Discovering God Rodney Stark, 2024-02-27 An award winning sociologist s fascinating and excellent history of the origins of the great religions from the Stone Age to the Modern Age Newsweek In *Discovering God* Rodney Stark surveys the birth and growth of religions around the world from the prehistoric era of primal beliefs the history of the pyramids found in Iraq Egypt Mexico and Cambodia and the great Axial Age of Plato Zoroaster Confucius and the Buddha to the modern Christian missions and the global spread of Islam He argues for a free market theory of religion and for the controversial thesis that under the best unimpeded conditions the true most authentic religions will survive and thrive Many modern biologists and psychologists claim that religion is a primitive survival mechanism that should have been discarded as humans evolved that in modern societies faith is a misleading crutch and an impediment to reason Stark responds to this position arguing that it is our capacity to understand God that has evolved that humans now know much more about God than they did in ancient times Winner of the 2008 Christianity Today Award of Merit in Theology Ethics

An Introduction to the History of Religion Frank Byron Jevons, 2015-06-04 Excerpt from *An Introduction to the History of Religion* In this book the history of early religion is investigated on the principles and methods of anthropology and in the belief that the interests of truth and religion are fundamentally identical The work is intended primarily for students who require an introduction to the history of religion but will also it is hoped prove interesting to students of folk lore and anthropology and to the wider circle of general readers As far as I am aware there is no other book which covers exactly the same ground as this does or which attempts to summarise the results of recent anthropology to estimate their bearing upon religious problems and to weave the whole into a connected history of early religion Thus far then this book is original namely as far as regards the use to which its materials are put but the materials themselves are largely though not wholly derived from the writings of others In all cases I have endeavoured to express my obligations in the footnotes I am however more especially bound to mention here the name of the

late Professor Robertson Smith to whose Religion of the Semites my obligations are too great for their expression to be confined to footnotes My indebtedness to the works of Messrs E B Tylor A Lang and Frazer is here gratefully acknowledged About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
