best start in life *Safe Maternity and Pediatric Nursing Care* Luanne Linnard-Palmer, Gloria Haile Coats, 2025-02-03 Maximize a short course to ensure success This is the maternity peds textbook that focuses on what LPNs must know with just the right depth and breadth of coverage of the knowledge and skills that LPNs need to know to practice safely A student friendly approach helps LPN LVNs to master safe and effective nursing care by developing the critical thinking and problem solving skills they need to excel in clinical practice Clear concise readab Midwifery from the Tudors to the 21st Century Julia Allison, 2020-06-14 This book recounts the journey of English midwives over six centuries and their battle for survival as a discrete profession caring safely for childbearing women With a particular focus on sixteenth and twentieth century midwifery practice it includes new research which provides evidence of the identity social status lives families and practice of contemporary midwives and argues that the excellent care given by ecclesiastically licensed midwives in Tudor England was not bettered until the twentieth century Relying on a wide variety of archived and personally collected material this history illuminates the lives words professional experiences and outcomes of midwives It explores the place of women in society the development of midwifery education and regulation the seventeenth century arrival of the accoucheurs and the continuing drive by obstetricians to medicalise birth A fascinating and compelling read it highlights the politics and challenges that have shaped midwifery practice today and encourages readers to be confident in midwifery led care and giving women choices in childbirth It is an important read for all those interested in childbirth
