The Fence Kenneth Elliott, 2002-04-01      *The Fence and the Bridge* Heather N. Nicol, 2015-10-19 The Fence and the Bridge is about the development of the Canada US border security relationship as an outgrowth of the much lengthier Canada US relationship It suggests that this relationship has been both highly reflexive and hegemonic over time and that such realities are embodied in the metaphorical images and texts that describe the Canada US border over its history Nicol argues that prominent security motifs such as themes of free trade illegal immigration cross border crime terrorism and territorial sovereignty are not new nor are they limited to the post 9 11 era They have developed and evolved at different times and become part of a larger quilt whose patches are stitched together to create a new fabric and design Each of the security motifs that now characterize Canada US border perceptions and relations has a precedent in border management strategies and border relations in earlier periods In some cases these have deep historical roots that date back not just years or decades but centuries They are part of an evolving North American geopolitical logic that inscribes how borders are perceived how they function and what they mean      **A Manifest Destiny** Arthur Douglas Howden Smith, 1926

**LatinAsian Cartographies** Susan Thananopavarn, 2018-03-19 LatinAsian Cartographies examines how Latina o and Asian American writers provide important counter narratives to the stories of racial encroachment that have come to characterize twenty first century dominant discourses on race Susan Thananopavarn contends that the Asian American and Latina o presence in the United States although often considered marginal in discourses of American history and nationhood is in fact crucial to understanding how national identity has been constructed historically and continues to be constructed in the present day Thananopavarn creates a new LatinAsian view of the United States that emphasizes previously suppressed aspects of national history including imperialism domestic racism during World War II Cold War operations in Latin America and Asia and the politics of borders in an age of globalization LatinAsian Cartographies ultimately reimagines national narratives in a way that transforms dominant ideas of what it means to be American      *The Overland Monthly* Bret Harte, 1869 Devoted to the development of the country      **Linguistic Labor and Literary Doulas** Remy Attig, 2024-09-05 An examination of Spanglish Portu ol and Judeo Spanish literatures that builds on sociolinguistic understandings of the intersections of language nation and identity to develop the theoretical frameworks of linguistic labor and literary doulas Connecting the metaphor of labor to the human life cycle Remy Attig introduces the notion of literary doulas These doulas accompany a community as a body of literature is born akin to the doula as midwife or in the case of Judeo Spanish writes the language as a form of linguistic palliative care for a community whose historical language is facing imminent death the death doula Presenting three case studies of Spanglish Portu ol and Judeo Spanish the first part of Linguistic Labor and Literary Doulas places the emergence of these languages in their respective geographies and contexts Attig discusses the work of authors and literary doulas including Susana Ch vez Silverman Gloria Anzald a Fabi n Severo and Matilda Ko n Sarano The

framework of linguistic labor relates the creation of a literary corpus in an undervalued or stigmatized language context to other forms of domestic or gendered labor often the responsibility of women and queer people In the second part of the book Attig places these literatures and theories in discussion with emerging scholarship in translanguistics queer theories and translation studies By applying the notion of translanguistics to useful case studies that challenge traditional understandings of the frontiers between languages Linguistic Labor and Literary Doulas models productive ways that we can discuss real world linguistic practices as valuable aspects of culture and identity
