The Family in Renaissance Florence Leon Battista Alberti, 1994 The chief merit of this translation lies in its scope It directly assays the personal value system of the Florentine bourgeois class which did so much to foster the development of art literature science      **Encyclopedia of Italian Literary Studies: A-J** Gaetana Marrone, 2007 Publisher description

*The Family in Renaissance Florence* Leon Battista Alberti, 1994-10-10 A classic of Italian literature The chief merit of this work lies in its scope it directly assays the personal value system of the Florentine bourgeois class which did so much to foster the development of art literature and science It displays a variety of high style high rhetoric systematic moral exposition novelistic portrayal of character in the typical Renaissance framework of the dialogue The treatise in its entirety shows a Florentine paterfamilias and two uncles instructing some submissive nephews in the ethics of private life Money and reputation are its primary themes Book III the most dramatic far ranging and down to earth of the four books does not present a single bourgeois outlook but as a dialogue expresses conflicting points of view enabling students to relive social and moral conflicts that troubled early capitalist society      *Art Patronage, Family, and Gender in Renaissance Florence* Maria DePrano, 2018-02-22 This book examines a Renaissance Florentine family's art patronage even for women inspired by literature music love loss and religion      *The Jewish Ghetto and the Visual Imagination of Early Modern Venice* Dana E. Katz, 2017-08-18 Dana E Katz examines the Jewish ghetto of Venice as a paradox of urban space In 1516 the Senate established the ghetto on the periphery of the city and legislated nocturnal curfews to reduce the Jews' visibility in Venice Katz argues that it was precisely this practice of marginalization that put the ghetto on display for Christian and Jewish eyes According to her research early modern Venetians grounded their conceptions of the ghetto in discourses of sight Katz's unique approach demonstrates how Venice's Jewish ghetto engaged the sensory imagination of its inhabitants in complex and contradictory ways that both shaped urban space and reshaped Christian Jewish relations      **Machiavelli** Maurizio Viroli, 1998-07-30 Founders of Modern Political and Social Thought Series Editor Dr Mark Philip Oriel College University of Oxford Founders of Modern Political and Social Thought present critical examinations of the work of major political philosophers and social theorists assessing both their initial contribution and continuing relevance to politics and society Each volume provides a clear accessible historically informed account of each thinker's work focusing on a re assessment of their central ideas and arguments Founders encourage scholars and students to link their study of classic texts to current debates in political philosophy and social theory This launch volume in the Founders of Modern Political and Social Thought series presents a critical examination of Machiavelli's thought combining an accessible historically informed account of his work with a re assessment of his central ideas and arguments Maurizio Viroli challenges the accepted interpretations of Machiavelli's work insisting that his republicanism was based not on a commitment to virtue greatness and expansion but to the ideal of civic life protected by the shield of fair laws His detailed study of how Machiavelli composed his famous work *The*

Prince presents new interpretations and he further argues that the most challenging and completely underestimated aspect of Machiavelli's thought is his philosophy of life in particular his conceptions of love, women, irony, God and the human condition. Viroli demonstrates that Machiavelli composed *The Prince* and all his works according to the rules of classical rhetoric and never intended to found the modern science of politics, aiming rather to continue and refine the practice of political theorising as a rhetorical endeavour taught by the Roman masters of civic philosophy. Viroli's Machiavelli a serious challenge to contemporary methods of doing political theory will be essential for advanced students of the history of political thought.

**Italian Literature before 1900 in English Translation** Robin Healey, 2011-12-15 Italian Literature before 1900 in English Translation provides the most complete record possible of texts from the early periods that have been translated into English and published between 1929 and 2008. It lists works from all genres and subjects and includes translations wherever they have appeared across the globe. In this annotated bibliography Robin Healey covers over 5 200 distinct editions of pre 1900 Italian writings. Most entries are accompanied by useful notes providing information on authors, works, translators and how the translations were received. Among the works by over 1 500 authors represented in this volume are hundreds of editions by Italy's most translated authors Dante, Alighieri, Machiavelli and Boccaccio and other hundreds which represent the author's only English translation. A significant number of entries describe works originally published in Latin. Together with Healey's *Twentieth Century Italian Literature in English Translation*, this volume makes comprehensive information on translations accessible for schools, libraries and those interested in comparative literature.

**The Early Modern Italian Domestic Interior, 1400-1700** Erin J. Campbell, Stephanie R. Miller, Elizabeth Carroll Consavari, 2016-03-23 Emphasizing on the one hand the reconstruction of the material culture of specific residences and on the other the way in which particular domestic objects reflect shape and mediate family values and relationships within the home, this volume offers a distinct contribution to research on the early modern Italian domestic interior. Though the essays mainly take an art historical approach, the book is interdisciplinary in that it considers the social implications of domestic objects for family members of different genders, age and rank as well as for visitors to the home. By adopting a broad chronological framework that encompasses both Renaissance and Baroque Italy and by expanding the regional scope beyond Florence and Venice to include domestic interiors from less studied centers such as Urbino, Ferrara and Bologna, this collection offers genuinely new perspectives on the home in early modern Italy.

Motherhood and Patriarchal Masculinities in Sixteenth-Century Italian Comedy Yael

Manes, 2016-04-15 Exploring individual and collective formation of gender identities this book contributes to current scholarly discourses by examining plays in the genre of erudite comedy *commedia erudita* which was extremely popular among sixteenth century Italians from the elite classes Author Yael Manes investigates five erudite comedies Ludovico Ariosto s *I suppositi* 1509 Niccol Machiavelli s *La Mandragola* 1518 and *Clizia* 1525 Antonio Landi s *Il commodo* 1539 and Giovan Maria Cecchi s *La stiaiva* 1546 to consider how erudite comedies functioned as ideological battlefields where the gender system of patriarchy was examined negotiated and critiqued These plays reflect the patriarchal order of their elite social milieu but they also offer a unique critical vantage point on the paradoxical formation of patriarchal masculinity On the one hand patriarchal ideology rejects the mother and forbids her as an object of desire on the other hand patriarchal male identity revolves around representations of motherhood Ultimately the comedies reflect the desire of the Italian Renaissance male elite for women who will provide children to their husbands but not actively assume the role of a mother In sum Manes reveals a wide cultural understanding that motherhood as an activity that women undertake not simply a relational position they occupy challenges patriarchy because it bestows women with agency power and authority Manes here recovers the complexity of Renaissance Italian discourse on gender and identity formation by approaching erudite comedies not only as mirrors of their audiences but also as vehicles for contemporary audiences ideological psychological and emotional expressions

Kane, 2023-08-15 By bridging histories of technology media studies and aesthetics *Electrographic Architecture* New York Color Las Vegas Light and America's White Imaginary weaves a critical narrative of the ways in which illuminated light and color play key roles in the formation of America's white imaginary over the course of the last century The book sheds light on the central question to which media scholars architects and historians of technology repeatedly turn how can we use and speak about light and color in ways that are productive and commemorative while remaining critical of the systems of white power undergirding them *Electrographic Architecture* New York Color Las Vegas Light and America's White Imaginary analyzes the history of electric light technologies in the aesthetic development of Times Square and Las Vegas The book charts the rise of America's white walls light empires and neoclassical buildings in the early twentieth century through the construction of polychromatic electrographic spectacles by midcentury and their eclipse by informatively intense invisible algorithms at the beginning of the new millennium Drawing from histories of technology media and aesthetics the book shows how the formation of America's electrographic surround runs isomorphic to a new world ethos of power property and possession Drawing on archival research interviews and visual analysis *Electrographic Architecture*'s introduction six core chapters and conclusion illustrate how Times Square's polychromatic surround serves as a complex symbol of America's deep seated dreams of utopic transcendence on the one hand coupled with fears of loss and obsolescence on the other In America's twentieth century imaginary whiteness aims to become everything but itself colorful lit vibrant and vital      Francesca Caccini at the Medici Court Suzanne G. Cusick, 2015-11-07 A priceless

study of the life and career of the Renaissance era Italian who was the first woman to have composed an opera Gender History Extraordinary in its breadth its detail its insight and its worth to all participants in early music Its contribution is not limited to the musical world however as Cusick s remarkable command and analysis of her material has immense value for scholars engaged in cultural studies performance studies history politics or the study of difference Renaissance Quarterly A contemporary of Shakespeare and Monteverdi and a colleague of Galileo and Artemisia Gentileschi at the Medici court Francesca Caccini was a dominant musical figure there for thirty years Dazzling listeners with the transformative power of her performances and the sparkling wit of the music she composed for more than a dozen court theatricals Caccini is best remembered today as the first woman to have composed opera Francesca Caccini at the Medici Court reveals for the first time how this multitalented composer established a fully professional musical career at a time when virtually no other women were able to achieve comparable success Suzanne G Cusick argues that Caccini s career depended on the usefulness of her talents to the political agenda of Grand Duchess Christine de Lorraine Tuscany s de facto regent from 1606 to 1636 Drawing on Classical and feminist theory Cusick shows how the music Caccini made for the Medici court sustained the culture that enabled Christine s power thereby also supporting the sexual and political aims of its women In bringing Caccini s surprising story so vividly to life Cusick ultimately illuminates how music making functioned in early modern Italy as a significant medium for the circulation of power

**Objects of Virtue** Luke Syson, Dora Thornton, 2001 You are what you own So believed many of the elite men and women of Renaissance Italy The notion that a person's belongings transmit something about their personal history status and character was renewed in the fifteenth and early sixteenth centuries *Objects of Virtue* explores the multiple meanings and values of the objects with which families like the Medici Este and Gonzaga surrounded themselves This lavishly illustrated volume examines the complicated relationships between the so called fine arts painting and sculpture and artifacts of other kinds for which artistry might be as important as utility furniture jewelry and vessels made of gold silver and bronze precious and semi precious stone glass and ceramic The works discussed were designed and made by artists as famous as Andrea Mantegna Raphael and Michelangelo as well as by lesser known specialists goldsmiths gem engravers glassmakers and maiolica painters

*A History of Childhood* Colin Heywood, 2013-05-02 In this lively and accessible book Colin Heywood explores the changing experiences and perceptions of childhood from the early Middle Ages to the beginning of the twentieth century Heywood examines the different ways in which people have thought about childhood as a stage of life the relationships of children with their families and peers and the experiences of young people at work in school and at the hands of various welfare institutions The aim is to place the history of children and childhood firmly in its social and cultural context without losing sight of the many individual experiences that have come down to us in diaries autobiographies and oral testimonies Heywood argues that there is a cruel paradox at the heart of childhood in the past On the one hand material conditions for children have generally improved in the West however belatedly and unevenly and they are now more valued than in the past On the other hand the business of preparing for adulthood has become more complicated in urban and industrial societies as the young face a bewildering array of choices and expectations *A History of Childhood* will be an essential introduction to the subject for students of history the social sciences and cultural studies

*The Unintended Reformation* Brad S. Gregory, 2015-11-16 In a work as much about the present as the past Gregory identifies the unintended consequences of the Reformation for the modern condition a hyperpluralism of beliefs intellectual disagreements that splinter into fractals of specialized discourse the absence of a substantive common good and the triumph of capitalism's
