The bestselling author of *How the Irish Saved Civilization* takes us on a journey through the landmarks of art and bloodshed that defined Greek culture nearly three millennia ago. A triumph of popularization, extraordinarily knowledgeable, informal in tone, amusing, wide ranging, smartly paced. *The New York Times Book Review*. In the city states of Athens and Sparta and throughout the Greek islands, honors could be won in making love and war, and lives were rife with contradictions. By developing the alphabet, the Greeks empowered the reader, demystified experience, and opened the way for civil discussion and experimentation, yet they kept slaves. The glorious verses of the *Iliad* recount a conflict in which rage and outrage spur men to action and suggest that their bellicose society of gleaming metals and rattling weapons is not so very distant from more recent campaigns of shock and awe. And centuries before Zorba, Greece was a land where music, dance, and freely flowing wine were essential to the high life. Granting equal time to the sacred and the profane, Cahill rivets our attention to the legacies of an ancient and enduring worldview. **Foundation**, 1988 **Library Journal**, 1985 **The Badger of Ghissi** Wolf von Niebelschütz, 1985 *The Publishers Weekly*, 1985 *The Ultimate Guide to Science Fiction* David Pringle, 1995. This edition offers short evaluative descriptions of around 3500 novels, brief statements and reviews by critics, and a guide to sequels, related titles, and film versions. New to this edition is expanded coverage of books of the late 19th and early 20th centuries. Also new is the category novelizations and spin off fiction, a section which reflects the tremendous growth in these publications since the 1980s. All science fiction movie novelizations are covered, as well as a selection of radio and television science fiction novelizations. **The Mammoth Book of Best New Horror**, 2008 *Book Review Index* Gary C. Tarbert, Barbara Beach, 1985-04 *British Book News* British Council, 1984 **British Book News**, 1984 *Science Fiction and Fantasy Literature, 1975-1991* R. Reginald, Mary Wickizer Burgess, Daryl Furumi Mallett, 1992. Science fiction constitutes one of the largest and most widely read genres in literature, and this reference provides bibliographical data on some 20,000 science fiction, fantasy, and horror fiction books, as well as nonfiction monographs about the literature. A companion to Reginald's *Science Fiction and Fantasy Literature 1700-1974* (Gale 1979), the present volume is alphabetically arranged by approximately 10,000 author names. The entry for each individual work includes title, publisher, date, and place published, number of pages, hardbound or paperback format, and type of book (novel, anthology, etc.). Where appropriate, entries also provide translation notes, series information, pseudonyms, and remarks on special features such as celebrity introductions. Includes indexes of titles, series, awards, and doubles for locating volumes containing two novels. Annotation copyright by Book News Inc., Portland, OR. **Under Beijing's Shadow** Murray Hiebert, 2020-08-15. China's rise and stepped up involvement in Southeast Asia have prompted a blend of anticipation and unease among its smaller neighbors. The stunning growth of China has yanked up the region's economies, but its militarization of the South China Sea and dam building on the Mekong River has nations wary about Beijing's outsized ambitions. Southeast Asians long felt relatively secure, relying on the United States as a security hedge, but that confidence began to slip after the Trump administration launched a

trade war with China and questioned the usefulness of traditional alliances This compelling book provides a snapshot of ten countries in Southeast Asia by exploring their diverse experiences with China and how this impacts their perceptions of Beijing's actions and its long term political economic military and soft power goals in the region
