The Human Connection Bolt Myers Staff, Martin Bolt, David G. Myers, 1984 **Human Connection at Work; How to use the principles of Nonviolent Communication in a professional way** Liv Larsson, 2017-08-13 Nowadays people expect to be treated well when they go to the dentist the supermarket or when they are connecting with their IT support If they are not they might turn to someone else the next time they need that service or product Being professional and staying human might be the biggest competitive advantage of our time It is said that the cost of attracting a new customer is six times the cost of keeping an old one This book clarifies how you can be professional and human at the same time Actually the author claims that it is only when you are truly human that you can be professional Communication tools for many different kinds of situations Support in dealing with difficult people or challenging dilemmas Plenty of useful ideas that can be implemented directly And much more *The Human Connection* Martin Bolt, David G. Myers, 1984 *How God Becomes Real* T.M. Luhrmann, 2020-10-27 The hard work required to make God real how it changes the people who do it and why it helps explain the enduring power of faith How do gods and spirits come to feel vividly real to people as if they were standing right next to them Humans tend to see supernatural agents everywhere as the cognitive science of religion has shown But it isn't easy to maintain a sense that there are invisible spirits who care about you In *How God Becomes Real* acclaimed anthropologist and scholar of religion T M Luhrmann argues that people must work incredibly hard to make gods real and that this effort by changing the people who do it and giving them the benefits they seek from invisible others helps to explain the enduring power of faith Drawing on ethnographic studies of evangelical Christians pagans magicians Zoroastrians Black Catholics Santeria initiates and newly orthodox Jews Luhrmann notes that none of these people behave as if gods and spirits are simply there Rather these worshippers make strenuous efforts to create a world in which invisible others matter and can become intensely present and real The faithful accomplish this through detailed stories absorption the cultivation of inner senses belief in a porous mind strong sensory experiences prayer and other practices Along the way Luhrmann shows why faith is harder than belief why prayer is a metacognitive activity like therapy why becoming religious is like getting engrossed in a book and much more A fascinating account of why religious practices are more powerful than religious beliefs *How God Becomes Real* suggests that faith is resilient not because it provides intuitions about gods and spirits but because it changes the faithful in profound ways *Human Relationships* Steve Duck, 2007-03-08 The Fourth Edition of this highly successful textbook provides a unique and comprehensive introduction to the study and understanding of human relationships Fresh insights from family studies developmental psychology occupational and organizational psychology also combine to bring new perspectives to this thorough survey of the field Thoroughly updated with new chapters on relating difficulty small media technology and relationships and practical applications the Fourth Edition offers a fully up to date and authoritative review of the field **Human Relationship Skills** Richard Nelson-Jones, 2006-09-27 Human Relationship

Skills Coaching and Self Coaching presents a practical how to guide to relationship skills showing how readers can improve and where necessary repair relationships This thoroughly revised and updated fourth edition reflects the increased interest in coaching showing how it can be applied to everyday life In this essential book Richard Nelson Jones takes a cognitive behavioural approach to coaching people in relationship skills These skills are viewed as sequences of choices that people can make well or poorly covering a range of skill areas the book assists readers to make affirming rather than destructive choices in their relationships It begins by addressing the questions of what are relationship skills and what are coaching skills and follows with a series of chapters which thoroughly detail and illuminate various relationship skills including listening and showing understanding managing shyness intimacy and companionship assertiveness and managing anger managing relationship problems and ending relationships The book concludes with a chapter on how users can maintain and improve their skills by coaching themselves Accessibly written and using activities the book will be appropriate for those involved in life coaching as well as general counselling and therapy It will be essential reading for lecturers coaches and trainers as well as students and anyone who wishes to improve their relationship skills

Christian Education Robert E. Clark, Lin Johnson, Allyn K. Sloat, 1991-10-22 Whether in the home or in the church or in a Christian school the challenge of contemporary Christian educators is to meet the academic needs of students while remaining unswerving in adherence to biblical principles Christian Education Foundations for the Future introduces you to the basics of a healthy Christian education program then takes you beyond showing you how to develop a fresh innovative

Christian education program that will revitalize your church home or school **Christian Ethics in Secular Cultures**

Thomas K. Johnson, 2018-05-10 A central question in Christian ethics is the relationship between the moral principles we should follow within the Christian community and the ethics followed in the secular societies in which we live Our dilemma is that we have received a revelation of God's moral will in the Bible and in creation which must shape the identity of believers over against unbelieving cultures while our neighbors follow the ethics of other world views which concern us deeply Remember the Holocaust where the ethics of a secular ideology wreaked destruction in an entire society How should we as Christians whom God has called to a distinct identity participate in the moral considerations that will shape our cultures and communicate some of our convictions in a way that brings moral light into our worlds Johnson offers the insight gained by 20 years of teaching ethics in secular universities in Europe and North America First he addresses questions of sex marriage and family then questions of work and economics and finally theological and philosophical foundations *The Persuasive Preacher* David A. Christensen, 2020-07-16 How can we preach persuasively without huckstering manipulating or coercing people Sadly we are seeing the fall of many pastors not for reasons of sexual immorality but the pursuit of pride and power The skillful use of marketing methods creates celebrity pastors who become significant influencers in the evangelical church The lure of success is seductive turning pastors into hucksters and Christians into consumers We need to heed the warnings of the New Testament about the pride of rhetoric and the pursuit of power David Christensen carefully analyzes the biblical warnings of Paul about the temptations of rhetorical sophistry in the first century church and applies them to pastoral ministry today God calls preachers to be ethical and effective persuaders David develops an ethical grid for pastoral persuasion using principles drawn from the Bible and social science along with practical illustrations from his years of ministry He calls preachers to be ethical and effective persuaders by emphasizing the centrality of the word of God while depending on the power of the Spirit of God *Psychology in Christian Perspective* Harold Faw, 1995-06-01 This book follows the standard progression of introductory psychology texts and adds a Christian perspective that contributes needed diversity to the study of the mind and behavior Topics range from ESP to moral development Each chapter provides an introduction and overview of a given theme a discussion of issues an exploration of how psychological and biblical perspectives might be complementary and a recap with suggested readings *EuSEC 2000* Herbert Negele, 2000
