Copley,1992 **Africa and the World** Kornegay Jnr, Francis,2020-02-16 *Africa and the World Navigating Shifting Geopolitics* is one of the first books to analyse the global geopolitical landscape from an African perspective with a view to the opportunities and challenges facing the African continent Authors in this edited volume argue for the need to re imagine Africa s role in the world As a cradle of humanity a historical fountain of profound scientific knowledge an object of colonial conquest and today a collective of countries seeking to pool their sovereignties in order to improve the human condition Africa has a unique opportunity to advance its own interests Authors re ect on all these issues they outline how developments in the global political economy impact on the continent and inversely how Africa can develop a strategic perspective that takes into account the dynamics playing out in a fraught global terrain Central to this evaluation is the notion of island Africa a vast island with resources that extend into the oceans around it that is a strategic centre by virtue of its geographic location its endowments and its long term potential Authors assert that the positioning of island Africa presents unique political security and geo economic bene ts Yet they also acknowledge that as has happened historically these very advantages can serve as a basis for new forms of domination and exploitation In addition this volume takes into account the socio psychological factors that in uence how nations of the world receive and interpret the present and assess prospects for the future The authors go beyond analysis of what is to venture concrete proposals on what can be with Africa exercising its agency This requires the strengthening of continental integration and cohesion in pursuit of ideals that the African Union has enshrined in Agenda 2063 In this way Africa would be

able to engage in a systemic and disciplined manner with external powers to assert the continent's own interests which in their framing are also the interests of humanity A continent united in both purpose and action can be an active agent in shaping the evolving global order This volume makes a strong case for precisely such a perspective and contributes to what should be an ongoing effort to analyse geopolitics with Africa as a critical frame of reference **The Strategic**
