The Cholera Problem:

The Cholera Problem Oscar Felsenfeld, 1967 **The Carrier Problem** K. C. Paul, 1926 Cholera Dhiman Barua, William B. Greenough III, 2013-11-11 Research on cholera has contributed both to knowledge of the epidemic in particular and to a broader understanding of the fundamental ways in which cells communicate with each other This volume presents current knowledge in historical perspective to enable the practitioner to treat cholera in a more effective manner and to provide a comprehensive review for the researcher *Proceeding of the Cholera Research Symposium, January 24-29, 1965, Honolulu, Hawaii* National Institutes of Health (U.S.), 1965 The Cancer Problem Agnes Arnold-Forster, 2022-01-19 The Cancer Problem offers the first medical cultural and social history of cancer in nineteenth century Britain It begins by looking at a community of doctors and patients who lived and worked in the streets surrounding the Middlesex Hospital in London It follows in their footsteps as they walked the labyrinthine lanes and passages that branched off Tottenham Court Road then through seven chapters its focus expands to successively include the rivers lakes and forests of England the mountains poverty and hunger of the four nations of the British Isles the reluctant and resistant inhabitants of the British Empire and the networks of scientists and doctors spread across Europe and North America The Cancer Problem Malignancy in Nineteenth Century Britain argues that it was in the nineteenth century that cancer acquired the unique emotional symbolic and politicized status it maintains today Through an interrogation of the construction deployment and emotional consequences of the disease s incurability this book reframes our conceptualization of the relationship between medicine and modern life and reshapes our understanding of chronic and incurable maladies both past and present The Science of Ocean Pollution Frank R. Spellman, 2023-10-02 The marine environment supports nearly half of the universal primary production and a great share of which drives global fisheries The Science of Ocean Pollution is written and presented in the author s characteristic conversational style and provides comprehensive coverage of the current situation regarding pollution in the world s oceans Even though our welfare is intricately linked interconnected with the sea and its natural resources humans have substantially altered the face of the ocean within only a few centuries The face of today s sea is quite apparent obvious and visible it floats This book examines pollution runoff plastics oil spills and other pollutants that float in our seas as well as methods to best remediate these issues **Disease, Health Care and Government in Late Imperial Russia** Charlotte E. Henze, 2010-12-14 This book addresses fundamental issues about the last decades of Tsarist Russia contributing significantly to current debates about how far and how successfully modernisation was being implemented by the Tsarist regime It focuses on successive outbreaks of cholera in the city of Saratov on the Volga in particular contrasting the outbreak of 1892 widely regarded at the time as a national fiasco and a transformative episode for the Russian Empire with the cholera epidemics of 1904 1910 when despite completely new scientific discoveries and administrative arrangements Russia suffered another national outbreak of the disease The book sets these outbreaks

fully in their social economic political and cultural context and explains why a medical and social disaster which had long since been overcome in other parts of Europe continued much later in Russia It explores autocratic government urban renewal public health and disaster management including the management of widespread public hysteria and social unrest The book further analyses the assimilation of Western medical knowledge and the resulting institutional and epistemological changes Overall it demonstrates that Russia s medical history was inseparably linked to the nature of the tsarist regime itself in its confrontation with modernity

The Carrier Problem in Infectious Diseases John Charles Grant Ledingham, Joseph Arthur Arkwright, 1912 *Relief Problems in East Pakistan and India, Part 1* United States. Congress. Senate. Judiciary, 1971 *The Milk Problem in Indian Cities* Lemuel Lucas Joshi, 1916
