Days of Darkness John Pearce,1994-11-15 Among the darkest corners of Kentucky s past are the grisly feuds that tore apart the hills of Eastern

Kentucky from the late nineteenth century until well into the twentieth Now from the tangled threads of conflicting testimony John Ed Pearce Kentucky s best known journalist weaves engrossing accounts of six of the most notorious accounts to uncover what really happened and why His story of those days of darkness brings to light new evidence questions commonly held beliefs about the feuds and us and long running feuds those in Breathitt Clay Harlan Perry Pike and Rowan counties What caused the feuds that left Kentucky with its lingering reputation for violence Who were the feudists and what forces social political financial hurled them at each other Did Big Jim Howard really kill Governor William Goebel Did Joe Eversole die trying to protect small mountain landowners from ruthless Eastern mineral exploiters Did the Hatfield McCoy fight start over a hog For years Pearce has interviewed descendants of feuding families and examined skimpy court records and often fictional newspaper puts to rest some of the more popular legends *Periodization and Sovereignty* Kathleen

Davis,2012-03-12 Despite all recent challenges to stage oriented histories the idea of a division between a medieval and a modern period has survived even flourished in academia Periodization and Sovereignty demonstrates that this survival is no innocent affair By examining periodization together with the two controversial categories of feudalism and secularization Kathleen Davis exposes the relationship between the constitution of the Middle Ages and the history of sovereignty slavery and colonialism This book s groundbreaking investigation of feudal historiography finds that the historical formation of feudalism mediated the theorization of sovereignty and a social contract even as it provided a rationale for colonialism and facilitated the disavowal of slavery Sovereignty is also at the heart of today s often violent struggles over secular and religious politics and Davis traces the relationship between these struggles and the narrative of secularization which grounds itself in a period divide between a modern historical consciousness and a theologically entrapped Middle Ages incapable of history This alignment of sovereignty the secular and the conceptualization of historical time which relies essentially upon a medieval modern divide both underlies and regulates today s volatile debates over world politics The problem of defining the limits of our most fundamental political concepts cannot be extricated Davis argues from the periodizing operations that constituted them and that continue today to obscure the process by which feudalism and secularization govern the politics of time
