The Children's Own Longfellow Henry Wadsworth Longfellow, 2019-12-09 In *The Children's Own Longfellow* Henry Wadsworth Longfellow presents a captivating anthology of poetry tailored specifically for a younger audience. This collection illuminates themes of love, nature, and heroism through vivid imagery and melodic patterns that are characteristic of Longfellow's romantic style. The literary context of the work showcases the burgeoning interest in children's literature during the 19th century, emphasizing the importance of nurturing imagination and moral sensibility in young readers through accessible storytelling. Longfellow's deliberate choice of shorter verses and simple language invites children into the enchanting world of poetry, fostering a love for literature from an early age. Longfellow, one of America's most beloved poets, was deeply influenced by his own upbringing and the value placed on education and culture in his family. His experiences in both Europe and America equipped him with a diverse literary background, allowing him to meld folklore and rich narratives. These elements reflect his desire to connect with the youthful spirit and impart wisdom, ensuring that his poetic voice resonates with both children and adults alike. This delightful collection is highly recommended for parents, educators, and young readers alike. *The Children's Own Longfellow* not only introduces children to poetic rhythm and beauty but also instills foundational values and lessons that are universally relevant. It serves as an enriching read, sparking curiosity and imagination, and making it a cherished addition to any child's library. [The Children's Own Longfellow](#) Henry Wadsworth Longfellow, 2015-07-07 Excerpt from *The Children's Own Longfellow* Illustrated. The universal teaching of reading to the English people for the last forty years, unaccompanied by any effective organisation for regulating it on literary lines, has led to the issue of a gradually increasing body of books, periodicals, and papers written to catch the popular taste in which sensationalism has taken the place of legitimate romance. Style is neglected or affected, and false impressions of life amongst all classes of society are conveyed by ignorant or only half-informed writers. The study of poetry, which served as a corrective

to these ignoble tendencies before they had become pronounced has not only been set back by the enormous output of prose fiction for the most part of an unworthy order but also suffers even among our more serious readers from the modern tendency to neglect all literature in favour of science in one or other of its now multitudinous forms It is true as Lord Morley recently remarked that a certain proportion of our great scientific writers have acquired a good prose style it is true also that Browning and Tennyson have given direct or indirect response to the popular craving for one or other of these forms of scientific teaching but the fact remains that as a rule the modern reader of science is not also a reader of poetry About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
