## **The First Taint Of Civilization:**

**The First Taint of Civilization** Francis X. Hezel, 2021-05-25 Hezel writes clearly and with erudition and commands an impressive body of information His book is a tour de force Not only will it be read eagerly by Pacific scholars but it should find a wide audience among well educated Micronesians hungry for greater understanding of how their islands have become ensnared in world geopolitics Ethnohistory

**The Federated States of Micronesia's Engagement with the Outside World** Gonzaga Puas, 2021-09-28 This study addresses the neglected history of the people of the Federated States of Micronesia's FSM engagement with the outside world Situated in the northwest Pacific FSM's strategic location has led to four colonial rulers Histories of FSM to date have been largely written by sympathetic outsiders Indigenous perspectives of FSM history have been largely absent from the main corpus of historical literature A new generation of Micronesian scholars are starting to write their own history from Micronesian perspectives and using Micronesian forms of history This book argues that Micronesians have been dealing successfully with the outside world throughout the colonial era in ways colonial authorities were often unaware of This argument is sustained by examination of oral histories secondary sources interviews field research and the personal experience of a person raised in the Mortlock Islands of Chuuk State It reconstructs how Micronesian internal processes for social stability and mutual support endured rather than succumbing to the different waves of colonisation This study argues that colonisation did not destroy Micronesian cultures and identities but that Micronesians recontextualised the changing conditions to suit their own circumstances Their success rested on the indigenous doctrines of adaptation assimilation and accommodation deeply rooted in the kinship doctrine of eaea fengen sharing and alilis fengen assisting each other These values pervade the Constitution of the FSM which formally defines the modern identity of its indigenous peoples reasserting and perpetuating Micronesian values and future continuity

*Remaking Micronesia* David L. Hanlon, 1998-03-01 America's efforts at economic development in the Caroline Mariana and Marshall Islands proved to be about transforming in dramatic fashion people who occupied real estate deemed vital to American strategic concerns Called Micronesians these island people were regarded as other and their otherness came to be seen as incompatible with American interests And so underneath the liberal rhetoric that surrounded arguments proposals and programs for economic development was a deeper purpose America's domination would be sustained by the remaking of these islands into places that had the look feel sound speed smell and taste of America had the many and varied plans actually succeeded However the gap between intent and effect holds a rich and deeply entangled history *Remaking Micronesia* stands as an important imaginative much needed contribution to the study of Micronesia American policy in the Pacific and the larger debate about development It will be an important source of insight and critique for scholars and students working at the intersection of history culture and power in the Pacific

**American Pacificism** Paul Lyons, 2006-09-27 This powerful critique of American Islander relations draws upon extensive resources

including literary works and government documents to explore the ways in which conceptions of Oceania have been entwined in the American imagination      **Explorations and Entanglements** Hartmut Berghoff, Frank Biess, Ulrike

Strasser, 2018-11-16 Traditionally Germany has been considered a minor player in Pacific history its presence there was more limited than that of other European nations and whereas its European rivals established themselves as imperial forces beginning in the early modern era Germany did not seriously pursue colonialism until the nineteenth century Yet thanks to recent advances in the field emphasizing transoceanic networks and cultural encounters it is now possible to develop a more nuanced understanding of the history of Germans in the Pacific The studies gathered here offer fascinating research into German missionary commercial scientific and imperial activity against the backdrop of the Pacific's overlapping cultural circuits and complex oceanic transits      *Strangers in Their Own Land* Francis X. Hezel, 2003-09-30 Hezel has written an

authoritative and engaging narrative of a succession of colonial regimes drawing upon a broad range of published and archival sources as well as his own considerable knowledge of the region This is a conventional history and a very good one focused mostly on political and economic developments Hezel demonstrates a fine understanding of the complicated relations between administrators missionaries traders chiefs and commoners in a wide range of social and historical settings Pacific Affairs The tale of *Strangers in Their Own Land* is one of interplay between four sequential colonial regimes Spain Germany Japan and the United States and the diverse island cultures they governed It is also a tale of relationships among islands whose inhabitants did not always see eye to eye and among individuals who fought private and public battles in those islands Hezel conveys both the unity of purpose exerted by a colonial government and the subversion of that purpose by administrators teachers islands and visitors The history is thoroughly supported by archival materials first person testimonies and secondary sources Hezel acknowledges the power of the visual when he ends his book by describing the distinctive flags that now replace Spanish German Japanese and American symbols of rule the scene epitomizes a theme of the book global political and economic forces whether colonial or post colonial cannot erode the distinctiveness each island claims American Historical Review      *Forces of Habit* David T. COURTWRIGHT, 2009-06-30 A global history of the acquisition of

progressively more potent means of altering ordinary waking consciousness this book is the first to provide the big picture of the discovery interchange and exploitation of the planet's psychoactive resources from tea and kola to opiates and amphetamines      **Upon a Stone Altar** David L. Hanlon, 2019-09-30 Upon a Stone Altar tells the history of a remarkable

people who inhabit the island of Pohnpei in the Eastern Caroline Islands of Micronesia Since the beginnings of intensive foreign contact Pohnpei has endured numerous disruptive conflicts as well as attempts at colonial domination Pohnpeians creatively adapted to change and today live successfully in a modern world not totally of their own making Hanlon uses the vast body of oral tradition to relate the early history of Pohnpei including the story of the building of a huge complex of artificial stone islets Nan Madol      **Return to Kahiki** Kealani Cook, 2018-01-25 An important new analysis of Native

Hawaiian efforts to construct relationships with other Oceanic peoples as missionaries diplomats and tourists      **Gathering Souls: Jesuit Missions and Missionaries in Oceania (1668-1945)** Alexandre Coello de la Rosa,2019-01-14 This essay deals with the missionary work of the Society of Jesus in today s Micronesia from the seventeenth to the twentieth century Although the Jesuit missionaries wanted to reach Japan and other Pacific islands such as the Palau and Caroline archipelagos the crown encouraged them to stay in the Marianas until 1769 when the Society of Jesus was expelled from the Philippines to evangelize the native Chamorros as well as to reinforce the Spanish presence on the fringes of the Pacific empire In 1859 a group of Jesuit missionaries returned to the Philippines but they never officially set foot on the Marianas during the nineteenth century It was not until the twentieth century that they went back to Micronesia taking charge of the mission on the Northern Marianas along with the Caroline and Marshall Islands thus returning to one of the cradles of Jesuit martyrdom in Oceania      The Cambridge History of the Pacific Islanders Donald Denoon,2004-03-25 An authoritative and comprehensive history of the Pacific islanders from 40 000 BC to the present day      *Investing in the Early Modern Built Environment* Carole Shammas,2012-08-01 Investing in the Early Modern Built Environment represents the first attempt to delve into the period s enhanced architectural investment its successes its failures and the conflicts it provoked globally      *Songs from the Second Float* Richard Moyle,2007-07-31 This book based on fieldwork spanning a decade gives a comprehensive analysis of the musical life of a unique Polynesian community whose geographical isolation together with a local ban on missionaries and churches combine to allow its 600 members to maintain a level of traditional cultural practices unique to the region Tak is arguably the only location where traditional Polynesian religion continues to be practiced This book explores the many ways in which spirit activities impact on both domestic and ritual life how group singing and dancing give audible and visible expression to a variety of religious beliefs and how spirit mediums relay songs and dances from the recent dead Tak s community is well able to articulate the significance of their own strong performance tradition and this book allows expert singers and dancers to speak passionately for themselves on subjects they understand intimately Musical ethnographies from the Pacific are rare Like Moyle s earlier landmark volumes on Samoan and Tongan music and also his trilogy on Australian Aboriginal music this work will be of immense value to Pacific studies and will assume a place among the recognized staples of ethnomusicological research      **Tungaru Traditions** Arthur Francis Grimble,2019-03-31 Grimble s ethnographic studies of the Gilbertese prepared between 1916 and 1926 provide an excellent baseline account of a fundamentally pre contact culture This collection edited and introduced by H E Maude comprises essays on mythology history and dancing four chapters on the Maneaba and organized field notes      **Cultures of Commemoration** Keith L. Camacho,2011-11-30 In 1941 the Japanese military attacked the US naval base Pearl Harbor on the Hawaiian island of Oahu Although much has been debated about this event and the wider American and Japanese involvement in the war few scholars have explored the Pacific War s impact on Pacific Islanders Cultures of Commemoration fills this crucial gap in the

historiography by advancing scholarly understanding of Pacific Islander relations with and knowledge of American and Japanese colonialisms in the twentieth century Drawing from an extensive archival base of government military and popular records Chamorro scholar Keith L Camacho traces the formation of divergent colonial and indigenous histories in the Mariana Islands an archipelago located in the western Pacific and home to the Chamorro people He shows that US colonial governance of Guam the southernmost island and that of Japan in the Northern Mariana Islands created competing colonial histories that would later inform how Americans Chamorros and Japanese experienced and remembered the war and its aftermath Central to this discussion is the American and Japanese administrative development of loyalty and liberation as concepts of social control collective identity and national belonging Just how various Chamorros from Guam and the Northern Mariana Islands negotiated their multiple identities and subjectivities is explored with respect to the processes of history and memory making among this Americanized and Japanized Pacific Islander population In addition Camacho emphasizes the rise of war commemorations as sites for the study of American national historic landmarks Chamorro Liberation Day festivities and Japanese bone collecting missions and peace pilgrimages Ultimately Cultures of Commemoration demonstrates that the past is made meaningful and at times violent by competing cultures of American Chamorro and Japanese commemorative practices

**Not the Way It Really Was** Klaus Neumann, 1992-03-01 One of the most innovative monographs in recent Pacific Islands studies Reviews in Anthropology [Bellona Island Beliefs and Rituals](#)

Torben Monberg, 1991-05-01 Monberg's account of the Bellonese religion is descriptive ethnography at its best It is rich in detail and the organization of the material gives a coherent view of Bellonese culture and society While not a comparative study in itself it provides an abundance of data that will be invaluable for other works that are more comparative in nature from the Editor's Note Pacific Islands Monograph Series No 9 Center for Pacific Islands Studies UH

**The Pacific Islands** Douglas L. Oliver, 2021-05-25 No detailed description available for The Pacific Islands *Remaking Pacific Pasts* Diana Looser, 2014-10-31 Since the late 1960s drama by Pacific Island playwrights has flourished throughout Oceania Although many Pacific Island cultures have a broad range of highly developed indigenous performance forms including oral narrative clowning ritual dance and song scripted drama is a relatively recent phenomenon Emerging during a period of region wide decolonization and indigenous self determination movements most of these plays reassert Pacific cultural perspectives and performance techniques in ways that employ adapt and challenge the conventions and representations of Western theater Drawing together discussions in theater and performance studies historiography Pacific studies and postcolonial studies *Remaking Pacific Pasts* offers the first full length comparative study of this dynamic and expanding body of work It introduces readers to the field with an overview of significant works produced throughout the region over the past fifty years including plays in English and in French as well as in local vernaculars and lingua francas The discussion traces the circumstances that have given rise to a particular modern dramatic tradition in each site and also charts routes of theatrical

circulation and shared artistic influences that have woven connections beyond national borders This broad survey contextualizes the more detailed case studies that follow which focus on how Pacific dramatists actors and directors have used theatrical performance to critically engage the Pacific s colonial and postcolonial histories Chapters provide close readings of selected plays from Hawai i Aotearoa New Zealand New Caledonia Kanaky and Fiji that treat events figures and legacies of the region s turbulent past Captain Cook s encounters the New Zealand Wars missionary contact the overthrow of the Hawaiian monarchy and the Fiji coups The book explores how in their remembering and retelling of these pasts theater artists have interrogated and revised repressive and marginalizing models of historical understanding developed through Western colonialism or exclusionary indigenous nationalisms and have opened up new spaces for alternative historical narratives and ways of knowing In so doing these works address key issues of identity genealogy representation political parity and social unity encouraging their audiences to consider new possibilities for present and future action This study emphasizes the contribution of artistic production to social and political life in the contemporary Pacific demonstrating how local play production has worked to facilitate processes of creative nation building and the construction of modern regional imaginaries *Remaking Pacific Pasts* makes valuable contributions to Pacific literature world theater history Pacific studies and postcolonial studies The book opens up to comparative critical discussion a geopolitical region that has received little attention from theater and performance scholars extending our understanding of the form and function of theater in different cultural contexts It enriches existing discussions in postcolonial studies about the decolonizing potential of literary and artistic endeavors and it suggests how theater might function as a mode of historical enquiry and debate adding to discussions about ways in which Pacific histories might be developed challenged or recalibrated Consequently the book stimulates new discussions in Pacific studies where theater has to date suffered from a lack of critical exposure Carefully researched and original in its approach *Remaking Pacific Pasts* will appeal to scholars graduate students and upper level undergraduate students in theater and performance studies and Pacific Islands studies it will also be of interest to cultural historians and to specialists in cultural studies and postcolonial studies
