The Cult of Saint Thecla Stephen J. Davis, 2001 Thecla a disciple of the apostle Paul was perhaps the most celebrated female saint and martyr among Christians in late antiquity In examining the practices of Thecla's devotees in Asia Minor and Egypt Stephen Davis shows that Thecla's

cult was closely linked with communities of women as a means of empowerment

Under Osman's Tree Alan

Mikhail, 2019-03-08 Osman the founder of the Ottoman Empire had a dream in which a tree sprouted from his navel. As the tree grew its shade covered the earth as Osman's empire grew it too covered the earth. This is the most widely accepted foundation myth of the longest lasting empire in the history of Islam and offers a telling clue to its unique legacy. Underlying every aspect of the Ottoman Empire's epic history from its founding around 1300 to its end in the twentieth century is its successful management of natural resources. *Under Osman's Tree* analyzes this rich environmental history to understand the most remarkable qualities of the Ottoman Empire: its longevity, politics, economy, and society. The early modern Middle East was the world's most crucial zone of connection and interaction. Accordingly, the Ottoman Empire's many varied environments affected and were affected by global trade, climate, and disease. From down in the mud of Egypt's canals to up in the treetops of Anatolia, Alan Mikhail tackles major aspects of the Middle East's environmental history: natural resource management, climate, human and animal labor, energy, water, control, disease, and politics. He also points to some of the ways in which the region's dominant religious tradition, Islam, has understood and related to the natural world. Marrying environmental and Ottoman history, *Under Osman's Tree* offers a bold new interpretation of the past five hundred years of Middle Eastern history.

Nature and Empire in Ottoman Egypt Alan Mikhail, 2011-04-11

In one of the first ever environmental histories of the Ottoman Empire, Alan Mikhail examines relations between the empire and its most lucrative province of Egypt. Based on both the local records of various towns and villages in rural Egypt and the imperial orders of the Ottoman state, this book charts how changes in the control of natural resources fundamentally altered the nature of Ottoman imperial sovereignty in Egypt and throughout the empire. In revealing how Egyptian peasants were able to use their knowledge and experience of local environments to force the hand of the imperial state, *Nature and Empire in Ottoman Egypt* tells a story of the connections of empire stretching from canals in the Egyptian countryside to the palace in Istanbul, from the forests of Anatolia to the shores of the Red Sea, and from a plague flea's bite to the fortunes of one of the most powerful states of the early modern world.

The Icon Painter's Handbook Ian Knowles, 2023-06-01

This handbook is an in-depth introduction to the theory and practice of Byzantine icon painting in egg tempera. The aim is to help all students aspire to create icons that are both sound theologically while being aesthetically beautiful. This volume focuses on the Face of Christ, especially in the Mandolin icon, and covers all the basics of icon painting. Subsequent volumes are planned which will look at the figure and the Kyriotissa icon, the design of festal icons, backgrounds, and buildings. This handbook uses dozens of precisely chosen, clear illustrations, gives precise recipes for colours and mixtures, provides step-by-step instructions to follow, and links directly to video demonstrations which show some of the most difficult processes close up. It puts the practical aspects of icon painting in a clear historical and theological framework, introducing the application of the timeless principles on which the aesthetics of icon painting are built. As art for the Church's Liturgy, icon painting calls for the highest aesthetic

standards and this book aims to help make that achievable for the average committed student Icon painting is presented here as a vocation rather than a hobby or an interesting artistic technique though this handbook will be of interest to anyone drawn to the world of the Byzantine liturgy and its icons By encouraging students to do more than simply copy good examples from the past but to understand how the medieval Christian artist understood what he or she was doing and how they put that into practice this handbook brings the world of the Byzantine artist back to life Icon painting is opened up as a living art form for today s Church The author who has theology degrees from Oxford University and Heythrop College in London has many years of icon teaching experience founding the Bethlehem Icon School in 2010 at the Emmanuel Greek Catholic Monastery in Bethlehem where he continues to teach from time to time This handbook began as handouts for his students on the Prince s School of Traditional Arts icon painting course while that was being run at the Bethlehem Icon Centre in Palestine and has finally emerged as a companion to the online Academy Course in Icon Painting and for members of the Arbor Vitae Icon Academy which the author established during the Covid pandemic
