Photography's Materialities Geoff Bender, Rasmus R. Simonsen, 2021-05-17 There is little dispute that photography is a material practice and that the photograph itself is ineluctably material And yet matter material and materiality have proven to be remarkably elusive terms of inquiry frequently producing studies that are disparate in scope sharing seemingly little

common ground Although the wide methodological range of materialist study can be dizzying it is this book's contention that that multiplicity is also the field's greatest asset keeping materialist inquiry enduringly vibrant provided that varying methods are in close enough proximity to converse Photography's Materialities orchestrates one such conversation Juxtaposing the insights of theorists like Lacan Benjamin and Latour beside close studies of crime spirit and composite photography among others this collection aims for a productive synergy one capacious enough to span transatlantic spaces over the long nineteenth century Contributors Kris Belden Adams University of Mississippi Maura Coughlin Bryant University David LaRocca independent scholar Jacob W Lewis University of Rochester Mary Marchand Goucher College Zachary Tavlin Art Institute of Chicago Christa Holm Vogelius University of Copenhagen *Anthony's Photographic Bulletin*, 1898
