Palumbo,C.W. Sullivan III,2013-08-20 Reversing a common science fiction cliché Farscape follows the adventures of the human astronaut John Crichton after he is shot through a wormhole into another part of the universe Here Crichton is the only human being going from being a member of the most intelligent species on our planet to being frequently considered mentally deficient by the beings he encounters in his new environment John Crichton befriends a group of beings from various species attempting to escape from imprisonment aboard a living spaceship The series which broke many of the so called rules of science fiction follows Crichton s attempts to survive in worlds that are often hostile to him and his friends Their adventures center on each being s attempt to find a way home The essays in this volume explore themes running throughout the series such as good and evil love and sex and what it means to be a hero as well as the various characters populating the series including the villains and even the ship itself *It's a Boy* Andrea J. could rent out the Borden s house for the weekend and the owner agreed The others met Tim at his house and brought along some ghost hunting equipment and an Ouija board in hopes of communicating with the ghost of Lizzie Borden Everyone piled into Tim s Bentley and headed to Fall River Massachusetts with excitement on their faces As they were traveling down the highway Susan said After this is all over and we get concrete proof of the killer s identity I m going to write a book of our experiences at the Borden s house and I ll bet we ll sell a million copies Dream on girl chimed in John laughing under his breath Jessica said John lay off if that s her dream let her have it Okay Okay replied John
