mysterious book circulating worldwide that does have specific detailed and consistent answers to all of our questions The origin of this book is steeped in mystery and no human author has claimed ownership to its teachings which cover 2097 pages of intensive reading and exhaustive information This book is known as the Urantia Book and has been placed in the public domain The Urantia Book takes us from the conceptual locations within our segregated religious heritage and correctively re calibrates our various belief systems which have been unavoidably limited and distorted by our world views throughout human history After its conceptual enhancements and adjustments the Urantia Book enlarges such informational details into an elevation of more exact universal levels of perception as an advancement of cosmic truth Consider What the Angels Say takes this expansive and intricately complicated book and presents a timesaving presentation of its teachings and gently correlates it with Christian doctrines and other religions as well as human philosophy and knowledge In this book the following questions will be answered What exactly is God and how does this phenomenon relate to infinite reality the time and space cosmos other spiritual beings and our world Exactly what is the Godhead Trinity and why is it a necessary foundation for the existence of universal reality What are angels and spiritual principalities What are their levels and types and how do they interface and interact between supernatural and human situations How does the historical Jesus Christ fit into the spiritual dimensions of reality How is he related to the one eternal God and how is Jesus an integral part of our soul salvation How was man physically created and what accounts for the variances in human biological races and how does this correlate with the theory of evolution What is the nature of the human soul and how is it translated into the eternal spiritual realities and how does it exist beyond death and what is its destiny How did mankind come to develop and organize his cultures and what part did supernatural spiritual beings play in the formulations of man s religious doctrines Why has there been so much tragedy hardship war disease and social discord throughout our history What is the nature of sin and why does evil even exist Something is not right what went wrong In all of the versions of religious theologies and doctrines worldwide no one book explains the details of these universal mysteries as completely and systematically as the Urantia Book it is truly a gift from the angels Consider What the Angels Say is a concentrated effort forged from the heartfelt love and concern for humanity to introduce this majestic angelic book to all who are able to receive and benefit form its supernatural information

Subject Guide to Books in Print ,1991 **RIVER OF TRUTH** Rev John Robert Thwaytes, There are a vast number of superhuman persons in the spiritual realm created perfect but having free will like us and therefore capable of turning towards evil Among them were Lucifer Satan and Caligastia for example They are not God but when they function perfectly in tandem with God they may be referred to as God or the Good Shepherd as in Psalm 23 Signi_ cantly the majority of them the good ones tell us that they first recognize the FACT of God by His River of inexhaustible energy Meditating on this led me to put my thoughts down in this book partly for my own spiritual good But I am happy to share them **Heaven Is Not the Last Stop** Sheila Keene-Lund,2010-05 Heaven Is Not the Last Stop by Sheila Keene Lund is the first book to attempt to

reconcile the cutting edge of today's metaphysics, history, theology, and cosmology with the unprecedented teachings of The Urantia Book, a 2,097-page text claiming to be a planetary revelation. Keene Lund addresses this formidable challenge in four sections. The first three address humanity's origin, history, and destiny; her fourth section builds upon the universal and inspiring worldview that results from her research and offers readers an advanced framework for living a life of love and service.

The Encyclopedia of American Religions J. Gordon Melton, 1993

The Copernican Error Richard Bruce, 2020-06-26 This is a book about happy people getting their hearts right. It's about getting away from selfishness, seeing the difference between selfishness and being yourself. What is there to do inside to make happiness? There are things to do. They use a basic, ruthless honesty. We must honestly wake up and see, admit what is really true about ourselves inside and the world outside. These actions improve our lives and give us meaning, hope, love, and positivity. In our true nature, we're all made to be positive and loving, but we must create it, find it, choose it. We must make it happen. This is the only way a society can really work. Only a positive happiness can go on eternally; we are eternal, and if we simply truly learn the positive secrets, we can make ourselves into positive, loving people who are well-suited to be citizens of the vast universe's civilization that actually surrounds us in the sky right now and will never die or end. We must wake up to it. Like the people in Copernicus's time who were not awake to the basic mechanisms of the solar system, namely that the earth moves around the sun, we are not awake to the true universe civilization we live in now, the real heavenly kingdom that surrounds us.
