Introduction and Mark 1:1—8:29 Mark J. Keown, 2018-03-20 At the time of Christ world politics was an ebb and flow of colliding empires and forces The world knew only dynastic succession and rule by force Israel was swept up in this world Her expectations of deliverance while diverse had in common the anticipation of violent liberation by an alliance of God the expected one Theo and Israel s forces Her vision included the subjugation of the world to Yahweh Any messianic claimant would be expected to fulfill this hope Mark s story of Jesus must be read against such expectations of military power Mark knows that Jesus plan of salvation differed radically from this Rather than liberation through revolution it involved deliverance through humble loving service and cross bearing However the disciples follow Jesus but do not understand Jesus

purpose They constantly expect war So the Gospel is then read from Mark's full understanding and the disciples' flawed perspective In volume two of *Jesus in a World of Colliding Empires* Keown continues to unpack Mark's Gospel 8:30-16:8 in which Jesus teaches the disciples what it means to be a Servant Messiah rather than a military conqueror The then draws a range of conclusions and applications from Mark for life today

A History of Modern France: From the First Empire to the Second Empire, 1799-1871 Alfred Cobban, 1965

The Seneca Effect Ugo Bardi, 2017-08-22 The essence of this book can be found in a line written by the ancient Roman Stoic Philosopher Lucius Annaeus Seneca Fortune is of sluggish growth but ruin is rapid This sentence summarizes the features of the phenomenon that we call collapse which is typically sudden and often unexpected like the proverbial house of cards But why are such collapses so common and what generates them Several books have been published on the subject including the well known *Collapse* by Jared Diamond 2005 *The collapse of complex societies* by Joseph Tainter 1998 and *The Tipping Point* by Malcolm Gladwell 2000 *Why The Seneca Effect* This book is an ambitious attempt to pull these various strands together by describing collapse from a multi disciplinary viewpoint The reader will discover how collapse is a collective phenomenon that occurs in what we call today complex systems with a special emphasis on system dynamics and the concept of feedback From this foundation Bardi applies the theory to real world systems from the mechanics of fracture and the collapse of large structures to financial collapses famines and population collapses the fall of entire civilizations and the most dreadful collapse we can imagine that of the planetary ecosystem generated by overexploitation and climate change The final objective of the book is to describe a conclusion that the ancient stoic philosophers had already discovered long ago but that modern system science

has rediscovered today If you want to avoid collapse you need to embrace change not fight it Neither a book about doom and gloom nor a cornucopianist's dream The Seneca Effect goes to the heart of the challenges that we are facing today helping us to manage our future rather than be managed by it Stories of the World's Greatest Civilizations Ttud Ayir,101-01-01 This book takes readers on a fascinating journey through the history of human civilization showcasing the rise and legacy of influential cultures across the globe From ancient Mesopotamia and Egypt to the Roman Empire China and the Islamic Golden Age each chapter explores the unique contributions of these societies in areas like art science religion and governance The storytelling brings history to life with vivid descriptions and engaging anecdotes allowing readers to witness the triumphs challenges and daily lives of people from the past The book also emphasizes the global exchange of ideas and innovations highlighting connections through trade routes like the Silk Road and the Indian Ocean By exploring both individual civilizations and their interconnectivity the book deepens our understanding of humanity's shared heritage It offers insight into how past achievements continue to shape our present making it a compelling read for anyone interested in the rich and diverse tapestry of human history *Land of Sunshine* ,1899 *The Greatest Science Fiction Novels & Stories* by H. G. Wells H. G. Wells,2023-12-29 H G Wells's *The Greatest Science Fiction Novels & Stories* is a masterful anthology that encapsulates the innovative spirit of early 20th century science fiction This collection showcases Wells's prescient imagination and narrative prowess featuring notable works such as *The Time Machine* and *The War of the Worlds* His unique blend of vivid storytelling and philosophical inquiry not only reflects contemporary concerns about technology and society but also foreshadows myriad future developments in both science and literature The literary style is characterized by rich descriptions compelling character arcs and a provocative exploration of societal dilemmas placing Wells firmly in the lineage of speculative fiction that challenges readers to ponder the implications of progress Wells often hailed as the father of science fiction drew upon his background in biology and journalism as well as his experiences in a rapidly industrializing world His works are a lens into the anxieties of his time concerns about imperialism class struggle and the moral ramifications of scientific advancement resulting in narratives that are as relevant today as they were at the dawn of the modern age This anthology is an essential read for anyone interested in the foundations of science fiction offering not only entertainment but also profound insights into human nature and the future Readers will find in these pages a rich tapestry that inspires reflection and discussion making it an indispensable addition to both casual readers and literary scholars alike

Yesterday's Tomorrows W. H. G. Armytage,2021-12-24 First published in 1968 *Yesterday's Tomorrows* elucidates on the favourite occupation of man forecasting the future By man's predictions he mirrors his own wish fulfilments displacements projections denials evasions and withdrawals These predications can take the form of countries of the imagination mirror worlds like Rabelais' Ever Ever lands or the Erewhon of Butler Alternatively they may spring from panic reflecting fear rather than hope often manifesting themselves in our technological age as reports of flying saucers or

invasions from another planet In either form they provide philosophers scientists doctors and sociologists with material for evaluating man s future needs offering both criticism of our present society plans for our future and release from tension and disequilibrium Professor Armytage shows in this book how such visions can and do refresh minds for renewed grappling with the present by arming them with ideas for man s future needs He indicates that out of an apparent welter of futuristic fantasies a constructive debate about tomorrow is emerging providing us with operational models of what tomorrow could be This book will hold special interest for students of philosophy and of English literature **H. Beam Piper** John F.

Carr,2014-02-11 H Beam Piper is one of science fiction s most enigmatic writers In 1946 Piper appeared seemingly from out of nowhere already at the top of his form He published a number of memorable short stories in the premier science fiction magazine of the time Astounding Science Fiction under legendary editor John W Campbell Piper quickly became friends with many of the top writers of the day including Lester Del Rey Fletcher Pratt Robert Heinlein and L Sprague de Camp Piper also successfully made the turn from promising short story writer to major novelist authoring Four Day Planet Cosmic Computer Lord Kalvan of Otherwhen and Little Fuzzy which was nominated for a Hugo award Even those who counted Piper among their friends knew very little about the man or his life as a railroad yard bull in Altoona Pennsylvania This biography illuminates H Beam Piper both the writer and the man and answers lingering questions about his death Appendices include a number of Piper s personal papers a complete bibliography of Piper s works and an essay on Piper s Terro Human Future History series

Scripture and Resistance Jione Havea,2019-04-29 Resistance against unjust wicked cultures and imperial powers is at the heart of scripture In many cases the resistance is waged against external systems or the misappropriation of scriptural texts and traditions In some cases however scripture resists oppressive cultures and powers that it also requires certifies and protects At other times and in different settings the minders of scripture speak against the abusive cultures and power systems that they inherited and whose benefits they milk Scripture and Resistance contains reflections by authors from East West South and North on resistance and the Christian scriptures regarding a rainbow of concerns the colonial legacies of the Bible the people especially native and indigenous people who were subjugated and minoritized for the sake of the Bible the courage for resistance among ordinary and normal people and the opportunities that arise from their realities and struggles the imperializing tendencies that lurk behind so called traditional biblical scholarship the strategies of and energies in post and de colonial criticisms the Bible as a profitable product and a site of struggle and the multiple views or perspectives in the Bible about empire and resistance In other words the contributors as a collective affirm that the Bible contains pun intended resistance

Kingdom and Empire Gene Tempelmeyer,2021-09-02 We love ragtag rebels who defeat the empire in films we watch and books we read But living in centers of the world s wealth and power do we recognize that we are participants in today s version of empire Most of the Bible is written for and by people under threat or under the thumb of a variety of empires The question faced by the children of Israel and the early followers

of Jesus was how to live for the kingdom of God while powerful empires demanded full obedience Does living with affluence and influence change the way we read and understand that story Are we likely to miss the way the Bible critiques our use of wealth weapons and walls What do Abraham Moses and Daniel teach us about living in the heart of the empire and reaching for something better What can Paul teach us about using the resources of the empire to spread the message that Jesus is Lord not Caesar What do the birth and death of Jesus teach us about how God is redeeming the world of empires Is our citizenship in the empire a temptation or an opportunity

A Brief History of Central America Lynn V. Foster, 2007 Presents a comprehensive history of Central America including the early pre Columbian cultures and economic challenges currently being faced

Humans: The 300,000-Year Struggle for Equality ALVIN FINKEL, 2024-09-13 This is a history of humanity like it s never been told before Historian Alvin Finkel builds on the work of archaeologists anthropologists and historians to present the very long view of the history of the human species His focus is not on the leaders whose exploits are recounted in traditional histories but rather on the experiences of ordinary people the 99% whose experiences and activities are often overlooked In the extensive research of many contemporary scholars Alvin Finkel notes a common thread which most historians have ignored the constant efforts of ordinary people throughout history to create and sustain societies based on equality of all individuals Contrary to traditional historical writing he finds that the earliest human communities usually treated all individuals as equals In the histories of societies all around the world he records how individuals who found ways to gain wealth and power have faced constant often successful resistance from the rest From the first recorded communities in Mesopotamia to the COVID 19 pandemic this book features the resistances uprisings struggles and solidarities of the majority against those seeking to dominate The result is a fresh and challenging interpretation of the history of our species one that casts a new light on the true nature of humans
