Miloslav Rechcigl Jr., 2021-02-17 No comprehensive study has been undertaken about the American learned men and women with Czechoslovak roots The aim of this work is to correct this glaring deficiency with the focus on men and women in medicine applied sciences and engineering It covers immigration from the period of mass migration and beyond irrespective whether they were born in their European ancestral homes or whether they have descended from them This compendium clearly demonstrates the Czech and Slovak immigrants including Bohemian Jews have brought to the New World in these areas their talents their ingenuity the technical skills their scientific knowhow as well as their humanistic and spiritual upbringing reflecting upon the richness of their culture and traditions developed throughout centuries in their ancestral home This accounts for their remarkable success and achievements of these settlers in the New World transcending through their descendants as this publication demonstrates The monograph has been organized into sections by subject areas i e Medicine Allied Health Sciences and Social Services Agricultural and Food Science Earth and Environmental Sciences and Engineering Each individual entry is usually accompanied with literature and additional biographical sources for readers who wish to pursue a deeper study The selection of individuals has been strictly based on geographical vantage without regards to their native language or ethnical background Some of the entries may surprise you because their Czech or Slovak ancestry has not been generally known What is conspicuous is a large percentage of listed individuals being Jewish which is a reflection of high level of education and intellect of Bohemian Jews A prodigious number of accomplished women in this study is also astounding considering that in the 19th century they rarely had careers and most professions refused entry to them The Slavic Letters of St. Jerome Julia Verkholtantsev, 2014-09-30 The Slavic Letters of St Jerome is the first book

length study of the medieval legend that Church Father and biblical translator St Jerome was a Slav who invented the Slavic Glagolitic alphabet and Roman Slavonic rite Julia Verkholtantsev locates the roots of this belief among the Latin clergy in Dalmatia in the 13th century and describes in fascinating detail how Slavic leaders subsequently appropriated it to further their own political agendas The Slavic language written in Jerome's alphabet and endorsed by his authority gained the unique privilege in the Western Church of being the only language other than Latin Greek and Hebrew acceptable for use in the liturgy Such privilege confirmed repeatedly by the popes resulted in the creation of narratives about the distinguished historical mission of the Slavs and became a possible means for bridging the divide between the Orthodox and Catholic Churches in the Slavic speaking lands In the fourteenth century the legend spread from Dalmatia to Bohemia and Poland where Glagolitic monasteries were established to honor the Apostle of the Slavs Jerome and the rite and letters he created The myth of Jerome's apostolate among the Slavs gained many supporters among the learned and spread far and wide reaching Italy Spain Switzerland and England Grounded in extensive archival research Verkholtantsev examines the sources and trajectory of the legend of Jerome's Slavic fellowship within a wider context of European historical and theological thought This unique volume will appeal to medievalists Slavists scholars of religion those interested in saints cults and specialists of philology
