Women and Bullfighting Sarah Pink,2020-07-12 This book investigates the popularity and success of contemporary women performers in bullfighting culture which has been framed by a discourse of traditionalist masculinity This examination of the changing situation of women in the bullfighting world is used to explore the ways in which gender is represented enacted and negotiated in contemporary Spain The bullfight in the 1990s is in an ambiguous position it is a traditional performance in a changing consumer society In order to survive it needs to adapt itself to a wider social context and in particular to international media coverage It is in this context that the current success of women performers is located However women performers are a contested phenomenon in the bullfighting world there is heated debate over their acceptability much of which focuses on the body Moreover the entry of women into the bullfight questions existing definitions of the sport s ritual structure and of gender relations in Spain Thoroughly researched and compelling to read *Women and Bullfighting* addresses these issues and argues that existing traditionalist approaches to gender bullfighting and ritual in Spain need to be revised in order to locate women bullfighters in the context of a richly varied culture which is increasingly affected by the media and contemporary patterns of consumption This provocative book will be of interest to researchers and students of anthropology gender studies sociology cultural studies media studies and Spanish studies

Tattoos in American Visual Culture M. Louise Dupin's Work on Women Louise Dupin,2023 The eighteenth century text *Work on Women* by Louise Dupin also known as Madame Dupin 1706 1799 is the French Enlightenment s most

in depth feminist analysis of inequality and its most neglected one Angela Hunter and Rebecca Wilkin here offer the first ever edition of selected translations of Dupin s massive project developed from manuscript drafts Hunter and Wilkin provide helpful introductions to the four sections of Work on Women Science History and Religion Law and Education and Mores which contextualize Dupin s arguments and explain the work s construction including the role of her secretary Jean Jacques Rousseau Dupin s central claim in Work on Women is that French jurists have gradually disenfranchised women through reductive interpretations of Roman law As a result modern marriage is founded on an abusive illegitimate contract that enriches one party and impoverishes the other This manifest injustice is enabled by the masculine vanity that aggrandizes men diminishes women and distorts all realms of knowledge Dupin shows how the most reputable scientists incorporate old notions of women s weakness into new understandings of the body while historians denigrate female rulers or erase them altogether Even in everyday conversation men assert their entitlement to social dominance through casual misogyny Thus although Dupin advocates for meaningful education for girls she insists that the upbringing of boys must also be reformed This volume fills an important gap in the history of feminist thought and will appeal to readers eager to hear new voices that challenge established narratives of intellectual history

The Thin Woman Helen Malson, 2023-12-21 The First Edition of The Thin Woman first published in 1998 provides an in depth discussion of anorexia nervosa from a critical feminist social psychological standpoint In the original text the author argues that the notion of anorexia as a medical condition limits our understanding of anorexia and the extent to which we can explore it as a socially and discursively produced problem The book now has a new introduction that discusses some of the major cultural and academic developments that have occurred since its first publication In considering our changing cultural landscapes the introduction goes on to discuss the so called obesity crisis the emergence of post feminism the massive global expansion of digital and social media and most recently the Covid 19 pandemic Turning to academic developments it focuses on the increasing recognition of intersectional feminism and reflects on how intersectional perspectives are now beginning to shape critical feminist research and theory in this field The new introduction also highlights the significant growth in the last 25 years of critical feminist research on eating disorders which has brought with it a greater awareness of intersectional theory and a more inclusive agenda an expansion of research foci a diversification of methodologies and the emergence of more egalitarian models of research in which those with lived experience of eating disorders are becoming valued research team members who help to shape research aims designs and processes Based on original research using historical and contemporary literature on anorexia nervosa and a series of interviews with women who identified as anorexic this book offers critical insights into this problem It is an invaluable read for anyone interested in eating disorders and gender developments in feminist post structuralist theory and discourse analytic research in psychology

Gender Matters in Global Politics ,2010 **Integral Relationships: A Manual for Men** Martin Ucik,2010-08 *The Fragmented Female Body and Identity* Pamela B. June,2010 The *Fragmented Female Body and Identity* explores the symbol of the wounded and scarred female body in selected postmodern multiethnic American women s novels namely Toni Morrison s *Beloved* Theresa Hak Kyung Cha s *Dict e* Phyllis Alesia Perry s *Stigmata* Gayl Jones s *Corregidora* Emma P rez s *Gulf Dreams* Paula Gunn Allen s *The Woman Who Owned the Shadows* and Kathy Acker s *Blood and Guts in High School* and *Empire of the Senseless* In each of these novels disjointed postmodern writing reflects the novel s focus on fragmented female bodies The wounded and scarred body emerges from various often intersecting forms of oppression including patriarchy racism and heteronormativity This book emphasizes the different and nuanced forms of oppression each woman faces However while the fragmented body symbolizes oppression and pain it also catalyzes resistance through recognition When female characters recognize some element of a shared oppression they form bonds with one another These feminist unities as a response to multiple forms of oppression become viable means for resistance and healing **Yielding Gender** Penelope Deutscher,2002-01-22 Traditional accounts of the feminist history of philosophy have viewed reason as associated with masculinity and subsequent debates have been framed by this assumption Yet recent debates in deconstruction have shown that gender has never been a stable matter In the history of philosophy female and woman are full of ambiguity What does deconstruction have to offer feminist criticism of the history of philosophy *Yielding Gender* explores this question by examining three crucial areas the issue of gender as troubled deconstruction and feminist criticism of the history of philosophy The first part of the book discusses the work of Judith Butler Jacques Derrida and contemporary French feminist philosophy including key figures such as Luce Irigaray Particular attention is given to the possibilities offered by deconstruction for understanding the history of philosophy The second part considers and then challenges feminist interpretations of some key figures in the history of philosophy Penelope Deutscher sketches how Rousseau St Augustine and Simone de Beauvoir have described gender and argues that their readings of gender are in fact empowered by gender s own contradiction and instability rather than limited by it The Popular Science Monthly ,1875 **Rhetoric, Medicine, and the Woman Writer, 1600-1700** Lyn Bennett,2018-02-08 How did physicians come to dominate the medical profession Lyn Bennett challenges the seemingly self evident belief that scientific competence accounts for physicians dominance Instead she argues that the whole enterprise of learned medicine was in large measure facilitated by an intensely classical education that included extensive training in rhetoric and that this rhetorical training is ultimately responsible for the achievement of professional dominance Bennett examines previously unexplored connections among writers and genres as well as competing livelihoods and classes Engaging the histories of rhetoric medicine literature and culture throughout she goes on to focus specifically on the work of women who professed as well as practiced medicine Pointing to some of the ways women s writing

shapes realities of body mind and spirit as it negotiates social cultural and professional ideologies of gender this book offers an important corrective to some long held beliefs about women s role in early modern discourse

Disappearing Ink Eileen O'Neill, 2025-03-07 When Eileen O'Neill 1953 2017 published her ground breaking essay *Disappearing Ink* Early Modern Women Philosophers and the History of Philosophy in 1998 women philosophers were virtually absent from encyclopedias of philosophy and the numerous histories and anthologies of early modern thought This essay would come to have an enormous impact signaling the beginning of the movement to introduce early modern women philosophers into the canon In its densely packed 46 pages *Disappearing Ink* presented the names major works and principal theses of literally dozens of forgotten women whose works were published during the early modern period and who had engaged in correspondence with central male figures but whose names and works had since been erased *Disappearing Ink* reprints this now canonical piece together with subsequent essays some widely read some harder to locate and one on Cartesianism and the Gendered Mind written in 2013 and published here for the first time The essays in Part I develop O'Neill s views on feminist history of philosophy articulating an account of feminist historiography that is inclusive yet at the same time textually nuanced The essays in Part II provide in depth treatment of individual figures and themes These essays discuss the views of early modern women philosophers such as Mary Astell Margaret Cavendish and Mme de Lambert alongside those of Descartes Leibniz Poullain de la Barre and the Scholastics engaging with questions of mind body interaction occasional causation physical influx pan organicism and whether the Cartesian mind is gendered The sole essay in Part III departs from the historical orientation of Parts I and II This essay informed by O'Neill s deep knowledge of art history is an illuminating study of agency in representations of women in feminist erotic art of the 1980s Combined these works trace the complete arc of O'Neill s thought from painstaking studies of individual themes and figures to a sweeping vision of how feminism should inform our approach to the history of early modern thought indeed to the history

of philosophy more generally More than anyone else O'Neill explained why women were excluded from the canon and showed how they could be incorporated into it
